

SQUIRREL HT ZJ276 OCCURRENCE – CONVENING AUTHORITY REMARKS

I am content that the Panel have conducted a thorough and objective Inquiry into this accident and I accept their Findings and Recommendations. The Panel are to be commended for their examination of the available evidence and for their professionalism in interpreting it. Having reviewed their Report, I have nothing more of substance to add. I would merely invite AOC 22 (Trg) Gp to ensure that the findings of his study into the effects of flying student holdovers are communicated to his ODH peers and to the Services' Manning Authorities.

As is now the norm, Hd MilAAIB will track implementation of the Recommendations and report to me on progress regularly.
