ANTnDECC(from Q3 2009 onwards for DECC) *Contact.sav*

Information on the amount of energy used by different types of households is of great values to the government in planning for the future. Would it be acceptable for the Department for Climate Change (DECC) to obtain data from your energy supplier on the amount of energy used at this address to help with their analysis of this survey? All information will be anonymised and used at an aggregated level for statistical purposes only?

LLordcred **(new from Year 2)**

Landlord.sav

Is your landlord a member of a local authority accreditation scheme?

Some local authorities have set up an accreditation scheme for private landlords in their area to help raise standards and help tenants locate a reliable landlord.
Accreditation schemes are voluntary and can include training, landlord forums, inspections of each property owned by a landlord and checks into the landlord's fitness to let a property.
Landlords who join a scheme and abide by the standards set down by the local authority are 'accredited'. Tenants know that if they choose to rent from an accredited landlord, the property will be in good condition and the tenancy will be managed to a high standard.
Note the question relates to LA run schemes only - answer No if landlord belongs to a professional organisation such as the National Landlords Association but not to a LA run scheme.

The English Housing Survey is funded by the government department for Communities and Local Government (CLG). Responses to the survey are used by CLG and the Department for Energy and Climate Change (DECC) data management team . If either of these departments (or their contractors) needed help with any future research, would it be all right if they contacted you again?

Any further research would be conducted by ONS or another research organisation contracted to CLG under confidentiality rules consistent with the Code of practice for Official Statistics.

Data passed to that organisation would only be used for research purposes.

Introduce the surveyor visit and record whether or not the respondent is willing to agree to a visit...

Thank you for completing the first stage of the survey. You have been randomly selected to go on to the final stage of the survey. This involves arranging for a professional surveyor to carry out a visual assessment of the property.

It is very important to collect both the householder's views and the surveyor's assessment of all properties that have been selected. This leaflet provides more information about why we are conducting this important study.

The surveyor's information is essential in enabling the government to assess the energy efficiency and state of repair of properties across the country.

The surveyors are employed by a company of Chartered Surveyors called Miller Mitchell Burley Lane Ltd (MMBL), who have been contracted by the Government to carry out these inspections. They will have a security pass showing the MMBL and EHS logos. They are bound by the same pledge of confidentiality as we are at ONS.

The surveyor will look at the structure and state of repair of the building.

It will normally take around 30 minutes inside and 30 minutes outside but the surveyor will not need to take up any of your time. The inspection is non-intrusive, visual only (the surveyor would like to look in the loft but will not lift furniture or carpets).

The surveyors are instructed to tell you if they discover anything that poses a danger to life or limb, but are not allowed to give any other feedback for professional indemnity reasons (they cannot give you a valuation).

It doesn't matter what type of home you have - it is important that we have a cross section of all types of homes whatever their age, size or state of repair.

You do not need to consult your freeholder or landlord, unless you want to.

DO NOT LEAVE THIS FIELD BLANK. Please explain why you have concluded the address is vacant e.g. 'dwelling boarded up' or 'neighbour has confirmed property empty' and provide any information to help the MMBL surveyor gain access for the physical survey e.g. name and contact details of owner or estate agent? Ensure you note the name of the landlord if it’s a LA or Housing Association property.

Please note: only case notes made in this field will be visible to MMBL staff so please ensure that all relevant information is recorded here.

Please indicate here if you think the vacant address is an HMO, or forms part of an HMO and consider calling the FEL
