

Comparing Local Trajectories to the PM's ambition to help turn around every family by the end of the SR period by Area

This table has been produced solely to facilitate discussion and to enable comparison with area plans (compared to families with multiple and child behaviour problems) but not taking into account areas' definitions of their target cohort and should not be shared externally. It contains information from areas as at end March 2011.

Note: The estimates in the table give a very rough idea of the number of families with multiple problems (FwMP) in each local area. The data is based on national estimates of the number of FwMP in England which has been apportioned between LAs using LA level deprivation measures. **Due to this limitation and the age of some of the data these estimates should not be shared externally to avoid misleading stakeholders or the public and should not be used to monitor the performance of local areas.** The column in red relates to families with multiple and child behaviour problems.

Where only year 1 figure has been provided, this has been multiplied by 4 to give the total number of families supported in the SR period.

COUNTY NAME	Population estimates (mid-2009) ¹	No. of families with multiple problems (FwMP) ²	No. of FwMP and a child with SEN or behaviour problems ³	No. of families offered and accepted an intervention as of March 2011 ⁴	No. of families to be supported in 2011/12 from CB proposal	No of families to be supported in SR period from CB proposal	Possible trajectory linked to PM's ambition* for the SR period (2010-15)
Barnet	343,100	640 - 770	250 - 300	6	100	400	271
Birmingham	1,028,700	4,150 – 4,210	1,630 – 1,650	88	161	1600 in 2014; growing to address all 4200 but no date set	1,596
Blackburn with Darwen	139,900	400 – 530	160 – 210	168	30	400 - 530	76
Blackpool	140,000	470 – 560	190 – 220	137	50	250	98
Bradford	506,800	1,710 – 1,810	670 – 710	111	145	Min 580	636
Croydon	342,800	770 - 800	300 - 310	15	60	280	301
Essex	1,399,000	2,170 - 2,270	850 - 890	39	80	320	849
Islington	191,800	790 - 840	310 - 330	27		1,080	308
Kent	1,411,100	2,540 - 2,580	1,000 - 1,010	22	100	400	997
Kingston upon Hull	262,400	1,060 - 1,100	420 - 430	112	150	690	347

¹ Office of National Statistics, 2009 population estimates

² FWMP in England is defined as those who have 5 or more of the following disadvantages (FACS, 2004): No parent in the family is in work; family lives in poor quality or overcrowded housing; no parent has any qualifications; mother has mental health problems; at least one parent has a longstanding limiting illness, disability or infirmity; family has low income (below 60% of the median); family cannot afford a number of food and clothing items. Using the estimated 117,000 families with at least 5 disadvantages, this column indicatively proportions a range of the number of families across all local areas, using the overall index of multiple deprivation and children's well being index combined with local population numbers (rounded to the nearest 10).

³ FWMP and at least one child with SEN or behaviour problems (excluded from school, involvement with the police or ran away from home). This column uses the above formula with the 46,000 families (the portion of 117,000 families with child behaviour problems) as a base instead (rounded to the nearest 10).

⁴ Figures are taken from the FIP online Information System (18 March 2011) which is raw and not cleansed. Area may not have entered all families they have worked with onto the system.

Leicestershire	644,700	740 - 880	290 - 350	42	30	740 - 880	295
