

## **Appendix C**

### **South West - Existing adopted Local Plans and saved policies**

#### **Introduction**

In the South West there are 39 local authorities with adopted local plans. These include two unitary authorities where, pending completion of their own core strategies, the local plan comprises the adopted core strategies and other development plan documents (DPDs) and/or adopted local plan saved policies of 10 former local authorities. Only one part of the unitary authority of Cornwall (former Kerrier District Council) do not have a formally adopted local plan in place, but instead rely on approved documents.

Local plans which were adopted shortly before the date of publication of Regional Planning Guidance 10 (RPG10) in September 2001 will have been prepared in parallel with preparation of the Regional Strategy, and so are likely to have anticipated and may have reflected its policies. For the purposes of preparing this Environmental Report it has been assumed that only local plans adopted in September 2001 or afterwards are in general conformity. On this basis 34 local authorities have plans in place which are in general conformity with the Regional Strategy. Of these 12 authorities have adopted Core Strategies, plus an adopted South Wiltshire Core Strategy (covering part of the unitary authority of Wiltshire Council) that are in conformity with both the requirements of the 2004 Planning and Compulsory Purchase Act and the policies set out within RPG10.

There are 15 mineral and waste authorities. Eight authorities have worked together to prepare minerals and waste policies under a single plan or core strategy. Others are working individually and have separate or joint minerals and waste policies, whilst four authorities includes minerals and/or waste policies as part of its wider Core Strategy. Of the 20 (in total) plans covering minerals and waste policies, 18 were adopted following publication of RPG10.

These Plans would form part of the Development Plan in the absence of the revoked Regional Strategy.

**Table 1** shows a summary of policies/targets for Housing provision, Gypsy and Traveller (including Travelling Showpeople) pitches or sites, Renewables, and Employment Land within adopted local plans, core strategies and other DPDs and, where applicable, RPG10. The equivalent targets within the Draft Revised Regional Spatial Strategy for the South West Incorporating the Secretary of State's Proposed Changes (published in 2008) are also provided in recognition of the fact that some core strategies in the region have taken account of policies within the draft Regional Spatial Strategy as it emerged.

**Table 2** presents a summary of the Mineral and Waste policies/targets within RPG10 and those in mineral and waste plans adopted before and after the plan was adopted.

Appendix C - SEA of the Revocation of the South West Regional Strategy

**Table 1**

	Planning Authority	Current status <sup>1</sup>	Other relevant policies <sup>2</sup>	RPG10 Provision/Targets <sup>3</sup>	Draft South West RSS Provision/Targets <sup>4</sup>	Local authority adopted Plan Provision/Targets
1	Bath & North East Somerset Council	Bath & North East Somerset Council Local Plan (adopted October 2007) saved policies	Draft Core Strategy submitted May 2011, examination is currently suspended until June 2013  Saved policies ET1,ES1 and HG1 will continue to be saved alongside Core Strategy until replaced by LDF	<b>HOUSING PROVISION</b>		
				Policy HO 1: Levels of Housing Development 1996 – 2016 required the County of Avon to provide average net additional housing of 3,700 units p.a.	Policy HD1 Sub-Regional Distribution of Housing 2006-2026: Managing and Stepping Up Supply sets out the provision to be made across the HMAs and LPA areas to deliver the total number of dwellings in the periods between 2006-2016 and 2016-2026.  The distribution in Bath & NE Somerset is: 1,065 units p.a. in 2006 – 2016 1,065 units p.a. in 2016 – 2026	No Local Plan provision for new housing. No annual breakdown of housing targets. (Adopted Local Plan period is to 2011). (saved policy HG1 made provision for 6,855 units in 1996-2011 period)  Provision in the Draft Core Strategy Policy DW1 for 11,000 units in 2006 – 2026 period
				<b>GYPSY &amp; TRAVELLER PITCHES</b>		
				No target set.	Policy GT1 Gypsy and Traveller Pitch Requirements states that: Local authorities will identify realistically deliverable sites in their DPDs to provide for 1634 additional pitches for Gypsies and	Provision in local plan in Saved Policy HG16 for Gypsies and other travelling people subject to specified criteria. No specific provision for G&T pitches numbers is available.

<sup>1</sup> Including where saved policies from earlier local plans remain in place, pending approval of the core strategy

<sup>2</sup> Includes other near complete development plan documents

<sup>3</sup> Housing Provision – Minimum dwelling provision 1996-2016 (less already built to Mar 96) = still to be built

<sup>4</sup> Housing Provision - Minimum dwelling provision 2001 to 2026 (less already built to Mar 06) = still to be built

			methods for managing the anticipated municipal and commercial and industrial workstreams for the period to 2015/16.	
Dorset, Bournemouth and Poole	<p>Saved Waste Local Plan (adopted June 2006) Policies</p> <p>Saved Minerals and Waste local Plan (adopted April 1999) Policies (Minerals policies only)</p>		<p><b>Minerals</b>            Figures which were considered as part of the SW apportionment were based on Minerals Planning Guidance note 6 (1992-2004) to support plan policies 15-21 as follows:</p> <p>Crushed rock: 14.64million tonnes            Sand: 33.3 million tonnes            Gravel: 10.9 million tonnes</p> <p><b>Waste</b></p>	<p><b>Revised Minerals Core Strategy</b></p> <p>Consultation on the Revised Draft Minerals Core Strategy took place between July and September 2011. Pre-submission consultation is planned</p>

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			<p>Municipal Waste Arisings grow by 3.5% per annum (which was the average annual growth in arisings for Bournemouth, Dorset &amp; Poole combined between 1992/3 and 1999/00).</p> <p>Assumes that legal and policy targets, as required by the EU Landfill directive, the Government's "Guidance on Municipal Waste Strategies", and waste Strategy 2000 will be met.</p> <p><b>Non-Inert Industrial and Commercial Waste</b></p> <p>Assumes annual waste arisings (820,000 tonnes in 2001/2) remain at existing levels throughout the Plan</p>	

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			<p>period, and that Government target (in Waste Strategy 2000) to reduce the amount of industrial and commercial waste sent to landfill to 85% of that landfilled in 1998, by 2005, will be met.</p> <p>Overall forecast over the Plan period (years 2001/2 – 2015/16) non-inert waste will amount to around 11.6 million tonnes. Recovery will amount to around 5.5 million tonnes, and disposals (including the residues from recovery processes that will need landfilling) will amount to 6.7 million tonnes.</p> <p><b>Inert waste</b></p> <p>The following assumptions have been made in forecasting provision for inert waste:</p>	

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			<p>- Arisings remain constant at the average level over the 3 years 1998/99, 1999/00, 2000/01</p> <p>- 72% of all industrial and commercial waste is inert</p> <p>- The Government Target set out in Waste Strategy 2000 that limits the amount of industrial and commercial waste to landfill from 2005 onwards to 85% of that going to landfill in 1998 will be met.</p> <p>_ Recovery will continue at current levels until imposition of the Government's target (an increase over current levels of recovery) and continue at that level for the remainder of the Plan period.</p> <p>It is estimated that over the Plan period inert waste will amount to around 8.8 million tonnes, with around 4.1</p>	

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			<p>million tonnes being recovered. Total disposals over the Plan period are projected to be around 4.7 million tonnes.</p> <p><b>Landfill</b></p> <p>It is estimated that over the Plan period arisings of non-inert waste will amount to around 11.6 million tonnes.</p> <p>If the targets to increase recycling and recovery of waste are met, and when the restrictions on landfilling imposed by the Landfill Directive take effect, around 5.5 million tonnes of non-inert waste will have to be recovered. Disposals over the plan period (including the residues from recovery processes that will need landfilling) could still be up to</p>	

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			around 6.7 million tonnes.	
Exmoor National Park Authority	Saved Local Plan (adopted March 2005) Waste Policies		Contains no figures for mineral extraction.  The 2005 plan applies the apportionment figure in the RPG as the basis for preparing its waste policies.	The National Park is preparing a Core Strategy and Development Management Policies Development Plan Document for consultation in summer 2012.
Gloucestershire County Council	Saved Waste Local Plan (adopted Oct 2004) Policies (no sites)  Saved Minerals Local Plan (Adopted April 2003) Policies		This sub-regional apportionment has resulted in a requirement for Gloucestershire to contribute 19.4 million tonnes of sand and gravel and 47.6 million tonnes of crushed rock in the period 1992 - 2006.  The figure for crushed rock can be further sub-divided to 33.3 million tonnes for Carboniferous Limestone	

Appendix C - SEA of the Revocation of the South West Regional Strategy

Planning Authority	Current status (composition) of the local development framework (including where saved policies from earlier local plans remain in place, pending approval of the core strategy)	South West Regional Planning Guidance: Minerals and Waste Figures	Local authority adopted Plan Minerals and Waste Figures	Other relevant (saved) policies and other near complete development plan documents
			<p>from the Forest of Dean and 14.3 million tonnes for Jurassic Limestone extracted from the Cotswolds</p> <p><b>Policy A1</b>                      Subject to the assessment of the environmental, social and economic impact of mineral working, the Mineral Planning Authority will endeavour to maintain a landbank that reflects the local apportionment of the Regional Guidelines. The local apportionment during the Plan period is represented on an average annual basis as a provision of:</p> <p>3.17 million tonnes per annum of Crushed Rock [limestone]</p>	

Appendix C - SEA of the Revocation of the South West Regional Strategy
