STATISTICS ON INTERNATIONAL DEVELOPMENT

2007/08 – 2011/12

A National Statistics publication

OCTOBER 2012

Official Statistics bearing the National Statistics logo are produced to high professional Standards set out in the UK Statistics Authority Code of Practice for Official Statistics. They undergo regular quality assurance reviews to ensure they meet customer needs.

Non-DFID statistics that are reproduced in this publication are the most comprehensive and comparable data available and are taken from reputable sources such as other UK government departments or agencies and the OECD.

ABOUT STATISTICS ON INTERNATIONAL DEVELOPMENT

This annual publication shows how official UK financial resources for international development are spent. Expenditure is broken down by destination country or organisation, type of assistance and purpose. The majority of the data are produced on a cash basis in line with international reporting standards. They are therefore not directly comparable with those reported in DFID's Resource Accounts.

The report is structured as follows:

Section 1 provides background information for users of the report, describes what counts as development assistance or aid expenditure and explains the difference between the DFID Programme, Gross Public Expenditure on Development (GPEX) and UK Official Development Assistance (ODA).

Section 2 explains key definitions used in the report, such as bilateral/multilateral aid, sector expenditure and aid types, as well as further information on the DFID programme.

Section 3 provides a summary of the level of GPEX and more detail of spend by aid type. Data for both DFID and the UK as a whole are presented. **Section 3** also provides a summary of ODA levels for the UK and makes some international comparisons.

Sections 4 and 5 focus on the destination of UK aid. Section 4 breaks down GPEX and ODA by recipient country and the UK's multilateral expenditure by institutions. **Section 5** shows a breakdown by sector.

Annex 1 provides recipient country information (such as income status, Heavily Indebted Poor Countries (HIPC) status, population, etc). **Annex 2** contains a glossary of terms used in this report. **Annex 3** explains the different types of UK debt relief and **Annex 4** details the data sources used to produce *Statistics on International Development*.

Notes to tables:

1. ‘-’ means nil
 ‘0’ means less than half the final digit shown
 ‘..’ means not available
 ‘n/a’ means not applicable
2. Figures are rounded to the nearest unit, therefore they may not add exactly to the rounded totals.
3. Negative amounts reflect accounting adjustments.
4. The data in the tables are the most up-to-date available at the time of compilation and reflect the position at 13 August 2012. Some tables include changes to data for earlier years due to final figures being confirmed where data were previously provisional, new classifications being adopted or corrections of coding errors.

KEY STATISTICS

Gross Public Expenditure on Development (GPEX)

- The UK's Gross Public Expenditure on Development (GPEX) amounted to **£8,950m** in 2011/12. The DFID aid programme accounted for **£7,682m** (87%) of this expenditure.
- GPEX decreased to **£8,950m** in 2011/12 from **£9,007m** in 2010/11. This represents a decrease of **£57m** (0.6%).
- Excluding debt relief, GPEX totalled **£8,768m** in 2011/12; this represents a decrease of **£61m** (0.7%) from the 2010/11 total of **£8,829m**.
- In 2011/12 **£4,204m** (55%) of the DFID programme was bilateral assistance and **£3,258m** (42%) was multilateral assistance. The remaining **£220m** (3%) was spent on administration costs.

DFID's Bilateral GPEX

- DFID's bilateral expenditure fell to **£4,204m** in 2011/12 from **£4,248m** in 2010/11 (a 1% decrease). Of the **£4,204m** bilateral assistance delivered in 2011/12, **73 per cent** (or **£3,050m**) was spent through DFID's country programme¹.
- DFID's bilateral assistance to sub-Saharan Africa rose to **£1,807m** in 2011/12 from **£1,760m** in 2010/11 (a 3% increase). DFID bilateral assistance to Asia increased from **£1,093m** in 2010/11 to **£1,165m** in 2011/12 (a 7% increase). Bilateral assistance to the Pacific increased from **£2.6m** in 2010/11 to **£3.0m** in 2011/12 (a 15% increase). Bilateral assistance to Europe decreased from **£18m** in 2010/11 to **£5m** in 2011/12 (a decrease of 72%).
- In 2011/12, DFID provided **bilateral assistance** to 68 countries, of which **31 countries** received direct **financial aid**². The total DFID bilateral assistance to these 31 countries was **£2,424m**. When humanitarian assistance is excluded, DFID bilateral assistance to these 31 countries represented **85 per cent** of DFID country specific bilateral aid.

¹ For a definition please see the Glossary entry for "Country Programme".

² i.e. General Budget Support, Sector Budget Support or Other Financial Aid.

- **Ethiopia** (£324m), **India** (£284m) and **Bangladesh** (£219m) received the largest amounts of DFID bilateral aid.
- DFID's bilateral assistance excluding humanitarian assistance was **£3,850m** in 2011/12, down from **£3,897m** in 2010/11 (a 1% decrease). **India** (£284m), **Ethiopia** (£268m) and **Bangladesh** (£219m) were the largest recipients of bilateral aid excluding humanitarian assistance.
- DFID's bilateral **humanitarian assistance** in 2011/12 totalled **£354m**, representing a decrease of **£3m** (1%) from 2010/11. The largest recipients of bilateral humanitarian assistance were the **Somali Republic** (£79m), **Pakistan** (£59m) and **Ethiopia** (£57m). In 2011/12 7 countries received only humanitarian assistance bilaterally.
- In 2011/12 **£336m** of bilateral assistance was channelled through UK **Civil Society Organisations**.
- The sector receiving the highest share of DFID bilateral expenditure in 2011/12 was the **health sector** with **£929m**. This was followed by the **government and civil society sector** with **£728m** and the **education sector** with **£625m**.

DFID's Multilateral GPEX

- DFID's total multilateral programme accounted for **£3,258m** in 2011/12 up from **£3,222m** in 2010/11. This represents an increase of 1%.
- The **European Commission's** development programme received the largest amount of DFID multilateral assistance (£1,220), followed by the **World Bank** (£1,039m) and the **United Nations** (£377m).

Official Development Assistance (ODA)

- In the calendar year 2011 the UK reported **£8,629m** as Official Development Assistance (ODA), making the UK the 3rd largest OECD-DAC donor on this internationally agreed classification of aid. The UK's ODA/GNI ratio for 2011 was **0.56 per cent**.

SECTION 1: INTRODUCTION TO STATISTICS ON INTERNATIONAL DEVELOPMENT

Introductory Note for Users

1. This release reports on the deployment of official financial resources by the United Kingdom to support international development, and shows how this funding is broken down by destination country or organisation, type of assistance and purpose.
2. This report provides information on the UK's **Gross Public Expenditure on Development (GPEX)** which includes both the **Department for International Development (DFID) programme** and the element of official UK aid that is delivered through other UK Government Departments. This report also provides information on the level of **Official Development Assistance (ODA)** provided by the UK.

DFID, GPEX and UK ODA figures

3. Aid is a broad term and *SID* reports on two different aggregations of development assistance:
 - Total UK **Gross Public Expenditure on Development (GPEX)** / the **DFID Programme**.
 - **Official Development Assistance (ODA)**.
4. There are three main differences between UK GPEX/ DFID Programme and UK ODA data:
 - ODA is reported on a **calendar year basis**, while GPEX is reported on a **financial year** basis.
 - While GPEX covers **gross flows**, ODA is reported as a **net** figure, taking into account any loans repaid or grants recovered.
 - ODA only includes **aid to recipients** (countries and organisations) defined to be eligible by the OECD DAC, while GPEX covers development aid to all countries.
5. The UK GPEX data presented in this report are produced on a mainly cash basis and are broadly consistent with the standards followed in the reporting of ODA.

6. This publication also covers detailed information on the DFID programme. The DFID programme includes bilateral and multilateral expenditure from DFID funds voted by Parliament including activities funded from the Conflict Prevention Pool. Beyond DFID voted funds, the DFID programme also includes an attribution of EC budgetary spending (the UK is attributed a share of the EC's External Assistance Budget based on total UK contributions to the EC. Each budget line is then attributed to either DFID or other UK government departments). This report also excludes some DFID voted funds which are not counted as aid.

7. The UK is a member of the Organisation for Economic Co-operation and Development's (OECD) Development Assistance Committee (DAC) which is a forum for consultation among 23 donor countries and the European Commission. The DAC sets the definitions and classifications for reporting on aid financing internationally, including ODA, and produces a statistical report on international aid flows annually. As a DAC member, the UK is committed to transparent reporting of development assistance in a way that permits international comparisons.

8. In 1970 the United Nations General Assembly endorsed a target stating that each donor should aim to spend **0.7 per cent** of its gross national income (GNI) as ODA. The UK Government is committed to reaching the UN target of 0.7 per cent by 2013.

9. As well as ODA, the DAC also requires international reporting of 'Other Official Flows' (OOF). These are official flows to developing countries that do not meet the ODA criteria. More information on OOF is provided in the Glossary.

10. If readers are interested in making international comparisons, UK ODA figures which follow international reporting practices should be used. Readers interested in wider aid spend (not just ODA) should look at the DFID or GPEX figures (or figures reported to the DAC on ODA, OOF and Private Flows). Those interested in DFID in particular will want to focus on the DFID programme data.

11. It is possible to reconcile GPEX and ODA and also to present ODA in financial years. The following table shows a presentation of ODA in financial years.

£ millions	DFID	non-DFID	Total UK
2011/12 GPEX	7,682.19	1,267.40	8,949.59
<i>of which</i>			
Bilateral non ODA	5.00	-	5.00
Multilateral non ODA	137.89	59.33	197.22
Adjustments for Net/Gross flows	-	204.83	204.83
2011/12 ODA	7539.30	906.89	8,446.19

SECTION 2: UNDERSTANDING AID EXPENDITURE STATISTICS

Classification of Bilateral and Multilateral Aid

1. The classification of aid as **bilateral** or **multilateral** is based on definitions laid down by the DAC. On the whole bilateral assistance is provided to partner countries while multilateral assistance is provided as core contributions to international organisations. While much of DFID's expenditure is clearly identifiable as bilateral or multilateral in nature, there are some anomalies.

2. Funds can only be classified as multilateral if they are channelled through an organisation recognised as multilateral by the OECD Development Assistance Committee. This list is updated annually based on members' nominations. Organisations must be engaged in development work to be included.

3. Aid may be classed as bilateral while a case is being made for the recipient institution to be recognised by the DAC as a multilateral organisation. Once the DAC has recognised the multilateral organisation the aid may be retrospectively re-classified as multilateral.

4. While core funding to multilateral organisations is always classified as multilateral expenditure, additional funding channelled through multilaterals where the recipient country/region, sector, theme or individual project is known is classified as bilateral expenditure.

DFID Country Programme

5. DFID's Bilateral Programme can be further disaggregated between **Country Programme** and **International/ Policy Programme**. DFID's total programme is allocated to budget lines for spending divisions. **Country Programmes** are divisions within DFID that work in specific countries or regions e.g. East & Central Africa Division. Whereas, **International/ Policy Divisions** are DFID divisions which work on policy areas or with international organisations; which benefit many different countries.

Classification of DFID Bilateral Aid Types

6. DFID's classifications of bilateral aid types are consistent with DAC reporting standards and are detailed below.

7. **Financial Aid** – Poverty Reduction Budget Support (PRBS) – Funds provided to developing countries for them to spend in support of a government policy and their expenditure programmes whose long-term objective is to reduce poverty; funds are spent using the overseas governments' own financial management, procurement and accountability systems to increase ownership and long term sustainability. PRBS can take the form of a general contribution to the overall budget - **general budget support** - or support with a more restricted focus which is earmarked for a specific sector - **sector budget support**.

8. **Other Financial Aid** – Funding of projects and programmes such as Sector Wide Programmes not classified as PRBS. Financial aid in its broader sense covers all bilateral aid expenditure other than technical cooperation and administrative costs but in *SID* we separately categorise this further.

9. **Technical Cooperation** - Activities designed to enhance the knowledge, intellectual skills, technical expertise or the productive capability of people in recipient countries. It also covers funding of services which contribute to the design or implementation of development projects and programmes. This assistance is mainly delivered through research and development, the use of consultants, training (generally overseas partners visiting the UK or elsewhere for a training programme) and employment of 'other Personnel' (non-DFID experts on fixed term contracts). This latter category is becoming less significant over time as existing contracted staff reach the end of their assignments.

10. **Humanitarian Assistance** - Provides food aid and other humanitarian assistance including shelter, medical care and advice in emergency situations and their aftermath. Most of the work of the Conflict Prevention Pool is also included here.

11. **DFID Debt Relief** - This includes sums for debt relief on old DFID aid loans and cancellation of debt under the Commonwealth Debt Initiative (CDI). The non-CDI DFID debt relief is reported on the basis of the 'benefit to the recipient country'. This

means that figures shown represent the money available to the country in the year in question that would otherwise have been spent on debt servicing. The CDI debt cancellation is reported on a 'lump sum' basis where all outstanding amounts on a loan are shown at the time the agreement to cancel is made.

12. Bilateral Aid Delivered Through a Multilateral Organisation – This category covers funding that is channelled through a multilateral organisation and DFID has control over the country, sector or theme that the funds will be spent on. For example, where a DFID country office transfers money to a multilateral organisation for a particular piece of work in that country.

13. Bilateral Aid Delivered Through a Non-Governmental Organisation (NGO) – This category covers support to the international development work of UK and international not for profit organisations such as NGOs or Civil Society Organisations. This covers Partnership Programme Agreements (PPAs), the Governance and Transparency Fund and other grants.

14. Other Bilateral Aid – This category includes any aid not elsewhere classified such as funding to other donors for shared development purposes. More information on all of the above aid types is provided in the Glossary.

DFID Imputed Share of Multilateral ODA

15. When DFID or other UK government departments provide core contributions in support of multilateral organisations, it is not possible to directly track the funding to the country or sector level. However, to provide a further indication of the destination and sector of UK aid, DFID uses the overall proportions of ODA reported by the relevant agencies to impute a UK contribution.

16. DFID uses the breakdown of ODA reported by each multilateral organisation to the DAC to estimate what proportion of UK core contributions are spent in each country and sector. Where a multilateral organisation does not report its development assistance to the DAC but the multilateral is only mandated to work in a particular country, region or sector, DFID allocates 100% of its core contributions to the relevant country, region or sector. If a multilateral organisation does not report to the DAC but works in multiple sectors and/or countries then 100% of DFID's core contributions are allocated to the category 'non-sector allocable'.

17. Tables 13, 14 and 20 in this publication show estimates for the imputed multilateral share of financial year GPEX broken down by region, country or sector. These are based on the calendar year figures reported to the DAC by each multilateral organisation.

Sector Expenditure Estimates

18. Every bilateral DFID project is marked with up to eight 'input sector codes' that identify where funding will be spent. DFID's input sector codes are based on the OECD DAC Purpose Codes which are used for reporting ODA. There are around 200 DFID input sector codes to choose from, each of which comes under one of ten broad sectors:

- **Education** (including primary education and teacher training)
- **Health** (including communicable disease control, health personnel and maternal health)
- **Social Services** (including social protection, shelter and housing and food security and other social infrastructure)
- **Water Supply and Sanitation** (including water resource policy and waste management)
- **Government and Civil Society** (including public administration, financial management, human rights, elections, statistics, culture, strengthening civil society, civilian peace building and de-mining)
- **Economic** (including transport, communications, energy, banking, financial services, agriculture, forestry and fishing, manufacturing, construction, trade, tourism, urban and rural development)
- **Environment Protection** (including bio-diversity, climate change and flood prevention)
- **Research** (including all topics of research)
- **Humanitarian Assistance** (including emergency relief, emergency food aid and reconstruction)
- **Non-Sector Allocable** (including debt relief, Programme Partnership Agreements and development awareness)

19. For each sector code selected, budget holders indicate what proportion of the total budget is expected to be spent in or on behalf of that sector. Prior to October

2002 just one dominant sector was identified which limits comparison between the data in this report and older data.

20. Tables 20 and 21 present breakdowns of bilateral GPEX by broad sector and type of aid or by region. More detailed breakdowns by country and sector are available as excel tables on the DFID website shortly after publication of 'Statistics on International Development'.

21. A large amount of DFID funding is delivered in the form of Poverty Reduction Budget Support (PRBS) both General Budget Support (GBS) and Sector Budget Support (SBS). In PRBS, funds are provided directly to recipient governments and pooled with their own funds. Partner governments then use their own allocation, execution, accounting and reporting systems in spending the aid to support their development programmes. Understanding how the UK's money is used therefore means understanding the way in which the recipient government allocates and uses all its funds. In managing PRBS, DFID country offices monitor this process closely.

22. PRBS cannot be separately identified from partner government funds and while Sector Budget Support, by its very nature, is easily allocable to sectors, General Budget Support cannot be easily broken down. For statistical purposes, DFID has developed a standardised methodology to notionally allocate General Budget Support to sectors in the same proportions as the recipient government allocates total resources to ODA eligible activity. This means, for example, if a government intends to spend 25 per cent of its budget on education, 25 per cent of GBS provided would be attributed to education. This method allows GBS to be allocated to eight broad sectors.

23. It is important to note that this methodology does not attempt to say where DFID funding actually goes, but where it would go if partner governments allocated it in proportion to their own budget. The methodology also does not attempt to measure, or claim to measure, marginal changes in governments' expenditure resulting from aid flows.

SECTION 3: HOW MUCH IS UK EXPENDITURE ON INTERNATIONAL DEVELOPMENT?

1. This section summarises the level of UK expenditure on international development in recent years and then presents comparisons between the UK and other donors.

Gross Public Expenditure on Development (GPEX)

2. In 2011/12 total GPEX was £8,950m (see Table 1). This represents a decrease of £57m (0.6%) on 2010/11 and a 48% increase on 2007/08.

3. In 2011/12 the DFID programme made up £7,682m or 86 per cent of total GPEX. Non-DFID aid (£1,267m or 14%) made up the remainder.

Figure 1 Gross Public Expenditure on Development, 2007/08 – 2011/12

4. Total GPEX in 2011/12 remained at a similar level to 2010/11. Total administration has increased as a result of the introduction of an improved method for tracking development-related expenditure by the Foreign and Commonwealth Office (FCO). Total bilateral GPEX fell by £133m in 2011/12 mainly due to decreases in CDC gross investments, Department for Energy and Climate Change expenditure on development and DFID bilateral expenditure.

The DFID Aid Programme

5. The value of the DFID programme grew steadily between 2007/08 and 2010/11 and remained level in 2011/12. In 2011/12, the total DFID programme was £7,682m (see Table 3). This is a very similar level to 2010/11 (£7,689m). Since 2007/08 DFID's programme has grown by 48 per cent. This represents an average annual increase of 8 per cent.

6. Figure 3 shows changes in the level and composition of DFID's programme over the last five years. In 2011/12 over half of DFID's total programme (55%) was bilateral assistance (£4,204m) and £3,258m (42%) was multilateral assistance. This composition is very similar to 2010/11.

Figure 2 DFID Programme, 2007/08 – 2011/12

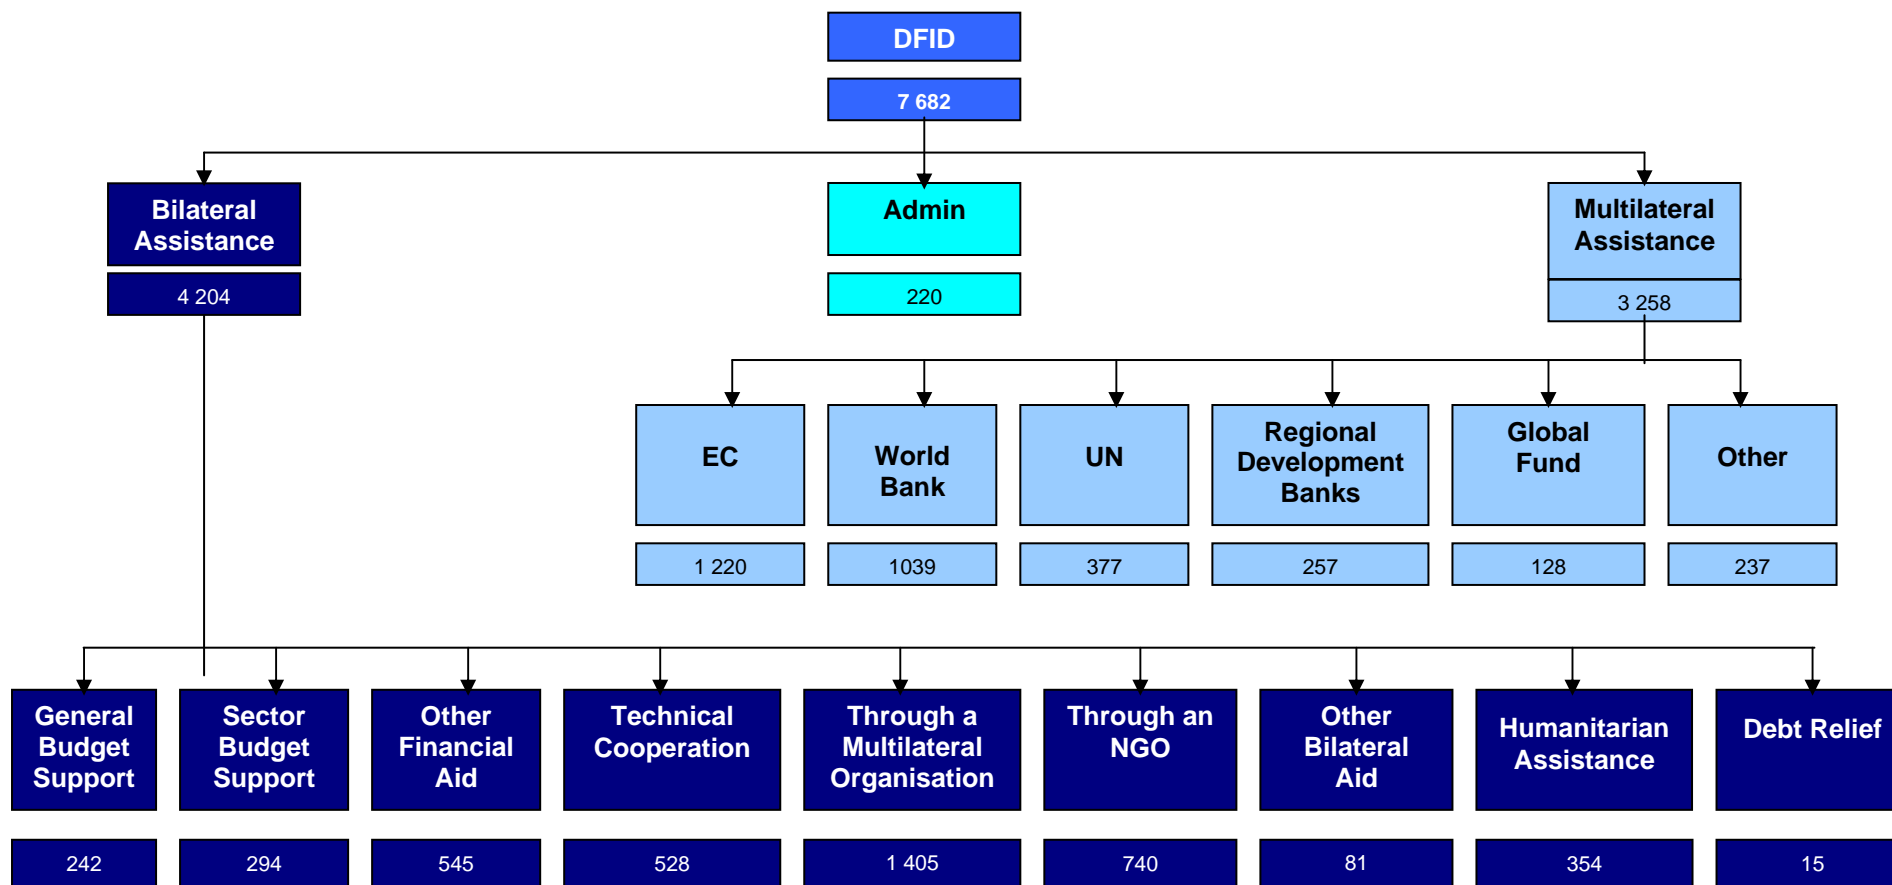

Figure 3: Flow of DFID funds to developing countries, 2011/12, £millions

7. DFID's bilateral programme was £4,204m in 2011/12, a small decrease of £44m compared to 2010/11 (1%). Overall, DFID's bilateral programme has increased over the last five years, with bilateral expenditure 42 per cent higher in 2011/12 than 2007/08.

24. The chart below shows that the majority of DFID bilateral assistance in 2011/12 was delivered by **Country Programmes** (£3,050m or 73%). However, about a quarter of DFID bilateral assistance was funded through the budgets of **International/ Policy Programmes**. It is not possible to allocate the majority of the International/ Policy Programmes expenditure to a single benefiting country or region. There are a few reasons for this:

- It includes core contributions to not for profit organisations where DFID does not specify the recipient country or sector.
- A large part of it is global; i.e. it covers topics such as climate change, research or global food security.
- It includes contributions to pooled multi donor funds, where the sector is known but the recipient country is not.

Figure 4 DFID Bilateral Expenditure by Country Programme or Policy/International Programme 2011/12

8. Figure 5 provides a summary breakdown of DFID's bilateral programme. In 2011/12, over a third was delivered through a multilateral organisation (£1,405m or 33.4%). Just over a quarter (£1,081m or 26%) was provided as financial aid in 2011/12. Almost half of this (£537m)

or 13 per cent of all DFID's bilateral assistance was Poverty Reduction Budget Support, with 'other financial aid' contributing £545m (13%). £740m (18%) of bilateral assistance was delivered through NGOs, £528m (13%) as technical cooperation; and £354m (8%) as humanitarian assistance.

Figure 5 DFID Bilateral Assistance, 2007/08 – 2011/12

9. Bilateral assistance delivered through a multilateral organisation remained fairly level in 2011/12, decreasing by 4% (£61m) compared to 2010/11. This followed a sharp increase in 2009/10. This rise to £1,265m in 2009/10 from £656m in 2008/09 was due to a number of new bilateral contributions to multi donor pooled funds that are managed by a multilateral organisation such as the Environmental Transformation Fund and the IDA Social Protection & Crisis Response fund.

10. DFID's multilateral assistance was £3,258m in 2011/12. This is a similar level to the 2010/11 figure of £3,222m. Figure 6 provides a summary of DFID's multilateral assistance over the last five years. In 2011/12 DFID's multilateral assistance went primarily the EC (£1,220m or 37% of total), World Bank Group (£1,039m or 32%) and the United Nations (£377m or 12%). Other recipients, including Regional Development Banks, received a total of £622m (19%). [Table 18 provides a detailed breakdown.]

Figure 6 DFID Multilateral Assistance, 2007/08 – 2011/12

11. DFID channelled £1,405m of its bilateral assistance through the bilateral aid type 'Bilateral through a Multilateral Organisation' in 2011/12. (See Figure 6 above). Some other bilateral aid types (such as Humanitarian Assistance or Debt Relief) also channel funding through multilateral organisations. £244m was channelled through multilaterals in this way in 2011/12. This means that in total, £1,649m (39%) of DFID's bilateral programme and £4,907m (64%) of DFID's total programme was channelled through multilateral organisations.

Reporting of Debt Relief

12. The UK, in line with other donors, reports cancellation of aid loans on a lump sum basis to the OECD-DAC. This means that the total outstanding debt is reported as ODA in the year in which a bilateral deal is signed between the UK and a debtor country, except for countries reaching Completion Point under HIPC where the date of the multilateral agreement is used as the date for DAC reporting.

13. The various components of UK debt relief are summarised in Table 4. In 2011/12, DFID debt relief of £91m represented 1 per cent of the DFID programme. Total UK debt relief of £182m represents 2 per cent of total GPEX. Countries receiving DFID and non-DFID debt relief are shown in Tables 14 and 5 respectively.

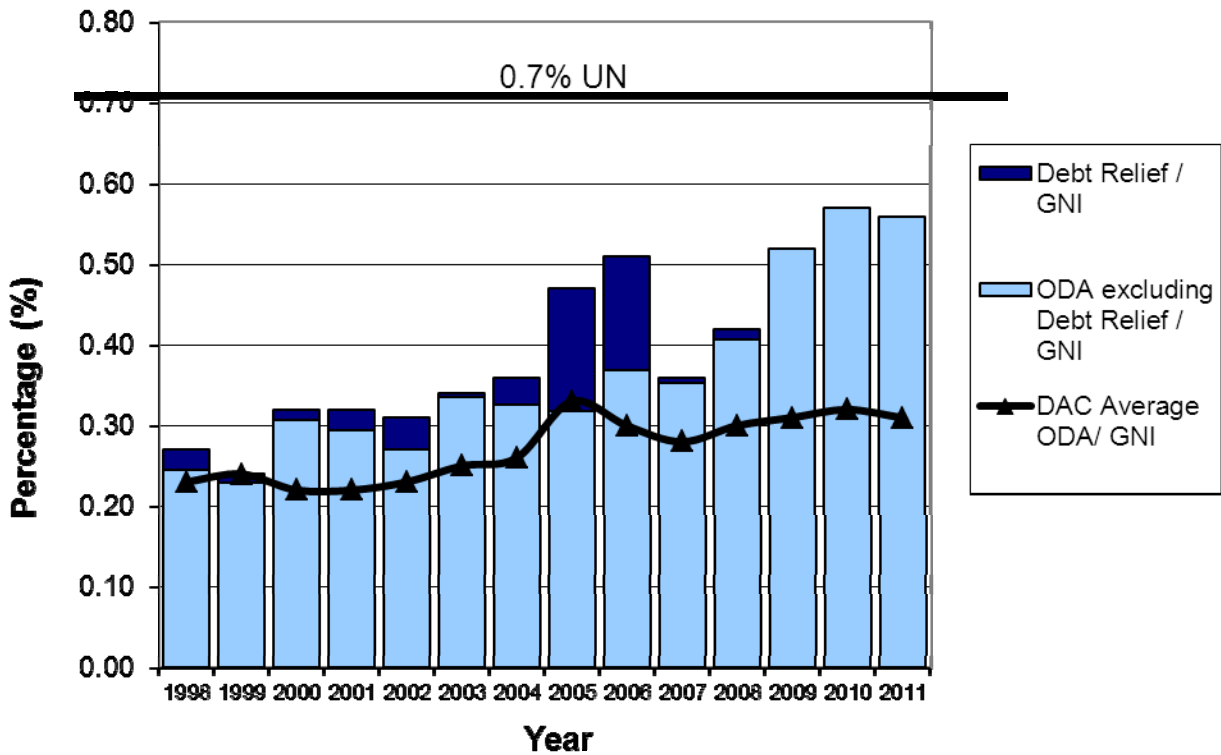

UK and International ODA Flows

14. In 1970 the United Nations General Assembly endorsed a target stating that each donor should aim to spend **0.7 per cent** of its gross national income (GNI) as ODA. The UK Government is committed to reaching the UN target of 0.7 per cent by 2013.

15. Table 6 shows the volume of UK ODA reported to the DAC in each of the last three years alongside information on Other Official and Private Flows. In 2011, total net ODA amounted to £8,629m. This represented 0.56 per cent of the UK's gross national income in that year. More detail on ODA by destination country is shown in Section 4 in Tables 16.1 to 16.6.

16. Figure 7 shows that since 1999 the UK ODA/GNI ratio has been on a broadly upward trajectory. In 2010 it reached its highest level since the target was set of 0.57 per cent. In 2011, it fell slightly to 0.56 per cent, the UK's target for that year. The high levels of ODA in 2005 and 2006 reflect high levels of debt relief, particularly for Nigeria, in line with commitments made by the UK and other donors at the 2005 G8 Summit in Gleneagles. A full time-series of the level of UK ODA and the ODA/GNI ratio since 1970 is shown in Table 7.

Figure 7 Net ODA/GNI ratios for the UK 1998-2011

17. Table 8 and Figures 8 and 9 compare UK ODA figures and ODA/GNI ratios with those of other DAC countries. Some countries have already reached the 0.7 per cent ODA/GNI target (Norway, Sweden, Luxembourg, Denmark and the Netherlands), while other are some way off (Greece, Italy, Japan and Korea). Sweden has the highest ODA/GNI ratio (1.02 per cent) followed by Norway (1.00 per cent) and Luxembourg (0.99 per cent). The UK had the 6th highest ODA/GNI ratio in 2011.

18. Despite its relatively low ODA/GNI ratio, the USA was the largest donor in terms of total expenditure in 2011 followed by Germany and then the UK.

Figure 8 Provisional Net ODA from DAC Donors to Developing Countries 2011

1. Some of these flows are not ODA eligible, e.g. only net CDC flows are included in ODA. The rest of the information in this table is included in ODA.

2. These costs were included for the first time in 2009/10 to improve international comparability. They have not been estimated retrospectively. This estimate is produced on a calendar year basis.

3. Gift Aid figure estimated based on ongoing methodological work. Further methodological development to take place in 2013.

4. Prior to the 2009/10 edition of SID, these costs were classified as DFID Bilateral Expenditure.

5. Includes Department for Health; Department for Environment, Food & Rural Affairs; Department for Culture, Media & Sport; Department for Business, Innovation and Skills; and the Welsh Assembly. This also includes other official funding to UK NGOs.

6. Prior to 2007/08 aid to Romania and Bulgaria who joined the EU in 2007 was attributed to DFID. Since 2007/08 these sums have become part of the UK's total contribution to the EU and cannot be attributed directly to DFID.

7. This expenditure will be reported under the 'Conflict Pool' in future publications as the Peacekeeping Budget is funded from the Conflict Pool settlement. The FCO manages HMG's Peacekeeping Budget on behalf of DFID, FCO and the MOD.

1. Source DAC online database, includes bilateral and multilateral ODA. DAC annual exchange rates used to convert from USD.

2. 2011 data for DAC donors is provisional, apart from the UK.

SECTION 4: WHERE DOES UK EXPENDITURE ON INTERNATIONAL DEVELOPMENT GO?

1. This section shows the destination countries of UK bilateral assistance and, for multilateral assistance, the organisations to which flows are directed. It also presents the UK imputed share of Multilateral ODA by country.

2. In this section, Tables 9 to 17 show aid flows to individual countries, regions and country groupings. Table 18 gives details of UK multilateral assistance and Table 19 shows UK flows to Civil Society Organisations. Some tables report GPEX/DFID data and others ODA, as indicated by the table titles.

Recipients of UK Aid

3. In 2011/12 DFID provided bilateral assistance to 68 countries, of which 31 countries received direct financial aid¹. These 31 countries received a total of £2,424m in 2011/12 of which £1,078m was direct financial aid. Excluding humanitarian assistance, these countries received £2,237m. This is equivalent to 85 per cent of DFID bilateral country specific expenditure (excluding humanitarian assistance), the same percentage as 2010/11.

4. In 2011/12, 25 countries received humanitarian assistance, of which 19 also received financial aid.

5. Tables 9 to 11 highlight the top twenty recipient countries of DFID bilateral assistance and UK ODA (the former is shown including and excluding humanitarian assistance). Table 12 shows the top ten recipients of DFID humanitarian assistance.

6. In 2011/12 Ethiopia received the greatest amount of DFID bilateral assistance to an individual country (£324m, an increase on previous years), followed by India (£284m) and Bangladesh (£219m). In total, the top twenty recipients of DFID's bilateral assistance accounted for 87 per cent of DFID bilateral aid that could be allocated to a country. (Table 9)

7. Of UK net bilateral ODA, Ethiopia (£344m), India (£283m) and Afghanistan (£264m) were the top three recipients in 2011. (Table 10)

¹ i.e. General Budget Support, Sector Budget Support or Other Financial Aid.

8. Somalia received the largest value of DFID bilateral humanitarian assistance (£79m in 2011/12), followed by Pakistan (£59m). Somalia ranked 9th in terms of overall receipt of DFID bilateral assistance. (Tables 9 & 12)

Bilateral Aid by Region

9. Table 13 summarises data on DFID expenditure and GPEX for regions and a range of country groupings (e.g. Commonwealth countries, HIPC countries). Table 14 expands on Table 13 and reports by country.

10. Figure 10 summarises the DFID Bilateral Programme by region over the last five years. In 2011/12 45 per cent of DFID's bilateral programme was spent in Africa, 28 per cent in Asia, 1 per cent in Europe, the Americas and the Pacific. The remaining 26 per cent was not allocated to a particular region as it benefited a number of partner countries across regions.

11. The proportion of non-country specific bilateral expenditure in 2011/12 remained at similar levels to 2010/11 when it was 28 per cent. This rose in 2010/11 from 18 per cent in 2009/10. This was due to DFID contributions to bilateral pooled funds from which it was not possible to directly track the funding to a particular country. For example, the Environmental Transformation Fund; and the IDA Social Protection and Crisis Response fund.

Figure 10 DFID Bilateral Programme by Region, 2007/08 – 2011/12

12. UK multilateral assistance cannot be directly allocated to any one country. However, Tables 13 and 14 contain estimates of the UK’s imputed share of multilateral ODA by country and region². Of the UK’s core contributions to multilateral organisations in 2011/12³; an estimated £1,258m was spent as ODA in Africa, £961m in Asia, £377m in Europe, £211m in the Americas and £29m in the Pacific (Table 13).

Aid to Low Income Countries

13. Table 15 breaks down the DFID bilateral programme by income group⁴ of the recipient countries. In 2011/12, 67 per cent of country specific DFID bilateral assistance was spent in low income countries.

14. Table 17 compares the percentages of bilateral ODA given to low, middle and high income countries for all DAC donors and for multilateral agencies in 2011. 58 per cent of the UK’s bilateral ODA went to low income countries. Table 17 shows that the UK gave a higher proportion of its bilateral ODA to low income countries than a number of other DAC donors.

² See Section 2 for an explanation of the methodology.

³ The latest year for which estimates are available.

⁴ Income groups are classified using 2007 GNI per capita thresholds, and differ from those used in the 05/08 PSA target which also excludes Iraq security expenditure

Eleven countries gave less than 50 per cent of their bilateral ODA to low income countries; Australia, Austria, France, Germany, Greece, Japan, Korea, Luxembourg, New Zealand, Spain and Switzerland.

Aid to Multilateral Organisations

15. Table 18 shows both DFID and Other UK Government Departments multilateral assistance to different organisations. In 2011/12 DFID provided £3,258m of multilateral assistance, with the greatest amounts going to the European Commission (£1,220m), World Bank (£1,039m) and United Nations (£377m).

16. In 2011/12 contributions to the Global Fund to Fight Aids, TB and Malaria (GFATM) totalled £128 million. Contributions to Regional Development Banks totalled £257 million. Multilateral contributions are discussed further in Section 3.

DFID Aid Delivered Through UK Civil Society Organisations (CSOs)

17. CSOs are non-governmental organisations which play a vital role in building global alliances in support of eliminating world poverty. Table 19 shows expenditure in the last financial year to these agencies and the types of arrangements through which funds were given (terms are explained in the glossary).

18. In total, funds disbursed through UK CSOs rose to £336m in 2011/12 from £329m in 2010/11. International Rescue Committee UK was the single largest recipient of DFID funding (£38m), followed by VSO (£35m) and Oxfam (£24m).

19. Of the total funds disbursed through UK CSOs in 2011/12, £106m was from Programme Partnership Agreements; £14m from the Civil Society Challenge Fund; £13m from the Governance and Transparency Fund; £36m for humanitarian assistance; £9m from the Global Poverty Action Fund; £30m from strategic grants and £128m came from other DFID bilateral programmes.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.

4. Developing Countries are those countries and regions in the DAC List of Recipients of Official Development Assistance. Since the 2008 edition of SID, Turks and Caicos and Saudi Arabia have been removed from the DAC list.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified.

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.

4. Low Income Country. Income groups are classified using 2010 GNI per capita thresholds.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

6. South Sudan expenditure information reported in 2011/12 for the first time, following independence in 2011.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified.

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2010/11 data are not yet available.

4. Low Income Country. Income groups are classified using 2007 GNI per capita thresholds.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified.

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.

4. Low Income Country. Income groups are classified using 2010 GNI per capita thresholds.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified.

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

1. Descriptions of aid types given in Section 2.

2. Other Bilateral Aid covers bilateral aid not elsewhere classified

3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.

4. Low Income Country. Income groups are classified using 2010 GNI per capita thresholds.

5. Pension payments have been reclassified from "Other Financial Aid" to "Aid from other UK Official Sources". This is consistent with the classification of spending under Department Expenditure Limits (DEL) agreed with Treasury.

1. Income Groups are classified using 2010 GNI per capita thresholds. See glossary for details. The income group and LDC status of individual countries can be seen in Annex 1. These are based on 2010 GNI figures.

2. Percentages are not appropriate when flows for middle or high income countries are negative and so n/a is shown. Where this is the case percentages have been rescaled to 100%.

3. LDCs = Least Developed Country. See glossary for definition.

4. Higher Income Group Data is no longer collected by DAC

5. 2011 data is not yet available for DAC countries, apart from the UK

1. Prior to 2007/08 aid to Romania and Bulgaria who joined the EC in 2007 was attributed to DFID however from 2007/08 these sums are attributed to the Treasury.
2. Formerly EC Technical Co-operation, but renamed as used entirely for funding of national experts working for EC.
3. In 2008/09 £13,698 of the EDF was managed by the EIB under the Investment Facility.
4. In 2010 CERF was added to the DAC's List of Multilateral Organisations. Which means that effective from reporting on 2010 flows it was reclassified from bilateral aid to multilateral aid. This change has not been applied retrospectively.
5. This is the regular programme of food aid. It does not include emergency food aid which is classified as bilateral humanitarian expenditure.
6. In 2007 IFFIm was added to the DAC's list of multilateral organisations. Which means that effective from reporting on 2008 flows it was reclassified from bilateral to multilateral aid. This change has not been applied retrospectively.

1. DFID supports CSOs through centrally managed funds like the Civil Society Challenge Fund, Programme Partnership Agreements, the Governance Transparency Fund and The Global Poverty Action Fund.

2. The Governance and Transparency Fund and the Global Poverty Action Fund supports CSOs in the UK and in developing countries. Only the funding to UK CSOs are shown in this table. The total value of the GTF in 2011/12 was £27 million. The total value of the GPAF in 2011/12 was £9 million.

SECTION 5: WHAT IS THE PURPOSE OF UK EXPENDITURE ON INTERNATIONAL DEVELOPMENT?

1. This section considers which sectors UK aid supports within developing countries. DFID uses input sector codes to track its expenditure to sectors. An explanation on input sector codes is provided in Section 2. It is important that readers be aware that demonstrating the exact areas on which aid is being spent is not a simple and exact exercise and a certain amount of judgement is involved. Increasingly projects are multi-dimensional and address interrelated policy areas. In addition more innovative types of aid instruments are being introduced. Together these make attributing expenditure to specific topics difficult.

The DFID Programme

2. Figure 11 shows the split of DFID's bilateral programme between sectors for 2007/08 to 2011/12. In 2011/12, 22 per cent of DFID's bilateral programme was classified under the 'Health' sector (£929m). This was followed by the 'Government & Civil Society' (17% or £728m) and the 'Education' (15% or £625m) sectors. 'Economic' received the next largest amount with 13 per cent (£543m), followed by 'Humanitarian Assistance' with 8 per cent (£350m).

Figure 11 DFID Bilateral Programme by Sector, 2007/08 – 2011/12

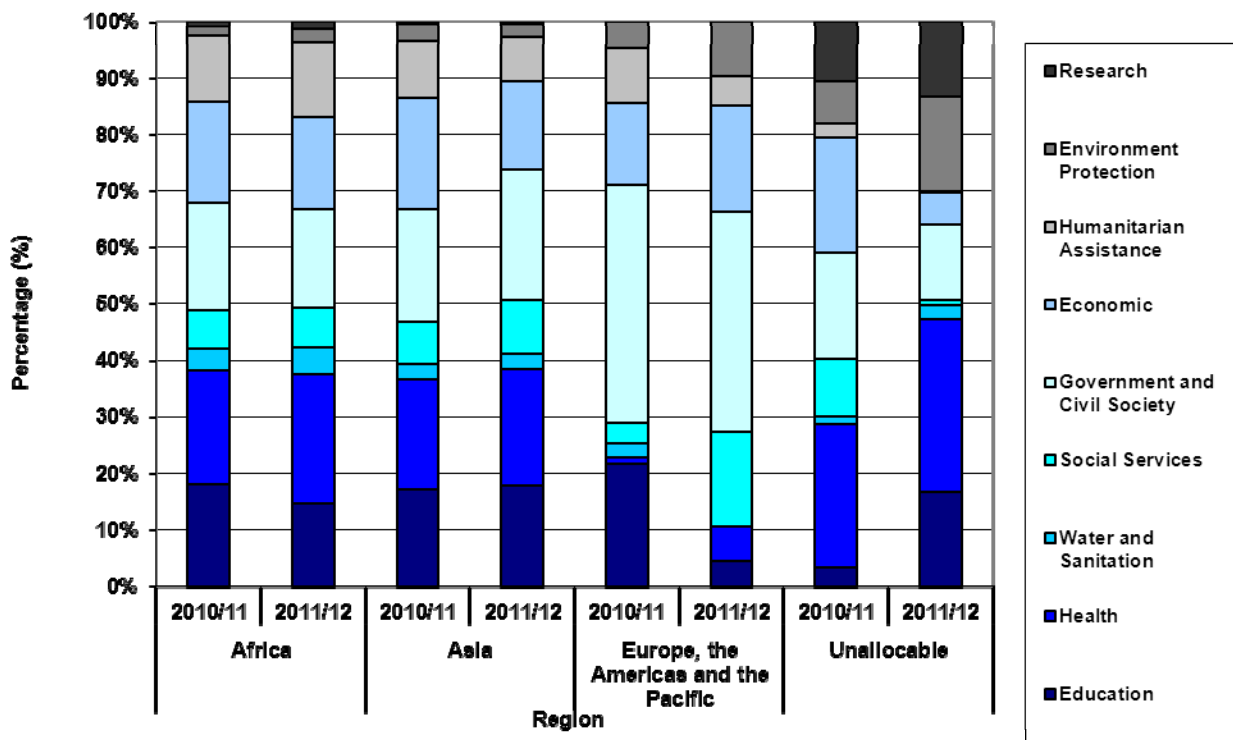

3. The sector seeing the greatest increase in support in 2011/12 was 'Health', which increased by £99m (or 12%). There was also a large increase in the amount of DFID bilateral assistance to 'Environment Protection', which increased by £82m (or 61%).

4. Figure 12 shows how the DFID bilateral programme is broken down by sector and region. From this figure we can see that compared to the rest of the world, a higher percentage of funding was allocated to the basic services sectors in Africa and Asia (i.e. Health, Education, Water & Sanitation and Social Services).

5. In 2011/12, 'Health' was the largest sector in Africa (£430m), accounting for 23% of DFID bilateral assistance to Africa. The largest sector in Asia was 'Government and Civil Society', accounting for £265m or 23% of the Asia total. In Europe, the Americas and Pacific, 'Government & Civil Society' was the largest sector, accounting for £22m (or 38%) of the DFID bilateral assistance in that region.

6. In Africa, support to basic services increased by a total of £56m (or 6 per cent) between 2010/11 and 2011/12: there were increases to 'Social Services (£13m), 'Health' (£67m) and 'Water & Sanitation (£20m) while 'Education' decreased by £44m.

Figure 12 DFID Bilateral Programme by Region and Sector, 2010/11 to 2011/12

1. Descriptions of aid types given in Section 2.
2. Other Bilateral Aid covers bilateral aid not elsewhere classified.
3. Details on DFID Imputed Multilateral Shares are in Section 2; 2011/12 data are not yet available.
4. Effective from 2009/10 Programme Partnership Agreements were recoded from the Government & Civil Society sector to Non-Sector Allocable. This change has not been applied retrospectively.
5. Research figures in the table above do not include research spent through international research institutions. If this were included the amount spent on research in 2011/12 was £222 million

1. Data is based on 2011 World Bank Population Data.

2. Commonwealth countries are divided into 3 types: Independent Commonwealth (I), Overseas territory (OT) and Other (O).

3. There are 4 Income Groups: L = Low, LM = Lower Middle, UM = Upper Middle, H = High, R = Regional is used where an income group cannot be allocated. Income groups are classified using 2010 GNI per capita thresholds.

4. LDC = Least Developed Country. For more information, please see glossary.

5. Only countries included in the DAC List are eligible to receive Official Development Assistance.

See 'What counts as aid' in Section 1 for more details.

6. HIPC = Heavily Indebted Poor Countries. See glossary for details.

7. Data are in US \$ converted using the World Bank Atlas method and are for 2010. For a full definition of GNI, please see glossary.

8. Gross National Income divided by mid-year population.

9. Japan received humanitarian assistance in 2010/11.

Annex 2 - GLOSSARY

(Items which are underlined have separate entries elsewhere in the Glossary)

Administrative costs

DFID administrative costs cover the total cost of delivering all DFID's programmes. They include UK based and local staff, consultants, travel, rents and communications. They also cover expenditure in respect of residual rent liability on the Chatham Maritime site arising from the terms agreed for the privatization of DFID's former Next Steps agency, the Natural Resources Institute. Other administrative costs cover the overseas costs of staff in agreed diplomatic posts concerned with full time administration of aid delivery. Under DAC definitions all these items are wholly ODA eligible.

DFID administrative costs presented in *SID* are not directly comparable to those presented in DFID's Resource Accounts due to some differences in methodology and definitions. The major difference is in the treatment of Programme Funded Administrative costs. In *SID*, Programme Funded Admin is defined as administration costs, which is in line with DAC definitions. Whereas Programme Funded Admin is classified as programme expenditure in the Resource Accounts.

GPEX and ODA also include ODA-eligible administrative costs of other government departments or agencies. For 2011 flows, the FCO has used a more precise method approved by the DAC to estimate administrative costs in relation to front line diplomacy and have reported higher administrative costs than in previous years as a result.

Aid

SID presents three concepts of aid to developing countries: the DFID programme of aid; Gross Public Expenditure on Development (GPEX); and Official Development Assistance (ODA). The DAC maintain a list of Recipients of Official Development Assistance (ODA). There are also some countries to which the UK gives aid that is not classified as ODA. Further discussion is found in Section 2.

Attribution of EC budgetary spending

The UK is attributed a share of the EC's External Assistance Budget based on total UK contributions to the EC. Each budget line within the External Assistance Budget is attributed to either DFID or Other UK Government Departments based on the aim of the budget line (development, conflict prevention, improving international relations). To calculate DFID's attribution, 15.1 per cent (the UK's share of EC expenditure in 2011) of each budget line attributed to DFID was totalled. The attribution for Other UK Government Departments uses the same

method.

Not all of the EC External Assistance Budget scores as ODA. It is not straightforward to provide a precise figure for the share of individual UK Government Department's attribution which should score as ODA. Most of the UK's share of EC expenditure for developing countries is attributed to the DFID programme and is shown under multilateral contributions (Table 18).

Bank lending

This refers to net lending to countries on the DAC List of ODA Recipients by banks in OECD countries. Loans from Central Monetary Authorities are excluded. In *Statistics on International Development*, figures obtained from the Bank of England, are shown in Table 6.

Bilateral aid

Bilateral aid covers all aid provided by donor countries when the recipient country, sector or project is known. Core contributions to development organisations not on the DAC list of Multilateral Organisations is also classed as bilateral aid (for example the Education Fast Track Initiative). Core contributions to organizations on the DAC list of Multilateral Organisations in support of their development programme is classed as multilateral aid.

Bilateral Aid Delivered Through a Multilateral Organisation

This aid type covers funding that is channelled through a multilateral organisation and DFID has control over the country, sector or theme that the funds will be spent on. For example, this includes contributions to multi donor trust funds and special appeals managed by multilateral agencies.

Bilateral Aid Delivered Through an NGO

This aid type includes DFID bilateral programme that is channelled through UK or international Not for Profit Organisations, such as NGOs or Civil Society Organisations. It contains both funding for specific projects and core funding i.e. when DFID has no control over the sector or recipient country.

British Council

The British Council is the UK's international organisation for educational opportunities and cultural relations. The FCO supports the British Council through grant-in-aid funding. This funding goes to support a range of initiatives including building the capacity and quality of English language teaching; supporting education systems; and using cultural exchange to improve economic welfare. UK ODA statistics include the proportion of this work which is clearly focussed on delivering economic welfare and development in ODA eligible countries. The British Council's aid activities in developing countries are reported by the FCO and are shown in Table 2.

CDC Group PLC (formerly Commonwealth Development Corporation)

CDC was transformed from a statutory corporation into a public limited company in December 1999, paving the way for it to become a Public/Private Partnership. From 1999 to 2004 it traded as CDC Capital Partners. From July 2004, most of the operational staff, including all overseas offices, transferred to a new company called Actis Capital LLP, which was de-merged from CDC. Actis has a majority of private sector partners and manages some of CDC's investments under contract. CDC Group PLC itself remains wholly Government-owned and is now the UK government's instrument for investing in the private sector in developing economies (it does so through fund management companies). The conditions under which the CDC operates means that its investments must have a clear development objective. It provides equities to companies in ODA eligible countries, and these disbursements and repayments are included as UK flows. The net amount (i.e. equity purchase less equity sales) of CDC investments in ODA-eligible countries is reported as ODA.

Chevening Scholarships

Chevening Scholarships fund international students who want to study in the UK. Largely funded by the FCO, the Scholarship scheme also receives significant contributions from universities and other organisations in the UK, and from a wide range of overseas sponsors including governmental and private sector bodies, with which the FCO have partnership agreements. Funding from this scheme to students from ODA eligible countries are included in UK ODA and GPEX statistics.

Civil Society Organisations (CSOs)

Non-governmental organisations, trade unions, and church faith and community groups have a long and impressive record of involvement in international development. These civil society organisations and networks can play a vital role in empowering poor people overseas and in building global alliances in support of eliminating world poverty.

Climate Investment Funds (Formerly the Environmental Transformation Fund)

The aim of the joint DFID/ DECC fund, known as the Climate Investment Funds, is to support development and poverty reduction through better environmental management, and help developing countries respond to the realities of climate change.

Colonial Pensions

These are pension payments made to ex-members of the UK Overseas Civil Service who were employed directly by developing country governments. These payments are administered by

DFID but they are not sourced from DFID Departmental Expenditure Limit (DEL). These payments are reported under 'Aid from Other UK Official Sources'.

Concessional

A loan, the terms of which are more favourable to the borrower than those currently attached to commercial market terms is described as concessional (or a soft loan) and the degree of concessionality is expressed as its grant element.

Conflict Pool

The Conflict Pool is the principal mechanism by which the Government allocates joint resources in support of its commitments to prevent and tackle conflict, as set out in the Building Stability Overseas Strategy. It focuses on discretionary conflict prevention, stabilisation, and peacekeeping activities. Its resources for 2011/12 to 2014/15 were set by the 2010 Spending Review through a joint conflict settlement. This settlement is additional to departmental budgets, and is managed jointly by the Department for International Development (DFID), Foreign and Commonwealth Office (FCO), and Ministry of Defence (MoD). It brings together diplomatic, defence and development capabilities into an integrated, cross-government response to instability and conflict overseas.

The Conflict Pool combines ODA and non-ODA resources. The figures quoted in Table 2 for the Conflict Pool represent the ODA amounts actually disbursed through FCO/ MoD systems. All Conflict Pool funds disbursed by DFID are ODA eligible and are included in the DFID Bilateral Programme.

Country Specific

In this publication "Country Specific Bilateral expenditure" refers to spend which can be allocated to a specific recipient country. This excludes regional expenditure and projects that are not allocable geographically. Table 15 provides a breakdown for country specific expenditure.

This definition includes funding from all spending divisions with DFID, regardless of whether or not the division is a country programme or an international/policy programme.

Country Programme and International/Policy Programmes

DFID's programme is allocated to budget lines for either: a) dedicated country/ regional aid programmes or b) international/ policy programmes. Country programmes are divisions within DFID which work in specific countries e.g. to East & Central Africa Division or Asia Division. International/ policy programmes are divisions which work on a policy area or with international organisations e.g. Policy & Research Division, or International Relations Division. More details on DFID budget allocations by programme is published in DFID's Resource Accounts which is

available on the DFID website.

Country Programme aid is different to country specific aid, which is based on the recipient country of the funding and not DFID division.

DAC List of Recipients of Official Development Assistance (ODA)

The DAC List of ODA Recipients is designed for statistical purposes. It helps to measure and classify aid and other resource flows originating in DAC countries. It is not designed as a guide to eligibility for aid or other preferential treatment. In particular, geographical aid allocations are national policy decisions and responsibilities.

Countries are divided into income groups based on Gross National Income (GNI) per capita as reported by the World Bank, with the Least Developed Countries (LDCs), as defined by the United Nations, separately identified. Countries that have exceeded the high-income threshold for three consecutive years at the time of the review are removed from the List. The DAC List is reviewed every three years.

Debt relief

See Annex 3: Debt Relief

Developing countries (Annex 1)

Developing countries are those countries and territories in the DAC List of Recipients of Official Development Assistance (ODA).

Development Assistance Committee (DAC)

The Development Assistance Committee of the Organisation for Economic Co-operation and Development (OECD) is a forum for consultation among 23 donor countries, together with the European Commission, on how to increase the level and effectiveness of aid flows to all aid recipient countries. The member countries are Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Korea Luxembourg, Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, UK and USA.

The DAC sets the definitions and criteria for aid statistics internationally. Statistical Directives exist to encourage comparability of reporting of resource flows by DAC members. The countries receiving aid are set out in the DAC List of Recipients of Official Development Assistance (ODA).

DFID programme

This term covers all DFID expenditure on development assistance. The DFID programme comprises:

- Bilateral aid to developing countries, where DFID has control of the recipient country or sector and includes activities funded from the conflict pools jointly managed by DFID, MOD and the FCO and the International Climate Fund (ICF), jointly managed by DFID, DECC and DEFRA.
- Multilateral aid, including core funding to multilateral organisations such as UN agencies, the World Bank and the UK share of EC development programmes.
- Administration costs.

Direct investment

This is investment that adds to, or acquires, a lasting interest in an enterprise operating in an aid recipient country, the investor's purpose being to have an effective voice in the management of the enterprise. It is measured as the change in the net worth of branches, subsidiaries, or associate companies to the investing company. Direct Investment is shown in Table 6.

Export Credit Guarantee Department (ECGD)

ECGD is an agency of the Department of Trade and Industry and provides insurance for exporters against the main risks in selling overseas, and guarantees to banks providing export finance. It also negotiates debt relief arrangements on commercial debt.

Payments by the ECGD to commercial banks, enabling them to maintain internationally agreed interest rates for export credits for trade with aid recipient countries, are known as International Stabilisation Grants. These are included in Other Official Flows (OOF) but are excluded from GPEX as they are not developmental. ECGD debt relief is included in GPEX.

Export credits

Export credits finance the supply of goods and services to aid recipient countries. Only credits with an initial or extended maturity of over one year are included in total flows of resources. Private export credits are those made available by the private, bank and non-bank, sector. Guaranteed export credits are those parts of private export credits guaranteed by ECGD.

Financial aid

In *Statistics on International Development* the term Financial Aid covers Poverty Reduction Budget Support (PRBS) and other financial aid provided to partner country governments (i.e. projects and programmes including sector wide approaches not classified as PRBS).

The term 'financial aid' is sometimes used in a wider sense to mean a grant which is the subject of a formal arrangement with the recipient government or institution. This would cover all bilateral aid other than technical co-operation and administrative costs. In *Statistics on International*

Development, bilateral financial aid expenditure is sub-divided into PRBS (General and Sector), Other Financial Aid, Other Bilateral Aid, Humanitarian Assistance and Debt Relief.

General Budget Support

See **Poverty Reduction Budget Support**

Gift Aid

Gift Aid refers to tax that is reclaimed by UK charities from the HMRC on donations made by UK taxpayers. Previously, this was estimated by DFID through an annual voluntary agencies survey. Following a review of the cost of this survey versus the impact of the results (Gift Aid reported in 2009/10 was less than 1% of total ODA), it was decided to estimate this figure through a different method. This method applied the proportion of Gift Aid paid to charities active in development in 2009/10 to the total amount of Gift Aid paid to charities by HMRC in 2010/11. This provided a conservative estimate due to non-response to the 2009 voluntary agencies survey.

In 2011/12 a smaller scale survey was undertaken to update the gift aid figure. This methodology is still under development and will be improved for 2012/13.

The estimate of Gift Aid for UK Civil Society Organisations is included in ODA and GPEX (shown in Table 2).

Governance and Transparency Fund (GTF)

The Governance and Transparency fund is a one-off fund which has been designed to help citizens hold their governments to account through strengthening the wide range of groups that can empower and support them. Table 19 shows how much DFID has funded through the GTF in 2011/12.

Grants by private organisations

This comprises all expenditure by UK voluntary agencies on development assistance and relief to recipient countries, to multilateral agencies or to private international organisations for the benefit of recipient countries net of any support from official sources. Data are shown in Table 6 and estimated using the total amount of Gift Aid paid by HMRC as reported in their statistical publications.

Gross National Income (GNI) - formerly Gross National Product (GNP)

GNI comprises the total value of goods and services produced within a country (i.e. its Gross Domestic Product or GDP), together with income received from other countries (notably interest and dividends), less similar payments made to other countries.

Gross Public Expenditure on Development (GPEX)

GPEX is expenditure by all official UK sources (i.e. government departments and public bodies such as [CDC](#)), on aid to developing countries on the [DAC list of ODA eligible countries](#) and multilateral organisations and some other countries, which meets the criteria for developmental [Official Flows](#) agreed by the [DAC](#).

Guaranteed export credits

See **Export credits**.

High income countries (HIC)

See [Income groups](#) and Annex 1.

Heavily Indebted Poor Countries (HIPC)

See Annex 3 – Debt Relief.

HIPC Trust Fund

See Annex 3 – Debt Relief.

Humanitarian assistance

Humanitarian assistance generally involves support to humanitarian organisations and the provision of material aid (including food, shelter and medical care), personnel, and advice in order to:

- save lives, alleviate suffering and maintain human dignity during and in the aftermath of man-made crises and natural disasters;
- reduce the incidence of refugees and internally displaced people;
- hasten recovery and protect and rebuild livelihoods and communities;
- reduce risks and vulnerability to future crises, including strengthening preparedness measures.

DFID provides funding to certain UN agencies (mainly WFP, UNICEF, OCHA, UNHCR and WHO) for their humanitarian assistance programmes in individual countries. These amounts are recorded as bilateral disaster relief as DFID has influence over the use and destination of the funds. DFID also gives core funding to these organisations where we do not specify the recipient of the funding; this is classified as [multilateral aid](#).

DFID also channels assistance through [Civil Society Organisations](#), such as the Red Cross, as a means of providing humanitarian assistance to individual countries. These contributions are recorded as bilateral aid as the destination country is known.

Income groups

The categorisation of recipient countries by income groups is based on Gross National Income (GNI) per capita figures as reported by the World Bank. The income groups used in Table 15 and 17 of this publication are based on the 2010 GNI per capita data and according to the thresholds set out below:

- **low income group**: countries with a GNI per capita in 2010 of \$1,005 or less;
- **lower middle income group**: countries with a GNI per capita in 2010 of \$1,006 or above but not exceeding \$3,975;
- **upper middle income group**: countries with a GNI per capita in 2010 of \$3,976 or above but not exceeding \$12,275;
- **high income group**: countries with a GNI per capita in 2010 of \$12,276 or above.

Input Sector Codes

See **Sector**

International Climate Fund (ICF)

The purpose of the International Climate Fund (ICF) is to support international poverty reduction by helping developing countries to adapt to climate change, take up low carbon growth, and tackle deforestation. It is jointly managed by DFID, DECC and DEFRA.

Least developed country (LDC)

In the mid 1960s, 24 developing countries were identified as having particularly severe long term constraints on development. They were assessed on three criteria: per capita GDP, manufacturing base and literacy. Inclusion on the list of LDCs as defined by the United Nations is now assessed on two main criteria: economic diversity and quality of life. The total number of LDCs since 31 March 2004 is 48 and they are identified in Annex 1.

Low income countries (LIC)

See **Income groups** and Annex 1.

Lower middle income countries (LMIC)

See **Income groups** and Annex 1.

Multilateral aid

This is aid delivered in the form of core contributions to organisations on the DAC List of Multilateral Organisations. A core contribution is when DFID does not specify the recipient or sector of the contribution and funds are transferred into the general budget of a multilateral and are not separately identifiable from other donor's contributions. DFID aid delivered through a multilateral organisation where the recipient country, sector or project is known is classed as

bilateral aid.

Some international bodies conduct activities that benefit both developing and developed countries. The DAC have agreed proportions that account for the activities of these organisations that focus on developing countries. When ODA is reported these agreed proportions are applied to core contributions. For example, when reporting core contributions to UNESCO only 60% is reportable as ODA.

Multilateral Debt Relief (MDRI)

See **Annex 3 – Debt Relief**.

Official and Private Flows

The flow of resources to aid recipient countries is a term used in DAC reporting and corresponds broadly to the following transactions with recipient countries and multilateral institutions (for the benefit of recipient countries).

- Grants and long term capital transactions effected by governments or the official sector of DAC countries;
- Private flows which are long term (over one year) capital transactions by UK residents (as defined for balance of payment purposes) with aid recipient countries, or through multilateral agencies for the benefit of such countries. They include all forms of investment, including bank lending and export credits where the original maturity exceeds one year. Private flows are reported to DAC separately for direct investment, export credits and bank lending. Figures can be seen in Table 6.
- Grants by private voluntary agencies (often referred to as "private grants").

It excludes:

- **military equipment or services:** grants, official loans, or credits (guaranteed or not) for the supply or financing of military equipment or services. However from 1993 onwards forgiveness of debt generated by military lending is recorded as OOF.
- **transfers to private individuals:** transfer payments to private individuals are not included unless they are part of technical co-operation or relief programmes.
- **transfers by private individuals:** private payments are excluded except for grants by private voluntary organisations for development assistance and welfare purposes (see third bullet above).

Official Development Assistance (ODA)

Official development assistance is defined as those flows to developing countries and multilateral institutions provided by official agencies or by their executive agencies, each transaction of which meets the following tests:

- it is administered with the promotion of the economic development and welfare of developing countries as its main objective; and
- it is concessional in character and conveys a grant element of at least 25 per cent.

Official development assistance is shown both gross and net of loan repayments. From 2005 only aid to countries on the DAC List of Recipients of Official Development Assistance is eligible to be recorded as ODA.

The UN target for aid (0.7 per cent), endorsed in 1970 by the UN General Assembly, is expressed in terms of net ODA (i.e. after deduction of loan capital (i.e. principal) repayments) as a percentage of Gross National Income.

Other Bilateral Aid

This aid type covers bilateral aid that is not elsewhere classified, i.e. it is not defined as PRBS, Technical Assistance, or Debt Relief and it is not delivered by a multilateral organization or an NGO. It includes:

- Funding to other donors for shared development purposes.
- Funding of land and geological surveys in developing countries.
- Provision of books, equipment and other supplies.

Other Official Flows (OOF)

Other Official Flows are defined as flows to developing countries by the official sector which do not satisfy both criteria necessary for ODA (i.e. can be either non-concessional and convey a grant element of less than 25 per cent or non-developmental purposes or both).

Partnership Programme Agreements (PPAs)

These are strategic level agreements between DFID and UK civil society organisations with which it has significant working relationships and shared objectives. The PPA sets out at a strategic level how the two partners will work together to meet the Millennium Development Goals. Table 19 shows how much DFID has funded through PPAs in 2011/12 and is broken down by organisation.

Poverty Reduction Budget Support

Poverty Reduction Budget Support (PRBS) can take the form of a general contribution to the overall budget (general budget support) or support with a more restricted focus (sector budget support). PRBS is aid which is:

- Provided in support of a government policy and expenditure programme whose long-term objective is poverty reduction;
- Spent using national (or sub-national) financial management, procurement and accountability systems, although provided the recipient government's Public Financial Management Administration (PFMA) systems remain the principle means by which fiduciary risk is managed, additional safeguards may be agreed to where necessary;
- Normally transferred to the central exchequer account, but may be transferred to a sector specific bank account or sub-national level bank account over which government has full financial authority¹;

And, in the case of sector budget support

- Earmarked for expenditure either in a particular sector, sub sector, programme, or set of expenditure lines, but where the use of DFID funds cannot be tracked to the level of goods and services.

Note:

- I. This definition was agreed in May 2005 and is wider than previously used. The main difference is that the old definition required PRBS to be spent through a central exchequer while the new definition recognises the important issue that the funds are spent using national (or sub-national) financial management systems and are allocated through the government's budget process.
- II. The difference between the definitions with regards to DFID's current portfolio is likely to be relatively small. Some PRBS expenditure included in *SID* has been classified under the wider aspects of the new definition, however to date no retrospective marking exercise has taken place so most of the historical PRBS data has been gathered using the old definition. In the future, expenditure will be classified using the new definition.

Private Flows

See **Official and Private Flows**

¹ The sub-national authority must have a significant level of policy and budgetary authority. This would exclude many local government bodies, but include states and provinces within large federal countries with significant power.

Promissory notes

Promissory notes are a method of funding multilateral organisations where DFID 'deposits' funds with the Bank of England. Multilateral organisations then 'encash' these funds as they need them. They include capital subscriptions to the World Bank, the Regional Development Banks, the International Fund for Agricultural Development, the Global Fund to Fight AIDS, TB and Malaria, GEF and the Montreal Protocol.

When reporting internationally, DFID reports the deposits of its promissory notes. However, previous to the 2007/08 edition of SID, DFID reported its promissory notes encashments. Within this publication, promissory note deposits are reported, consistent with DFID's international reporting.

Regional Development Banks

International Development Banks, which serve particular regions, for example the African Development Bank or the European Bank for Reconstruction and Development.

Resource accounting

Resource Accounts are an accrual-based approach to Government accounting that adopts a commercial style of preparation in line with generally accepted accounting practice. Accruals accounting is a method of recording expenditure as it is incurred, not when it is paid out, and income as it is earned, not when it is received. Resource Accounting requires departments to report on and manage all assets and liabilities and takes account of non-cash charges not previously recognized under cash accounting such as depreciation and capital charges. Resource accounts also provide information on how resources have been used to meet objectives.

Under Resource Accounting, expenditure is recorded at the time goods and services are consumed rather than when payments are brought to book.

Statistics on International Development continues to be produced on a cash basis in line with international reporting practices and so the data contained in *Statistics on International Development* is not directly comparable with the data published in DFID's Resource Accounts.

Sector

The areas of the recipient countries' economic or social structure that aid is intended to support. DFID categorises its aid into broad sectors: Education; Health; Social Services; Water Supply and Sanitation; Government & Civil Society; Economic; Environment Protection; Research; Humanitarian Assistance; and Non-Sector Allocable.

DFID introduced a new set of sector codes in 2007/08, more closely aligned with the codes used internationally by the OECD DAC. Earlier projects have been mapped to new classifications although there may be some discontinuity in more detailed sectors but the effect on the broad sectors presented in this publication will be small. This means the sector analysis presented in Tables 5 and 6 are based on a new set of broad sectors and will differ compared to data published before 2007/08.

Sector Budget Support

See **Poverty Reduction Budget Support**

Technical Co-operation (TC)

Technical Co-operation is the provision of know-how in the form of personnel, training, research and associated costs. It covers primarily:

- Consultancies: the provision of assistance to recipient countries in the form of contracted specialists.
- Knowledge and Research: includes grants for agreed programmes of research and development at UK institutions (sometimes in collaboration with non-UK institutions) which will be of benefit to assisted countries.

It also includes:

- Training and Scholarships: the provision of assistance in the form of training for persons from aid recipient countries. The training may be provided in the UK, in the home country of the student, or in a third country. Training provided under the Commonwealth Scholarship and Fellowship Plan, the Shared Scholarship Scheme and Training through Country Programmes is managed directly by, or on behalf of, DFID.

Increasingly training is also being provided by means of short in-country courses as part of, or in association with, country projects. This is not fully captured at present in the statistics on training. The costs of these activities are included within projects and programmes.

UNITAID

UNITAID is an International Drug Purchase Facility hosted by the World Health Organisation (WHO). The aim of UNITAID is to contribute to scaling up access to treatment for HIV/AIDS, malaria and tuberculosis, primarily for people in low-income countries, by leveraging price reductions for quality diagnostics and medicines and accelerating the pace at which these are

made available².

Upper middle income countries (UMIC)

See **Income groups** and Annex 1.

Voted funds

Voted funds are those funds approved by Parliament for public expenditure. Details are contained in the supply estimates.

² UNITAID website: <http://www.unitaid.eu>

Introduction

1. Debt is a major development issue. There is widespread support for lifting the burden of debt from the poorest countries. **Debt relief frees developing countries from their debt service payments. They can then use these savings to contribute to poverty reduction.**

2. The UK provides 100 per cent irrevocable debt relief for Heavily Indebted Poor Countries (HIPCs) on eligible debts owed to DFID, the CDC Group PLC and Export Credit Guarantee Department (ECGD)⁹. We make contributions to the international costs of HIPC and Multilateral Debt Relief Initiative (MDRI). Our contribution to the cost of HIPC debt relief is part of our overall replenishment funding of the World Bank and the African Development Fund (ADF). We also make full additional annual contributions to the World Bank and African Development Bank (AfDB) to compensate them for the costs of debt relief under the MDRI, as well as a contribution to the International Monetary Fund (IMF) in 2005/06. Our contributions to the World Bank and AfDB have been reported from 2006/07, when the MDRI was launched.

Debt Terminology

3. A country's debt can be described in terms of 'principal' and 'interest'. The principal is the amount of the original loan still outstanding. A country's debt stock is the outstanding principal, plus any interest accrued (as well as any penalties incurred for failure to make debt service payments).

4. Debt relief can take various forms, including:
- **Debt cancellation (sometimes called stock relief) – partial or 100 per cent reduction of amounts outstanding (principal and/or interest);**
 - **Debt rescheduling where payments (interest and/or principal) are delayed or rearranged;**
 - **Flow relief – partial or 100 per cent debt service payments.**

⁹ See Glossary for a description of CDC and ECGD.

5. Decisions to award a particular type of debt relief, for example, under the HIPC Initiative, are usually made by international consensus. All creditors participating in the HIPC Initiative are then expected to deliver agreed (or better) terms. Bilateral deals can also take place between creditors and debtor governments. The Paris Club is the main forum for agreeing treatment of bilateral (government to government) debt.

The Paris Club

6. The Paris Club is an informal group of government creditors who work together to find co-ordinated and sustainable solutions to payment difficulties experienced by debtor nations. The UK is a permanent member of the Paris Club.

7. To the end of 2011, the Paris Club, or ad hoc groups of Paris Club creditors, has reached just over 423 agreements (with 2 in 2011 and 9 in 2010) concerning 88 debtor countries. Debt treatments in the Paris Club can take various forms. Details of the options and terms available are given in the Glossary.

The Heavily Indebted Poor Countries (HIPC) Initiative

8. The HIPC Initiative was launched by the World Bank and the IMF in 1996 to reduce the debts of the poorest and most indebted countries to sustainable levels. The majority of bilateral (government) and multilateral creditors (such as the World Bank, IMF and Regional Development Banks) have agreed to participate.

9. The HIPC Initiative was strengthened in 1999 and re-launched as the enhanced HIPC Initiative (e-HIPC). This provided more relief for more countries more quickly and it put poverty reduction at the heart of debt relief. To be eligible, countries must demonstrate their commitment to sound economic management (and the implementation of an IMF programme) and poverty reduction (through the implementation of a national Poverty Reduction Strategy Paper, PRSP). A PRSP analyses poverty in the country and sets out what the government will do to reduce it. The strategy also contains expenditure frameworks which indicate how resources, including savings from debt relief, will be allocated.

10. Debt relief under HIPC is delivered in two stages. Initially countries work towards 'Decision Point' by developing a PRSP, and establishing a track record of sound economic management, generally under an IMF Poverty Reduction and Growth Trust

(PRGT) funded programme. When these standards have been met, interim debt relief is delivered, meaning that debt service payments are considerably reduced. Countries then work towards '**Completion Point**' and irrevocable debt stock cancellation by implementing their PRSP for at least a year. They must also continue their sound economic management under an IMF programme, as well as implementing any other reforms ("triggers") they agreed to undertake at Decision Point. 'Decision Point' and 'Completion Point' status is decided by the Executive Boards of the IMF and World Bank and subsequently by the Board of the relevant Regional Development Bank. The Paris Club group then follows this lead.

11. Overall, debt relief worth over \$76 billion has been agreed under HIPC for 36 countries so far. This has reduced their debts, on average, by around two-thirds, and freed up roughly \$1 billion a year for spending on poverty reduction.

12. The table on the following page shows the progress of eligible countries through the HIPC Initiative. Thirty-four countries have now completed the HIPC Initiative and received irrevocable debt relief. Four other countries are receiving interim relief. A further four countries are eligible for HIPC but have yet to progress through the Initiative. For the remaining countries slow progress through HIPC is often the result of governance problems or conflict. A further two eligible countries, Sri Lanka and Lao PDR, have decided not to participate in HIPC.

Implementation status of Heavily Indebted Poor Countries (HIPC) Initiative

	Decision Point	Completion Point Date
Countries at Completion Point		
Afghanistan	July 2007	Jan 2010
Benin	July 2000	Mar 2003
Bolivia	Feb 2000	Jun 2001
Burkina Faso	July 2000	April 2002
Burundi	Aug 2005	Jan 2009
Cameroon	Oct 2000	Apr 2006
Central African Republic	Sept 2007	June 2009
Congo (Dem Rep)	July 2003	June 2010
Congo (Rep of)	Mar 2006	Jan 2010
Cote D'Ivoire	April 2009	June 2012
Ethiopia	Nov 2001	April 2004
Gambia	Dec 2000	Dec 2007
Ghana	Feb 2002	July 2004
Guinea	Dec 2000	Sept 2012
Guinea-Bissau	Dec 2000	Dec 2010
Guyana	Nov 2000	Dec 2003
Haiti	Nov 2006	June 2009
Honduras	July 2000	April 2005
Liberia	Mar 2008	June 2010
Madagascar	Dec 2000	Oct 2004
Malawi	Dec 2000	Aug 2006
Mali	Sept 2000	Mar 2003
Mauritania	Feb 2000	June 2002
Mozambique	Apr 2000	Sept 2001
Nicaragua	Dec 2000	Jan 2004
Niger	Dec 2000	April 2004
Rwanda	Dec 2000	April 2005
Sao Tome and Principe	Dec 2000	May 2007
Senegal	June 2000	April 2004
Sierra Leone	Mar 2002	Dec 2006
Tanzania	April 2000	Nov 2001
Togo	Nov 2008	Dec 2010
Uganda	Feb 2000	May 2000
Zambia	Dec 2000	April 2005
Countries at Decision Point (interim relief)		
Chad	May 2001	
Comoros	Jun 2010	
Pre-Decision Point Countries		
Eritrea		
Somalia		
Sudan		
In addition, two eligible countries have opted not to participate in HIPC at this stage:		
Lao PDR and Sri Lanka		

DFID Aid Debts

13. DFID has cancelled all of its eligible aid debts for low income countries by **Retrospective Terms Adjustment (RTA)**, providing over £1.3 billion of debt relief since 1978.

14. Debt relief is cancelled by the benefiting country during the year the terms are agreed. However, for RTA, *Statistics on International Development* reflects the money available to the country each year that would otherwise have been spent on debt servicing by reporting annual sums of debt relief. This is, effectively, converting loans to grants.

15. The outstanding amount still to be reported under RTA reduced to a minimal level by 2006/07. As such, the outstanding sum that would normally be reported each year in SID was combined into a single lump sum that was reported in SID 2007. As such 2006/07 was the final year for which SID reported RTA debt relief¹.

16. In September 1997, the UK also launched the **Commonwealth Debt Initiative (CDI)** to provide relief on the remaining aid debts of lower-middle income Commonwealth countries. In order to benefit, countries were required to demonstrate their commitment to poverty reduction and the Millennium Development Goals, sound economic management, accountable and transparent governance and efforts to reduce corruption. To date, 12 countries (predominantly in the Caribbean) have benefited from debt relief under CDI. Under CDI, assessment either recommended the debt was written off in perpetuity or written off annually subject to assessment each time

Multilateral Debt Relief

17. Despite the successes of HIPC, debt owed by the poorest countries to multilateral institutions such as the World Bank, African Development Bank and IMF remained a significant burden to them. The UK therefore used its Presidencies of the G8 and EU in 2005 to promote 100 per cent debt relief by multilateral institutions to match the 100 per cent relief already being given by many bilateral creditors.

18. In 2005, the G8 agreed a proposal for a **Multilateral Debt Relief Initiative (MDRI)** that would cancel 100 per cent of the remaining debts of HIPCs to the concessional lending arms of the World Bank (IDA), IMF and African Development Bank (AfDB). Following agreement by the

¹ Due to a change of policy at the DAC all remaining RTA debt relief was reported to the DAC in a lump sum in 1999.

Boards of Governors of the World Bank, IMF and AfDF, the MDRI was implemented in 2006. Overall MDRI is worth over \$50 billion to 40 countries, resulting in 100 per cent debt cancellation when countries reach HIPC 'Completion Point'. So far, MDRI has delivered over US\$51 billion worth of debt cancellation.

19. Donors agreed to fully compensate the Banks for the debt service that HIPC countries would otherwise have paid. These additional funds will be allocated to all poor countries using the institutions' performance-based allocation systems. After 'Completion Point' is achieved, no further conditions are attached to MDRI and post-Completion Point HIPCs receive this automatically as soon as they qualify for HIPC debt cancellation.

20. The UK has committed to paying its share of the costs of the MDRI at the World Bank and African Development Bank by additional contributions to IDA and AfDF from 2006/07 onwards. Under this commitment the UK has already contributed £250 million to IDA and £44 million to the AfDF in debt cancellation. The costs of MDRI debt relief at the IMF were largely met from internal resources. The G8 however, agreed to provide additional resources to the IMF to ensure that it was able to continue to lend on concessional terms. In March 2006, the UK made a payment of £14 million to the IMF as part of this.

21. In addition to participation in the MDRI, the UK has its own initiative to pay its share (10 per cent) of qualifying non-HIPC poor countries' debt service to IDA and AfDB until 2015 under the UK Multilateral Debt Relief Initiative (UK MDRI). In 2008 the UK changed the eligibility criteria for the initiative, in order to provide a clearer focus on good public financial management as a basis for countries being able to demonstrate the debt relief will be used for poverty reduction. In 2010 countries were also asked to set out how they use the funds provided by the UK under the scheme. In 2012 five countries are eligible for this support: Lesotho, Nepal, Samoa, Vanuatu and Vietnam.

23. DFID debt relief given under RTA, CDI, HIPC and MDRI in recent years is included in Tables 3, 4, 13, and 14 under 'DFID Debt Relief'.

UK Aid Debts

24. UK debt relief under the **Heavily Indebted Poor Countries (HIPC) Initiative** covers debt relief on bilateral export credit and CDC loans to governments.

25. The **Export Credit Guarantee Department (ECGD)**, like its counterparts in other developed countries, assists UK exporters to win business overseas by providing guarantees and insurance for contracts. Developing countries can acquire debt, however, if they default on paying for these goods and services.

26. If countries face difficulties with meeting their debt repayments, assistance may be provided in the form of rescheduling and, for poorer countries, partial cancellation. Such arrangements are generally agreed in the Paris Club and are conditional on the debtor country following sound economic policies, agreed with the International Monetary Fund (IMF). Bilateral export credit debt is UK official debt, and so is eligible for debt relief under HIPC and other internationally agreed debt relief deals.

27. The UK exceeds its commitment under HIPC by providing **100 per cent cancellation** of bilateral debts for qualifying countries. 100 per cent debt service relief is provided from Decision Point and 100 per cent cancellation at completion point. ECGD meets the costs of the relief agreed at the Paris Club and DFID pays for whatever additional relief is needed to bring the total to 100 per cent. DFID payments to ECGD under this HIPC 100 per cent relief policy are recorded as '**Bilateral HIPC**'. 'Bilateral HIPC' payments also include reimbursements to countries under the 'Hold in Trust' Policy¹.

28. Table 5 contains details of debt relief given by ECGD. The total ECGD debt relief for 2011/12 was approximately £91 million². ECGD and CDC debt relief are combined in Table 2 under Debt Relief³.

29. CDC (as described in the Glossary) had a portfolio of loans to governments. These are now 'DFID Public Sector Loans' managed by Actis but referred to as 'CDC Loans'. From 2008 these loans have been managed and administered directly by DFID. This is UK official debt and so is eligible for debt relief under HIPC and other internationally agreed debt deals.

¹ From December 2000, the UK has held in trust any debt service payments received from pre-Decision Point HIPC countries. This money is then reimbursed for spending on poverty reduction when the country reaches Decision Point.

² The debt formally written off was for Iraq £275,377,243.98 and US\$ 8,431,264.73 (effective date 16/12/08)

³ ECGD/ CDC debt relief is reported as UK ODA in the relevant year on a net basis (i.e. with deductions for any repayments made).

DFID

1. The majority of UK Official Development Assistance (ODA) is delivered through DFID's budget. The 2002 International Development Act makes reducing poverty the core purpose of UK aid. As such, the vast majority of DFID aid expenditure is included in ODA; only a small amount of expenditure on non-ODA eligible countries and multilateral institutions is excluded. Figures for the **DFID programme** are produced from a combination of data held on DFID's internal accounting and management information system (ARIES) and the UK attributions of EC budgetary spending.

2 DFID's Overseas Pensions Department is also responsible for the payment of **colonial pensions** made to ex-members of the UK Overseas Civil Service who were employed directly by developing countries. A small element of this is permitted to be classed as ODA and GPEX. From 2010/11 this has been reported as non-DFID expenditure; this change being consistent with DFID's Departmental Expenditure Limit (DEL).

ODA managed jointly by DFID and other UK Government Departments

3 The **Conflict Pool** provides programme resources which are governed and jointly managed by DFID, the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MoD). It brings together the UK government's development, diplomatic and defence expertise in an integrated response to conflict prevention, stabilisation and discretionary peacekeeping. Part of the Conflict Pool's expenditure is ODA eligible. In these statistics all Conflict Pool funds disbursed through DFID are ODA-eligible and are included as part of DFID expenditure. The remaining ODA figures comprise the aggregate of FCO and MOD funding. Data on the ODA eligible Conflict Pool funds disbursed by the FCO and MOD are collected by DFID in liaison with programme officers in the relevant departments.

4 Under the same joint conflict settlement, on behalf of the three departments, the FCO manages HMG's Peacekeeping Budget. This covers the UK's assessed peacekeeping costs – a legal obligation as a member of these organisations – for UN Peacekeeping (UNDPKO), the Organisation for Security and Cooperation in Europe (OSCE) Field Missions, European Security and Defence Policy (ESDP) Military and Civilian Missions, NATO operations in the Balkans, and the International Criminal Courts and Tribunals. In line with DAC rules 6% of the funding to

UNDPKO and 74% to the OSCE are allowed to score as ODA. Funding to ESDP Civilian Missions is also reported as ODA.

5 The **International Climate Fund** is a jointly managed fund, created in 2010 to reduce poverty while supporting developing countries tackle the challenges posed by climate change. Ministerial responsibility is joint between DFID, the **Department for Energy and Climate Change (DECC)**, **HM Treasury** and the **Department for Environment, Food and Rural Affairs** (Defra - for forestry). The fund will spend £2.9billion over four years (2011/12 – 2014/15); £1.8billion by DFID, £1billion by DECC and £100million by Defra. This arrangement brings together expertise from across Government on international development, climate change adaptation and mitigation, and forestry.

6 The Environment Transformation Fund was established in 2008 to support development and poverty reduction through better environmental management and help developing countries respond to the realities of climate change. The fund is managed jointly - by **DFID** and **DECC** - who contribute equal amounts to the fund all of which are assessed as ODA-eligible.

Other ODA delivered by UK Government Departments

7 The **FCO** contributes to UK ODA in a number of ways:

- FCO Programme Funds support a range of the UK Government's international goals. The FCO gives careful consideration to which programme projects meet the required OECD definitions and eligible projects are included in UK ODA statistics.
- The FCO's Chevening Scholarships programme provides funding for postgraduate students or researchers to study in UK universities. Funding from this scheme to students from ODA eligible countries is included in UK ODA statistics.
- The FCO supports the British Council through Grant-in-Aid funding. This funding is focussed on improving educational outcomes, strengthening civil society and governance and supporting the free flow of information. The proportion of this work which is clearly focussed on delivering economic welfare and development in ODA eligible countries is included in UK ODA statistics.
- In line with OECD rules a proportion of FCO administrative costs and aid-related front-line diplomacy is reported as ODA. This is the cost of work FCO Posts do to support

DFID, FCO, Conflict Pool and, where relevant, multilateral aid flows. DFID and the FCO in agreement with the OECD have improved the methodology for capturing the ODA-eligible element of these costs which has resulted in more precise figures.

- The FCO makes annual contributions to UN and Commonwealth organisations. A proportion of these contributions are reported as ODA in line with Annex 2 of the DAC Statistical Reporting Directives.

8 In addition to contributing to the International Climate Fund and Environment Transformation Fund, **DECC** also makes annual contributions to the International Atomic Energy Agency. A proportion of this support is deemed ODA eligible.

9 In addition to contributing to the International Climate Fund, **DEFRA** is responsible for the Darwin Initiative, which is a programme aimed at assisting the progression of environmental goals in developing countries. Eligible expenditure is included in UK ODA statistics.

10 The **Scottish Government** runs its own bilateral aid programme which aims to directly support the achievement of the Millennium Development Goals (MDGs) and economic growth in a number of developing countries. The **Welsh Assembly's** 'Wales for Africa' programme also aims to help deliver the MDGs and provides small grants to organisation based in Wales.

11 The **Department for Culture Media and Sport** works closely with DFID to deliver a range of initiatives to help address wider social issues encompassed by the MDGs; including contributing towards addressing gender inequality and acting as an effective medium for conveying educational messages relating to health.

12 The estimates of the costs incurred by the **UK Border Agency (UKBA)** of supporting refugees from developing countries during their first 12 months in the UK are included in the ODA statistics. This brings the reporting of UK ODA fully in line with OECD definition and improves the overall comparability of the international data. DFID and the UKBA are also contributing to ongoing methodological work in the OECD to clarify guidance on refugee costs to further improve the consistency of donor estimates. UK ODA statistics also include funding from the **Home Office** to the International Organisation for Migration.

13 The **Department of Business, Innovation and Skills (BIS)** provides the Medical Research Council (MRC) with ring fenced support for overseas development. The MRC uses this funding to support peer reviewed global health research administered by UK institutions or

in MRC Units and Institutes on research studies that are aimed at improving health in developing countries

14 Other government departments also make direct contributions to the UN system, a proportion of which is reported as ODA. The **Department for Work and Pensions** makes an annual contribution to the International Labour Organisation and the **Department for Health** makes an annual assessed contribution to the World Health Organisation.

Other sources of UK ODA

15 **CDC Group PLC** is wholly government owned and the conditions under which it operates means that its investments must have a clear development objective. The net amount (i.e. equity purchase less equity sales) of CDC investments in ODA-eligible countries is reported as ODA and the gross amount (i.e. equity purchase only) is reported in GPEX.

16 **Export Credit Guarantee Department (ECGD)** is an agency of BIS and provides insurance for exporters against the main risks in selling overseas. It also negotiates debt relief arrangements of commercial debt. The relevant amounts of any debt relief are included in UK ODA statistics in line with OECD DAC definitions.

17 The majority of the External Assistance Budget of the **European Commission** is deemed to be ODA eligible. The vast majority of the relevant UK contribution to this budget is attributed to DFID and reported as part of DFID's own ODA statistics. The estimate of the remaining UK share of overall EC ODA is reported separately in these statistics.

18 The **Gift Aid** scheme allows UK charities to reclaim tax from HM Revenue and Customs on donations made by UK taxpayers. The proportion of additional support provided to UK NGOs via this scheme to deliver developmental objectives is estimated by DFID as explained in the glossary. The Gift Aid figure is included in UK ODA statistics. Further methodological development of the estimate is scheduled to take place in 2013.

19 In addition to the above, ODA reporting requires data on export credits (both official and private) provided by **ECGD**; on direct investments, provided by the **Office for National Statistics**; and on bilateral securities and other claims, provided by the **Bank of England**.

20 Data for the international comparisons contained in Tables 7, 8, 16 and 17 are from the DAC website <http://www.oecd.org/dac/stats>.

21 The statistics on recipient countries given in Annex 1 are taken from the World Bank and DAC websites.
