

SOMME COMMEMORATIVE MAPPING FOR SALE

To commemorate the 90th Anniversary of the Battle of the Somme, the Defence Geographic Centre (DGC) is producing a set of seven colour facsimile reprints of original trench maps available to order. These are similar in concept to the set of five maps produced by the DGC to commemorate the 60th Anniversary of the D-Day landings although they do not contain the same density of intelligence overprint.

The maps cover the Somme Front as it was on 1st July 1916, including the area around Flers where tanks were first used in September that year. Each map will measure 90cm by 70 cm and will be printed on high quality paper making them suitable for framing for presentation purposes.

The sheets are priced at £5 for a complete set of seven, plus £6.00 postage per set. Orders for more than one set will be charged accordingly.

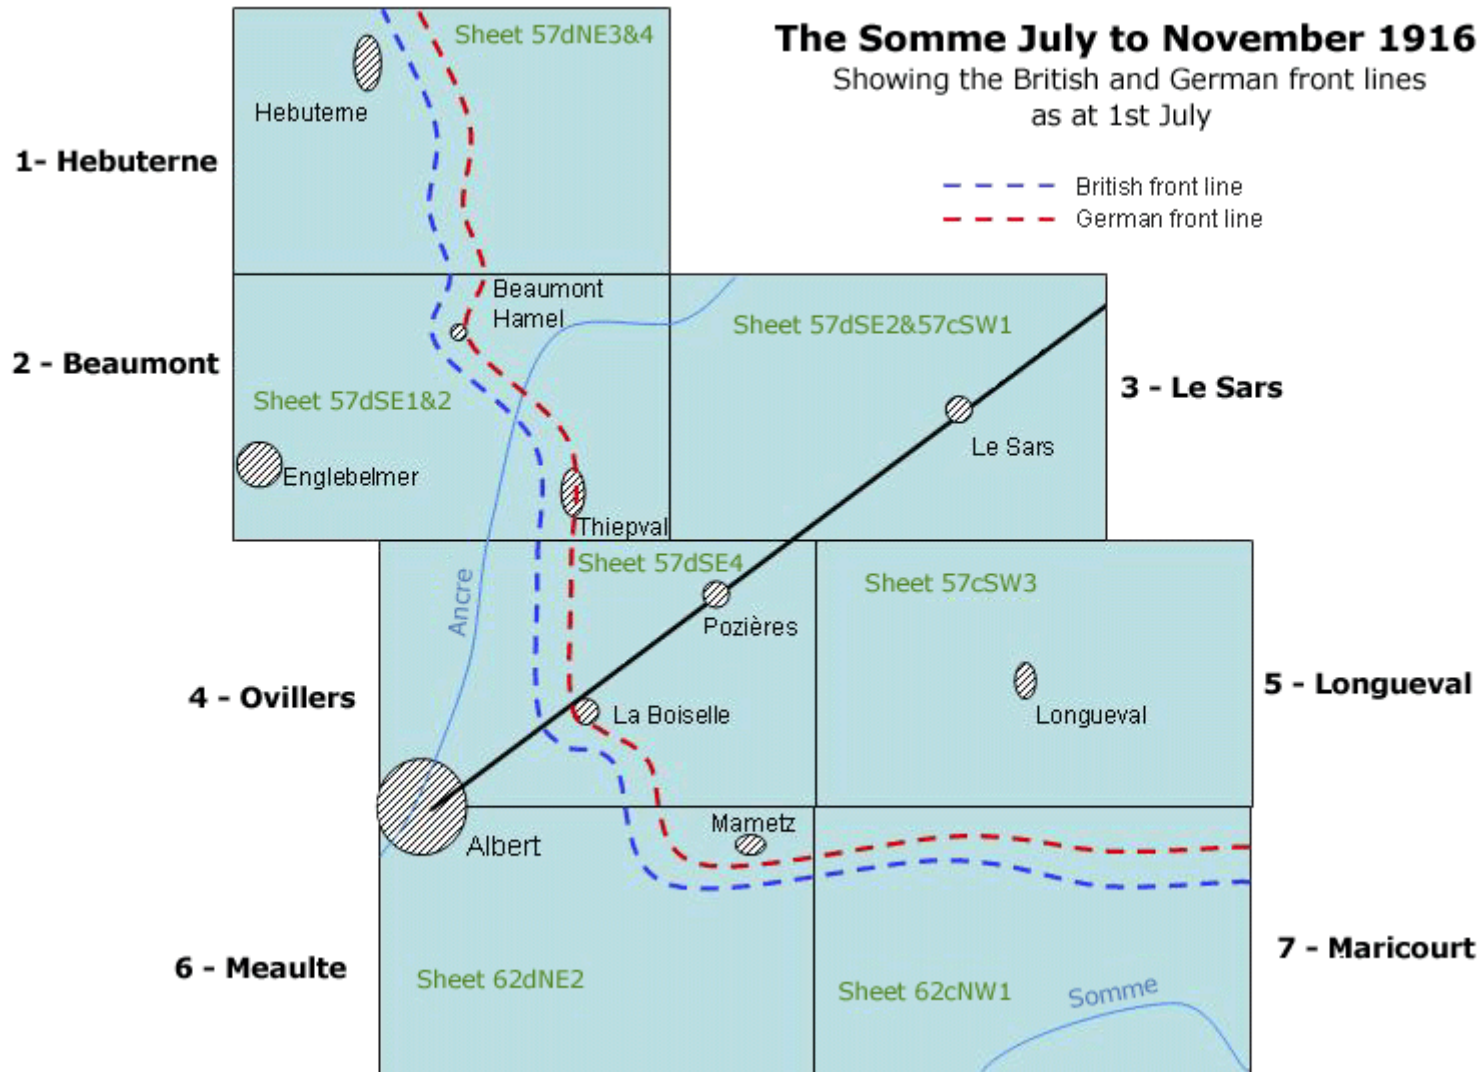

Ordering:

Orders can only be accepted on the attached form which should be sent to the address indicated together with a cheque made payable to 'The MOD Accounting Officer'. The maps will be available from 1st July and will be dispatched rolled in a cardboard tube for protection. Please note, however, that due to the current high level of operational demands on the map & Air Chart Depot, you should allow a minimum of 28 days for delivery.
