NATIONAL STATISTICS OPINIONS SURVEY – March 2010 Module MCS - Mobility Scooters for DfT

ASK ALWAYS :

Intro

SHOWCARD CS1

The Department for Transport has commissioned this module to find out what people think of mobility scooters. The term 'mobility scooter' covers a variety of personal motorised vehicles - here are some examples of them (showcard 1). Their speeds are limited to 4mph on pavements and 8mph on the road.

A variety of suggestions has been made by people as to what regulations there should be regarding mobility scooter use. The Department would like to hear your views.
