---

<sup>i</sup> Criteria used for the selection of countries: (i) number of programmes >8; and (ii) funds assigned >500K. There are three exceptions (Peru, Sierra Leone and Nepal), which have been included according to thematic or geographic interests.

<sup>ii</sup> Attribution is very thin. There are many other elements that influence the evolution of the index. Therefore, it is difficult to define a priori a realistic target.

<sup>iii</sup> The Open Budget Survey is conducted biennially since 2006. Therefore, 2008 data will be used for the baseline
