Sir,

I know that you are determined to continue this exorbitant waste of money with wind farms but it may make you wonder if you are correct with

the revelation of a further 5000 emails from the CRU at UEA.

Scientists have been shown to admit that their science is dodgy and only

based on altered or suspect data. ie. IT IS ALL A FIDDLE AND SHAM.

As many must have told you for some time that you are wrong about renewables and these emails tell us that your much held beliefs are also

wrong.
