Indicator	The cost of managing the relationship with government suppliers per pound spent on buying supplies and equipment (input)	Removed		The indicators for efficiency and effectiveness in government have been reviewed and refined, and their alignment with the quarterly data summary improved. The three selected indicators are those best suited to monitoring progress across this broad range of action.
Indicator	The number of mutuals supported by the Mutuals Support programme, and the number of public service areas in which these mutuals are supported (impact)	Removed		The indicators for efficiency and effectiveness in government have been reviewed and refined, and their alignment with the quarterly data summary improved. The three selected indicators are those best suited to monitoring progress across this broad range of action. Progress reports in respect of the number of mutual supported will be published on a quarterly basis (see Structural Reform Plan action 1.1 iii).
Indicator	Level of volunteering, by age group (impact)	Altered	Overall level of volunteering	The indicators for building the Big Society have been reviewed and refined, and their alignment with the quarterly data summary improved. The overall level of volunteering is a simpler and more effective measure to use to monitor progress than its more complex predecessor.
	Cost of the total staffing resources required to support the work of government: • Size of the total staffing resources required to support the work of government; •Ratio of HR staff to all staff; • Cost of HR function per FTE (impact)	Altered	Size of the total staffing resources required to support the work of government	The indicators for efficiency and effectiveness in government have been reviewed and refined, and their alignment with the quarterly data summary improved. The size of the staffing resource needed to support the work of government is a simpler and more effective measure than its predecessor.

Indicator	Total central government spend on advertising, management consulting and identified "overhead commodities" (such as office stationery and IT commodities) (impact)	Removed		The indicators for efficiency and effectiveness in government have been reviewed and refined, and their alignment with the quarterly data summary improved. The three selected indicators are those best suited to monitoring progress across this broad range of action.
Indicator	Total savings made by improved management of relationships with key government suppliers (absolute pound savings and period on period change)	Altered	Total savings made by improved management of relationships with key government suppliers	The indicators for efficiency and effectiveness in government have been reviewed and refined, and their alignment with the quarterly data summary improved. The amended indicator is a simpler and more effective measure than its predecessor.
Indicator	Hold the General Election as provided by the Fixed Term Parliament Act on a voting system chosen by the British people, more equal constituency boundaries and a more accurate and secure electoral register based on individual registration (impact)	Removed		The key milestones for political and constitutional reform are set out in the Structural Reform Plan (see actions 3.1 to 3.10). Meeting those milestones provides the most suitable means of assessing progress.
