

Statistics Release: Count of Gypsy and Traveller Caravans: Published 17 November 2011

Non-scheduled revisions: Correction to Table 1

Figures for numbers of caravans on privately-funded sites have been corrected in Table 1 for the following reasons:

- a) Figures reported by the authority not having been included in the original version for: *Ashfield, Blaby, Daventry, South Northamptonshire and Wiltshire UA*; and
- b) Imputed figures not having been included in the original version for the following non-responding local authorities: *Bexley, Blackpool, Bradford, Birmingham, East Staffordshire and Spelthorne*.

Taken together, these corrections lead to an increase in the national total number of caravans on privately-funded sites from 7,959 to 8,108, and in the national total number of all Gypsy and Traveller Caravans from 18,571 to 18,720.

These and the relevant county and regional totals in Table 1 have been corrected accordingly. The statistical release has also been corrected accordingly.
