## **EXPLANATORY NOTE**

(This Note is not part of the Licence)

1. This Open General Export Licence has been amended by changes made to the following item entries listed in Schedule 1:
  - Entry PL5035 is deleted and replaced by entry ML6.b.2
  - Note NB1 referring to ML6 deletes the example of a NATO tow hitch as a specific example of a modification made to civilian vehicles

These amendments are being made in conjunction with the publication of a new version of the UK Military List which comes into force on 10 August 2012.

2. This Licence permits, without further authority but subject to certain conditions, the temporary exportation to EU destinations, Channel Islands or Norway, for a period not exceeding 3 calendar months, a range of unclassified military goods including vehicles manufactured 50 years or more before the date of exportation. The conditions include that the exporter **shall not** sell, dispose or transfer to any person ownership of the goods or any interest in them or take any other action which may have the result of impeding or diminishing his power to ensure their safe return to the UK.

3. A licence exemption is in place which allows the temporary export of historic military vehicles to certain named destinations (Belgium, France or Germany) when certain specified conditions can be met. An export licence issued by the Export Control Organisation is not required if you can meet the specified exemption conditions and are exporting historic military vehicles (ML6) to the named destinations. This exemption is specified in Article 14a which is made in [Export Control \(Amendment\)\(No 2\) Order 2012 \(SI 2012/1910\)](#). This amends the Export Control Order 2008. The order specifies:

“14(A) – (1) The prohibition on the export of military goods in article 3 does not apply to the export of a vehicle or component falling within entry ML6 in Schedule 2 provided that the following conditions are met.

(2) The conditions are that –

- (a) the vehicle or component was manufactured more than 50 years before the date of exportation
- (b) the exportation is to a destination in Belgium, France or Germany

(c) the exportation is for the purpose of a military re-enactment, commemorative event or recreational activity, and  
(d) the vehicle or component is to be returned to the United Kingdom within 3 months of the date of exportation”

4. Please note that a separate licence must be applied for from the Arts Council for any military goods manufactured 50 years or more before export where the value is in excess of £65,000. Arts Council enquiries should be addressed to, [elu@artscouncil.org.uk](mailto:elu@artscouncil.org.uk)

5. An exporter who exports goods under the authority of this Licence must, not later than 30 days after the first exportation under the Licence, inform the Secretary of State of this, and of the address where copies of the said records may be inspected. This notification must be made via the Export Control Organisation’s electronic licensing system, SPIRE, at [www.spire.bis.gov.uk](http://www.spire.bis.gov.uk).

6. The Secretary of State has the power to suspend or revoke licences at any time and in such circumstances and on such terms as he thinks fit. If an exporter receives written notice to this effect, he will be prevented from relying on this Licence. The power to suspend may be used in addition to criminal prosecution or as an alternative. Suspension may occur for example where an exporter is being investigated or prosecuted in relation to a possible criminal offence, or has been found guilty of a criminal offence under the export control legislation. It may also be used in situations where an exporter has breached the conditions of the Licence and failed to take corrective action within a reasonable period (see condition 3(9)).

7. Where, the ECO identifies failures in compliance with licence conditions or the legislation during a compliance visit, the ECO may send a warning letter to the exporter listing the improvements that need to be made to ensure compliance. The letter will set out the timeframe within which these improvements must be completed. Failure to complete these improvements may lead to the exporter’s ability to use the licence being suspended for a period of time.

8. The exporter may apply for Standard Individual Export Licences during the period of suspension. Suspension will not automatically prevent him from using another OGEL so long as he

meets all its terms and conditions and that he has not received a letter suspending or revoking his ability to use that licence.

9. The provisions of this Licence only apply for the purposes of the Export Control Order 2008. They do not affect the need to obtain other consents that may be required for the export of particular military goods, whether under other statutory provisions (such as the Official Secrets Act 1989) or otherwise (such as under contractual obligations). In addition, this Licence does not extend to prohibitions in other legislation implementing United Nations sanctions.
