Subject Tobacco packaging consultation: alternative language versions

Dear all

I wanted to alert you that we have translated versions of the consultation document on standardised tobacco packaging available in Urdu, Gujarati and Tamil which we would be happy for you to make available to anyone in your local areas who would find these alternative formats helpful.

I have attached the 3 versions as PDFs below.

 Urdu - 27509-standardised packaging of tobacco products.pdf  Gujarati - 27509-standardised packaging of tobacco products.pdf

 Tamil - 27509-standardised packaging of tobacco products.pdf

The consultation document is also available in English and Welsh language versions.

Many thanks

Tobacco team, Department of Health
