ERRATUM

Table 2.13: Annual self-harm incidents by establishment, England and Wales

As a result of a production error, eight establishments have had the incorrect number of self harm incidents recorded against them. The eight affected establishments are Altcourse, Ashfield, Ashwell, Askham Grange, Aylesbury, Bedford, Belmarsh, Birmingham and Blantyre House.

This error occurred due to a reorganisation of the table during production of the Quarterly update to March 2012. This resulted in removing establishments that were now reported elsewhere in the table under a different name. The row for Albany was not deleted resulting in the number of self-harm incidents for seven of the eight prisons being out by one row. For the eighth establishment, Blantyre House, the number of self-harm incidents was not shown in the table.

The annual self-harm tables are republished with each quarterly update and all versions of this table have been corrected to show the correct number of self-harm incidents for the eight affected establishments.

Revisions have been made to the following files:

[Quarterly update to June 2012: Self-Harm tables](#)

[Quarterly update to March 2012: Self-Harm tables](#)
