

The table below shows the number of female and male candidates who passed their car theory test on their first attempt in 2010/11 by age.

Please note that this information is based on car theory tests taken in 2010/11 and doesn't take into account any attempts made in previous years. Therefore, for example, if a candidate failed a car theory test in 2009/10 but passed it in on their first attempt in 2010/11 they'd be included in the information below as passing their car theory test on the first attempt in 2010/11.
