12.2.11

Dear Sir,

I believe there is a consultation  
about the proposed Personal Independence Pay.  
For the disabled person no 2 days are  
the same, and the outlook can be helpful or a  
hindrance. The assessor and the Nurse/doctor can  
help the situation or make it worse - some think  
the disabled is a hindrance or nuisance.

They adapt themselves to  
situations - sometimes a mile  
thick many small situations.  
Fortunately I know where  
to find things i.e. RNIB, RNIB,  
Books etc. but a number of  
people are not informed of these.

Yours faithfully

(Miss)
