### 3. Survey introduction with named respondent

#### 3. CONTACT NAMED RESPONDENT AND INTRODUCE SURVEY

Good afternoon / evening. My name is ..... and I'm calling on behalf of TNS BMRB. I'm carrying out the 'Taking Part' survey for the government. It's about the kinds of activities you choose to do in your own time and about how you feel about the facilities in your local area.

You may remember completing this survey last year. At the time, you agreed that TNS BMRB could get back in contact with you regarding future research on this topic.

You should have received a letter from the Department for Culture, Media and Sport explaining that we would be contacting you.

#### CHILD SURVEYS

- If there are one or more 5 year olds in the household and the named respondent is the parent/guardian you will also need to do an interview with the respondent about this child. In some cases this will be an additional interview with a 5-10 year old – SEE SECTION 7 & COMPLETE S1
- If interviews were completed with the named respondent about one or more 5-10 year olds in the household during previous interviews (see boxes on front page), then you will also need to additional interviews with the respondent about the NAMED children – SEE SECTION 9a/9b and 11.

- If interviews were completed with one or more 11-15 year olds (see boxes on front page), then you will need to gain parental permission to contact the NAMED children to complete interviews – SEE SECTION 13 and 15.

**7. Screening for proxy interview with PARENT/GUARDIAN of CHILD AGED 5**

PROXY INTERVIEW ABOUT CHILD AGED 5 - SCREEN NUMBER

**5**

If the main longitudinal adult is the parent/guardian of a child aged 5 years, you will be prompted at the end of the questionnaire to obtain an additional interview about the child. If the longitudinal adult mentions that there is a 5 year old in the household before this stage, you should conduct the screening at this point.

There are several situations when you will be unable to do the screening to identify whether there is a child aged 5 at the address:

- The final outcome for the main longitudinal adult is deadwood (screen 1 - codes 7, 10, 11, 13 and 80)
- The named longitudinal respondent has moved and follow up address unknown, outside of assignment area or moved to armed forces or other institution (screen 1 - codes 92, 93 or 94)
- You have not made contact with anyone at the address or the named contact (Screen 1 - code 16 or 35)
- You have made contact, but all household information has been refused (Screen 1 - code 17)
- An office refusal (Screen 1 - code 31)

IN ALL THESE CASES YOU SHOULD REPORT AN OUTCOME CODE 84 FOR THE CHILD 5 SCREENING.

If you are reporting an unproductive outcome code (33-44) for the main longitudinal respondent and have been unable to establish a definite child aged 5 screening outcome, you should report outcome 84. Outcome code 83 should only be used if you have had a direct refusal to question S1.

S1. How many children **aged 5** live in this household (exclude the named screen 6 and/or screen 15) if still aged 5 at time of screening)?

## 9a. Interview with parent about child identified as 'new 5 year old' during previous interview

**INTERVIEW PARENT ABOUT THE NAMED CHILD (this should be the main longitudinal adult, unless the child and named parent do not live in the same household anymore)**

<Forename15>

### SCREEN NUMBER

**15**

(Use this for interview with parent about child who was identified as a 'NEW 5 year old' on previous visit)

If you have a name of a child listed below, you should attempt an interview with the parent or guardian about this child.

There are various situations when you will be unable to do this:

- The final outcome for the main longitudinal adult is deadwood (screen 1 - codes 7, 10, 11, 13 and 80)
- The named longitudinal respondent has moved and follow up address unknown, outside of assignment area or moved to armed forces or other institution (screen 1 - codes 92, 93 or 94)
- You have not made contact with anyone at the address or the named contact (Screen 1 - code 16 or 35)
- You have made contact, but all household information has been refused (Screen 1 - code 17)
- An office refusal (Screen 1 - code 31)

IN ALL THESE CASES YOU SHOULD REPORT AN OUTCOME CODE 84 FOR THE CHILD 5-7 INTERVIEW.

If you are reporting an unproductive outcome code (33-44) for the main longitudinal respondent and have been unable to establish a definite outcome, you should report outcome 84. Outcome code 83 should only be used if you have had a direct refusal to answer P1. SCREEN 15 OUTCOMES SHOULD BE CODED IN SECTION 10.

If the named child no longer lives in the same household as their parent/guardian named on page 1 of this contact sheet, then you must attempt to complete this interview with another parent/guardian living in the same household as the named child. You must also complete a household interview with this parent/guardian (see section 17).

## 11. Child aged 5-10 interview (with parent)

**INTERVIEW PARENT ABOUT THE NAMED 5-10 YEAR OLD (this should be the main longitudinal adult, unless the child and named parent do not live in the same household anymore)**

<Forename510>

**SCREEN NUMBER**

**6**

(Use this if named child is still aged 5-10. If named child was aged 9 or 10 at last interview, and still eligible for 5-10 interview, report outcome 85 for screen 4)

**SCREEN NUMBER**

**4**

(Use this screen number if named child is now aged 11+ and is eligible for 11-15 interview, report outcome 86 for screen 6)

If you have a name of a 5-10 year old listed below, you should attempt an interview with the parent or guardian about this 5-10 year old.

There are various situations when you will be unable to do this:

- The final outcome for the main longitudinal adult is deadwood (screen 1 - codes 7, 10, 11, 13 and 80)
- The named longitudinal respondent has moved and follow up address unknown, outside of assignment area or moved to armed forces or other institution (screen 1 - codes 92, 93 or 94)
- You have not made contact with anyone at the address or the named contact (Screen 1 - code 16 or 35)
- You have made contact, but all household information has been refused (Screen 1 - code 17)
- An office refusal (Screen 1 - code 31)

**IN ALL THESE CASES YOU SHOULD REPORT AN OUTCOME CODE 84 FOR THE CHILD 5-10 INTERVIEW.**

If you are reporting an unproductive outcome code (33-44) for the main longitudinal respondent and have been unable to establish a definite child 5-10 outcome, you should report outcome 84. Outcome code 83 should only be used if you have had a direct refusal to answer P1. **SCREEN 6 or 4 OUTCOMES SHOULD BE CODED IN SECTION 12.**

If the 5-10 year old is now aged 11 or over, you will need to ask parental permission to do the interview directly with the 'new' 11-15 year old. You will do this interview using screen 4 and report outcome 86 for screen 6.

If the named 5-10 year old no longer lives in the same household as their parent/guardian named on page 1 of this contact sheet, then you must attempt to complete this interview with another parent/guardian living in the same household as the named child. You must also complete a household interview with this parent/guardian (see section 13).

**13. Interview with child identified as a 'new 11 year old' during previous interview**

INTERVIEW WITH NAMED CHILD AGED 11-15

&lt;Forename11&gt;

SCREEN NUMBER

**4**

(Use this for children who graduated to the 11-15 survey as a 'NEW 11 year old' in the previous interview)

If you have a named child listed below, you should attempt an interview with this child.

There are various situations when you will be unable to do this:

- The final outcome for the main longitudinal adult is deadwood (screen 1 - codes 7, 10, 11, 13 and 80)
- The named adult longitudinal respondent has moved and follow up address unknown, outside of assignment area or moved to armed forces or other institution (screen 1 - codes 92, 93 or 94)
- You have not made contact with anyone at the address or the named contact (Screen 1 - code 16 or 35)
- You have made contact, but all household information has been refused (Screen 1 - code 17)
- An office refusal (Screen 1 - code 31)

IN ALL THESE CASES YOU SHOULD REPORT AN OUTCOME CODE 84 FOR SCREEN 4.

If you are reporting an unproductive outcome code (33-44) for the main longitudinal respondent and have been unable to establish a definite child outcome, you should report outcome 84. Outcome code 83 should only be used if you have had a direct refusal to answer Y1. SCREEN 4 OUTCOMES ARE TO BE CODED IN SECTION 14.

If the named child no longer lives in the same household as the main respondent on page 1 of this contact sheet, then you must complete a household interview (using screen 3) with someone aged 16+ that lives in that household (this will generally be with the parent/guardian that gave you permission to approach the named child).
