

What is the pass rate for assessments/tests carried out for the Driver and Vehicle Licensing Agency (DVLA) in respect of driving assessments/tests for people whose medical condition may affect their ability to drive safely? I would like this information for the 2010 calendar year.

You can find the pass rate for practical driving assessments that we conduct on the DVLA's behalf in the table below. We have also provided the number of practical driving assessments conducted and passed.

Number of practical driving assessments conducted	Number of practical driving assessments passed	Pass rate
251	68	27%

The above figures are based on information captured in databases and spreadsheets held by our corporate correspondence team.

The figures represent those candidates that attended the assessment after the DVLA requested that they do so as part of the investigation into their medical fitness to drive safely.

Please note that we have only included figures where a result was issued.
