## **5. Eligible Rural Areas**

A minimum of 15% of all activity within the CSCo will be delivered within rural areas. A household may qualify to be eligible for activity in this section of the CSCo if the:

- Household is within a settlement of fewer than 10,000 inhabitants and is in receipt of one of the qualifying benefits listed in Schedule 1 of the Electricity and Gas (Energy Companies Obligation) Order 2012.

## 1. Introduction

The Energy Company Obligation (ECO) is designed to complement the domestic Green Deal in a number of areas. For some of the most effective carbon saving measures, Green Deal finance alone will not be able to cover the upfront cost of the measures: ECO will combine with Green Deal finance to make these measures affordable under the Green Deal. ECO will also be used to provide insulation and heating measures to low-income and vulnerable households and insulation measures to low income communities.

The Carbon Savings Community Obligation (CSCo) is expected to deliver measures equivalent to expenditure of £190m per year through to March 2015. The CSCo will target households across Great Britain in specified areas to improve energy efficiency standards. It will be funded as part of the ECO through an obligation on energy suppliers.

The CSCo will focus on low income households and areas and will contribute to removing families from fuel poverty through ensuring that their properties receive energy efficiency measures. We estimate that around 250,000 major insulation measures will be delivered under this target to March 2015. The associated CSCo carbon savings target is 6.8mtCO<sub>2</sub>.

The areas of low income that will be eligible for ECO support have been selected using the Indices of Multiple Deprivation (IMD) in England, Scotland and Wales. In England, Scotland and Wales the lowest 15% of areas ranked in the IMD will qualify for inclusion within the CSCo element of ECO. Subject to the requirements laid out in Articles 13 (carbon saving community obligation) and 14 (actions in areas adjoining areas of low income) of the Order, up to 20% of activity under CSCo may be undertaken in areas adjoining those specified in the lists below.

To ensure that rural areas are able to benefit from the CSCo element of the ECO, we will require energy suppliers to deliver a minimum of 15% of their CSCo obligation to low-income households living in rural areas. This is defined as a household within a settlement under 10,000 homes and in receipt of the same qualifying benefits as for the home heating cost reduction obligation (see article 15 of the Order). All households, regardless of tenure, will be eligible for support.

Section 5 of this document will provide further detail concerning eligible households in rural areas.

Sections 2, 3 and 4 of this document list the areas of low income in England, Scotland and Wales respectively which qualify for the CSCo element of the ECO.

Further information on the Indices of Multiple Deprivation can be found at:

England: <http://www.communities.gov.uk/communities/research/indicesdeprivation/>

Scotland: <http://www.scotland.gov.uk/Topics/Statistics/SIMD>

Wales: <http://wales.gov.uk/topics/statistics/theme/wimd/?lang=en>

## 2. Low income areas in England

For the purposes of the Electricity and Gas (Energy Company Obligation) Order 2012, “area of low income” means any of the areas described in each of the rows in the following table using either a “LSOA Name” descriptor or a “LSOA Code” descriptor.

Full details on how to ascertain the geographical boundaries of the LSOA areas specified below will be contained within forthcoming guidance from the Administrator. The geographical boundary may be ascertained by inputting the “**LSOA Name**” descriptor into the “**map viewer**” section of the ONS lookup tool found at: <http://www.neighbourhood.statistics.gov.uk>

### 3. Areas in Scotland

For the purposes of the Electricity and Gas (Energy Company Obligation) Order 2012, “area of low income” means any of the areas described in each of the rows in the following table using either a “Data Zone code” descriptor.

Full detail on how to ascertain the geographical boundaries of the Data Zone areas specified below will be contained within forthcoming guidance from the Administrator. The geographical boundary may be ascertained by imputing the “**Data Zone code**” descriptor into the Scottish IMD interactive mapping tool found at:

<http://www.scotland.gov.uk/Topics/Statistics/SIMD/SIMDInteractive>

<b>Data Zone code</b>	<b>Intermediate Geography name</b>	<b>LA Code</b>	<b>Local Authority Name</b>

## 4. Areas in Wales

For the purposes of the Electricity and Gas (Energy Company Obligation) Order 2012, “area of low income” means any of the areas described in each of the rows in the following table using either a “**LSOA Name**” descriptor or a “**LSOA Code**” descriptor.

Full detail on how to ascertain the geographical boundaries of the LSOA areas specified below will be contained within forthcoming guidance from the Administrator. The geographical boundary may be ascertained by inputting the “LSOA Name” descriptor into the “map viewer” section of the ONS lookup tool found at: <http://www.neighbourhood.statistics.gov.uk>

## 5. Eligible Rural Areas

A minimum of 15% of all activity within the CSCo will be delivered within rural areas. There are two ways in which a household may qualify to be eligible for activity in this section of the CSCo:

- A household is within a settlement of fewer than 10,000 inhabitants and is in receipt of one of the qualifying benefits listed in Schedule 1 of the Electricity and Gas (Energy Company Obligation) Order 2012.
- A household is within or adjoining one of the qualifying areas specified above, subject to the limitations set out in the articles 13 and 14 of the ECO order, if that area falls within a settlement of fewer than 10,000 inhabitants.

The data sets detailing the full list of areas can be found at:

- in England or Wales, an area which is specified as a “Lower Layer Super Output Area” by the Office of National Statistics for England and Wales, in a document entitled “Mid-2010 Population Estimates for Lower Layer Super Output Areas in England and Wales by Broad Age and Sex” (release date 28th September 2011)(1);
- in Scotland, an area which is specified by the Scottish Executive as a “Datazone” in a document entitled “SMID Datazone Lookup” (version 3 published on 6th March 2012)(2)

---

(1) The document referred to can be found on the website for the Office of National Statistics:  
<http://www.ons.gov.uk/ons/search/index.html?newquery=Isoa>.

(2) <http://www.scotland.gov.uk/Topics/Statistics/SIMD/SIMDQuickLookup>

## 6. Glossary

CSCo	Carbon Savings Community Obligation
ECO	Energy Company Obligation
IMD	Index of Multiple Deprivation
LSOA	Lower Super Output Area
ONS	Office of National Statistics
