How will my UK SFA be assessed under CAAS?

- Efficient heating
- Efficient boilers / plumbing
- Kitchen of adequate size and layout
- Appropriately located bathroom
- · Energy efficient
- Effective noise & thermal insulation
- Safe electrics
- Adequate lighting, heating & ventilation
- Effective drainage

Condition -

DH+/DH/DH-

SFA properties that meet the following criteria will be deemed to be a Decent Home (DH):

- · It meets the statutory minimum standard for housing;
- It is in a reasonable state of repair (assessed from the age and condition of a range of features);
- It has reasonably modern facilities and services (assessed according to age, size and layout/location);
- It has a reasonable degree of thermal comfort. This is assessed using the Government's Standard Assessment Procedure for measuring energy efficiency.
- Properties that exceed or fall short of this standard will be graded as DH+ or DH-.

Go to http://www.gov.uk/new-employment-model or search CAAS on the Defence Intranet for more information.

Scale -

Upper/Middle/Lower

The scale element of CAAS is based on size and features.

- Upper scale means that your home meets the current size standard and your charge will be reduced if your SFA has a:
- Reduced overall floor are or reduced usable space (measured by industry standards) or
- A lack of key features (e.g. shower, washing machine space etc.)

Location -

Urban/Intermediate/Remote

Location is assessed using individual property post codes, based on the following criteria:

- Accessibility to 8 key amenities shown above.
- Broadband will be assessed against the national average speed using Ofcom data.
- Deprivation will be assessed using DCLG data.
