

## The journey so far.....

- PIN 2011/S 189-308693 issued 1<sup>st</sup> Oct 2011
- In excess of 100 responses
- The Market Sounding Plenary event was held on 18 January with **Paul Mariner** (Cabinet Office) as a key speaker

## What we are doing now:

- Evaluating information from the questionnaire responses and Face 2 Face sessions
- Collating requests for further discussions from the Market
- Preparing for the SME event on 7 March
- Completing this evaluation will support developing the next steps to engage the market

## Market Sounding Feedback so far...

- The 'service tower' model is recognised as being aligned to Government ICT strategy
- Some businesses are already aligning their structure to this strategy
- DVLA needs to provide clarity on what the TDP(s) will do
- The TDP(s) needs to be engaged early
- Several risk & reward models can be used to manage a tower model effectively
- DVLA needs to demonstrate how this is a genuine opportunity for SMEs

## Intellect Concept Viability.....

- **DVLA** will be joined at the concept viability event by **MoJ** colleagues who are on a similar procurement path
- The event will take place in Swansea on 7 March
- **Stephen Allott** (Cabinet Office Crown Representative for SMEs) is confirmed as a key speaker

- Intellect (<http://www.intellectuk.org>) are facilitating this event
- Registration for the event is via [melissa.frewin@intellectuk.org](mailto:melissa.frewin@intellectuk.org)

## The Path to OJEU for the TDP(s)....

- Refine and clarify the TDP requirement
- Hold a TDP event to communicate the defined role to the Market
- Issue OJEU notice – target for summer 2012
- Appoint TDP(s) – target for early 2013

The timings are indicative and subject to obtaining the appropriate approvals

## Give us your feedback.....

- Should you wish to share further information in the interim you can contact the programme via the e:mail address below
