## **Appendix B: North West**

## Revocation of saved structure plan policies

County level structure plans were abolished under the Planning and Compulsory Purchase Act 2004, but the policies in them remained in force for a transitional period. In 2007 the Government wrote to local planning authorities to advise them which policies from their existing structure plans would be saved after 27 September 2007. This Appendix lists the 35 saved structure plan policies for the North West of England together with an assessment of whether the policies are still relevant or whether they have been superseded.

County structure	Policy has	Policy is	Applicable	Superseded	Policy still
plan / Saved policies	been	generic	national	by local	relevant
