Dear DEFRA Circus Welfare Team

Firstly I would like to apologies for not sending this earlier, I have been waiting for our Vet to come and see us. I have brought Zebedee to my home for the winter period as the weather forecast is for very cold, high winds and maybe snow. At home we have a large barn with purpose built stables, with a hard standing and paddocks. I have also brought all of the horses here that includes his constant companion Bracken so he is with his normal heard and company. I also have all the documents here too as I need to update them over the winter months. When your Vet came on an unannounced inspection last week he came here to inspect the Zebra and the documents.

Best regards

Carol
