

Rec'd 16/2/11

February 10th 2011.

Dear Sir,

As the parents of [redacted] multi handicapped living in a Residential Home for ten people, all with learning difficulties. It is a Christian, voluntary organisation "PROSPECTS - ACCESS TO LIFE" providing services for these adults. Consequently we are all very concerned about the proposed changes to the D.A system and that it is to be scrapped and replaced by an alternative benefit, but basically the mobility element of the benefit is being removed from those in hospitals or Residential care homes. They seem to think that these should be funding for this in the free period by Local Services. This is not the case. We do need the mobility component of D.A to purchase, run and also maintain our adapted vehicles. We do not aim to make a profit but merely to cover costs. The plain fact is that without the mobility money we cannot afford to run our vehicles. This would mean no transport for Medical appointments, let alone getting out into the community. Please, please think again. Many

friends and parents are very
concerned. Yes, A big cause for
concern. No more worries please.

Yours faithfully
