Smart meters

ASK ALL

SHOW SCREEN

The next question is about smart meters. Here are some pictures of smart meters:

Smart meters are able to communicate with energy suppliers by sending and receiving information about the amount of energy being used. Q9. Do you have an in-home energy display or energy monitor in your home? An in-home energy display is a portable device that displays current and past energy usage and how much it is costing or will cost. You may also know these as a Real Time Display. If you have a smart meter installed, it should have come with one of these displays.

Here are a few pictures of what in-home energy displays may look like:
