Terminology used in this release

A list of terms relating to local government finance is given in the Glossary of Terms to the *Local Government Financial Statistics England No. 21 2011*. This is accessible at <http://www.communities.gov.uk/publications/corporate/statistics/financialstatistics212011>
The most relevant terms for this release are explained below.

Administering authority

A body responsible for administering a Local Government Pension Scheme fund on behalf of its members who may be drawn from a number of local authorities

Admitted bodies

Administering authorities may admit employees of non-scheme employers to the scheme under an admission agreement.

Former employees entitled to deferred benefits

Members who leave the scheme having completed the minimum period of service but who are not entitled to the immediate payment of a pension benefit, are awarded a deferred benefit which, under normal circumstances, becomes payable when the person reaches their normal retirement age.

Grant payable on death

This is payable to the estate of a scheme member who dies in service. Prior to 1 April 2008 this was 2 times final pay. Since 1 April 2008, when the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 and the Local Government Pension Scheme (Administration) Regulations 2008 came into effect, this has increased to 3 times final pay. This accounts for the significant increase shown in **Table 1** for 2008-09 compared to earlier years.

Ill Health retirement

Under the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 and the Local Government Pension Scheme (Administration) Regulations 2008 which came into effect on 1 April 2008, there are now three levels of ill-health retirement pension payable. These levels depend on the extent to which the incapacitating condition which gave rise to the termination of employment in local government prevents the scheme member from obtaining gainful employment in the general workforce.

Local Government Pension Scheme

The pension funds in the Local Government Pension Scheme operate under regulations made under the Superannuation Act 1972. Schedules to the regulations list the scheme employers, most of these are local authorities. In Wales there are 8 pension funds in the Local Government Pension Scheme, each administered by an administering authority. There are 81 LGPS pension fund administering authorities in England.

The assets of the pension funds are for meeting the future pension liabilities of the funds, and are part of the financial corporations sector in the National Accounts, not part of the local government sector. Pensions paid out under the scheme are therefore part of the expenditure of the pension funds, not of the local authorities that administer them. Employers' and employees' contributions, part of the income of the funds, are recorded as

expenditure by local authorities in their revenue accounts, either directly or indirectly under employees' expenses.

On 1 April 2008, the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 and the Local Government Pension Scheme (Administration) Regulations 2008 came into effect. The new Scheme included some new and different provisions which may affect comparison with previous data sets.

Lump sum on retirement

Prior to 1 April 2006-07, scheme members on retirement became entitled to both an annual pension based on $1/80^{\text{th}}$ of pensionable pay for each year of membership and a lump sum of three times that amount. Under the new regulations, entitlement is to a pension only based on a higher accrual rate of $1/60^{\text{th}}$ but with the option to commute pension into lump sum.

Pension arrangements for fire fighters, police and teachers

Separate arrangements apply for the pensions of the police, fire fighters and teachers. The police and fire fighters' pensions are provided through unfunded schemes administered locally, and the cost of police and fire fighters' pensions are therefore included in local authority expenditure. Teachers' pensions are provided through a notionally funded scheme administered by the Department for Education (DfE). There is no fund of assets, and teachers' pensions are paid by the DfE. Employers' and employees' contributions are paid by local authorities to the DfE and are recorded as expenditure in their revenue accounts.

It should be noted that non-operational staff in the police, fire and rescue service support staff, and non-teaching staff in the education sector are covered by the Local Government Pension Scheme.

Refunds of contributions

Contributions refunded when a person leaves a pension scheme before completing a minimum period of service. Under earlier schemes, a refund of contributions could be paid to those leaving the scheme with less than 2 years service. Under the 2008 scheme, a refund of contributions can only be made to a person who has been a member of the scheme for less than 3 months.

Transfer Values

A cash value assigned to a person's pension pot that is transferred with them when they move from one pension fund to another.

Data quality

The information in this publication is based on data returned to Communities and Local Government by the 8 administering authorities in Wales on Local Government Pension Funds and associated information for the financial year 2010-11 (SF3) forms.

Figures are subjected to rigorous pre-defined validation tests both within the form itself, while the form is being completed by the authority and also in Communities and Local Government as the data are received and stored.

Finally, the release document, once prepared, is also subject to intensive peer review before being cleared as fit for the purposes of publication.

Uses made of the data

The data in this publication are essential for a number of different purposes. A central and immediate purpose is to provide Ministers with information about the Local Government Pension Scheme. The data are also used by local authorities, their associations and regional bodies.

In addition, the data are important sources this survey provides a benchmark on the administration and fund management of the Local Government Pension Scheme. The data are also used in compiling the National Accounts and to show the role of pension funds in the economy.

Background Notes

1. This publication has been produced to the high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure they meet customer demands.
2. The information for 2010-11 in this publication is derived from Local Government Pension Scheme Fund (SF3) forms submitted by the 8 Administering Authorities in Wales only.
3. The pension funds in the Local Government Pension Scheme provide pensions for most local authority employees. In England and Wales there are 89 pension funds in the Local Government Pension Scheme. The assets of the pension funds are for meeting the future pension liabilities of the funds, and are part of the financial corporations sector in the National Accounts, not part of the local government sector. Pensions paid out under the scheme are therefore part of the expenditure of the pension funds, not of the local authorities that administer them. Separate arrangements apply for the pensions of the police, fire fighters and teachers.
