# Introduction and explanatory notes

This is the Corporate Hospitality Register (the Register) for all corporate hospitality received by employees of the Olympic Delivery Authority (ODA) for the first quarter of 2012, from the beginning of January to the end of March.

The Nolan Committee in its report on Standard in Public Life recommended that a central register of offers of hospitality to public servants should be kept. The ODA keeps such a register and all employees have to declare any hospitality offered (whether accepted or declined).

The ODA understands that it is important, given the high profile nature of the London 2012 Olympic and Paralympic Games (the Games), as well as the amount of public funding going into the Games, that we, as an organisation are open and transparent in our dealings with industry, as well as the public. It is for this reason that the Register is being published.

The Register includes a list of all hospitality received by each ODA Director, Head of Department and Project Sponsor, the relevant date, the name of the hospitality provider as well as a short description of the event. All Board members' hospitality (relevant to their position at the ODA) is also published.

The Register is divided alphabetically by department with the Director in charge of that department heading the table, followed by the heads of department and project sponsors. The table concludes with the summary of corporate hospitality accepted by the

non-senior members of that department.

The ODA believes that by publishing the Register in this way it provides a reasonable balance between the official capacity in which the ODA acts and our privacy and data protection concerns (particularly in respect of staff who do not occupy senior management roles).

Given the nature of the project, as well as the time scale to which we are working it is vital to foster good working relationships quickly within the ODA, as well as between the ODA and the various contractors, stakeholders and other interested parties. Good relationships are a key ingredient, in a project of this scale, for the efficient and timeous completion of all projects and tasks. One way of fostering these relationships is through various forms of hospitality both provided by, as well as, offered to the ODA. We cannot, as an organisation, afford to miss opportunities which could enhance the delivery of the Games and it would not be in the public interest to do so. We are however, careful to consider the appropriateness of accepting any hospitality and will not accept any form of hospitality from a prospective contractor or supplier in any active tender situation.

## **Frequency of publication**

In future, the ODA will be publishing the Register quarterly in January, April, July and October.

## **Only hospitality received**

We would also like to make clear that this Register only contains corporate hospitality which has

been accepted by members of the ODA staff. It does not provide for those instances where hospitality was offered but not accepted but we have listed the number of offers declined.

#### **Hospitality declined**

For the time period of this report, 1<sup>st</sup> January 2012 up to and including 31<sup>st</sup> March 2012, a total of 125 corporate hospitality events were offered to all ODA employees. Only 30 of these offers of corporate hospitality were accepted whilst 95 of them were declined.

#### **Chief Executive - ODA**

Dennis Hone, as the Chief Executive of the ODA, is offered corporate hospitality almost on a daily basis. This is to be expected when considering the high profile nature of the project the ODA is engaged with.

During this review period Dennis Hone received 29 offers of corporate hospitality, of which he accepted 6.

#### **Personal data**

Against the entries for the Board Members, Directors, Heads of Department and project sponsors, where the provider of the corporate hospitality was an individual, their name has been redacted as this is personal information which we do not believe we can justifiably release in terms of the Data Protection Act of 1998.
