Dear Sir

With reference to changes to the DLA Benefit

I am in receipt of it since nineteen ninety four and by receiving this benefit I have been able to live an independent life and so must activities that normal people can do.

At this stage I must point out that I am visually impaired registered blind and because I lost my sight I was made unemployed and could not find employment.

Payment I receive pays for any type of work to be done around my home and in addition being disabled there is a need for this benefit. In addition to the formention I have a mobility problem walking. So in my case I need it to live on.

When the benefit was awarded to me I was examined by a doctor from the Department of Social security who came to my home and DLA was awarded for life. So you can understand my concerns and that of other people with sight loss and who are disabled.

I anticipate that a vast amount of correspondence has been submitted to you.

Think before to take action If this the Big Society that the Government wants.

Yours faithfully,
