

# Local Authority Capital Expenditure and Receipts, England: 2012-13 Final Outturn

- Capital expenditure by local authorities in England fell from £20.0 billion in 2011-12 to £18.9 billion in 2012-13, a year-on-year decrease of 5.5%.
- Capital receipts have increased slightly in 2012-13 to £2.1 billion from £2.0 billion in 2011-12, a year-on-year increase of 5.5%. This is mainly due to increase in property disposals.
- In 2012-13 capital expenditure on planning and development services, and fire and rescue increased by 35% and 26% respectively, whilst housing increased by 14%. However, there has been a decrease in capital expenditure in the same year of about 18% each in education (which excludes expenditure related to academies) and social services, and of around 8% in highways and transport, and of 7% in police. Culture and related services fell by 20%.
- The financing of capital expenditure through central government grants increased from £7.2 billion in 2011-12 to £8.5 billion in 2012-13, a year-on-year increase of 18%.
- The ten local authorities that have reported the highest amounts of financing by borrowing in 2012-13 together account for 51% of the England total. Local authority borrowing has reduced by 8.5% from around £5.1 billion in 2011-12 to £4.7 billion in 2012-13.
- At the end of 2008-09, the fifth year of the Prudential System, local authority external debt stood at £55.1 billion. At the end of 2012-13, local authority external debt stood at £83.3 billion, an increase of 51%

# Introduction

This release provides the final outturn of local authority capital expenditure and receipts in the financial year April 2012 to March 2013. Figures for 2012-13 reflect the service category changes on the Capital Outturn Return (COR) form consistent with Service Reporting Code of Practice (SeRCOP).

The final outturn information derived from Capital Outturn Returns (COR) submitted by all 444 local authorities in England, which complete the return, contains unchanged aggregate figures from the Second Provisional Outturn Statistical Release published on 10 September 2013. It also includes new Tables 6-8 and additional Annexes B-F. Individual local authority data are also now available on the departmental website. An earlier provisional outturn was published in a Statistical Release in June based on information from Capital Payments and Receipts Returns (CPR4) submitted by local authorities in England.

The release has been compiled by the Local Government Finance - Data Collection Analysis and Accountancy Division of Department for Communities and Local Government. For uses please see “uses made of the data” section.

## **Changes to the capital data in 2012-13**

There have been no changes to local government capital expenditure and financing in 2012-13 which have a significant impact on the figures in this release.

# 1. Capital Expenditure and Receipts 2008-09 to 2012-13

**Chart A** and **Table 1** illustrate the change in capital expenditure and receipts from 2008-09 to 2012-13. The 2012-13 cumulative quarterly data are published in a live table and can be viewed at <https://www.gov.uk/government/statistical-data-sets/live-tables-on-local-government-finance>. It should be noted that year on year comparisons may not be valid due to local government changes in function and responsibility.

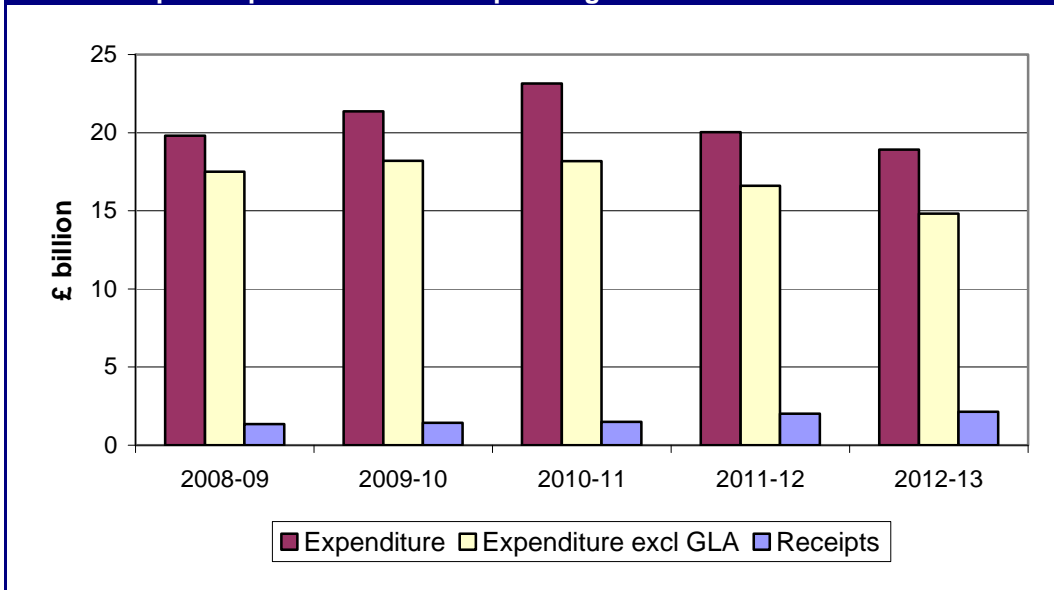

There has been a reform to the Housing Revenue Account (HRA) system of payments which is reflected in the significant increase in the 2011-12 figures shown in Tables 1 and 5 in this Statistical Release.

A fall in the level of in-year capital expenditure in 2012-13 is due to expenditure shortfalls against forecast in part because of slippage due to unforeseen delays in a number of capital projects.

## Total Capital Expenditure and Receipts

- Capital expenditure by local authorities in England fell from £20.0 billion in 2011-12 to £18.9 billion in 2012-13, a year-on-year decrease of 5.5%, due mainly to a reduction in expenditure in both new construction and conversion, and on vehicles, plant equipment and machinery.
- Capital receipts have increased slightly in 2012-13 to £2.1 billion from £2.0 billion in 2011-12, a year-on-year increase of 5.5%. This is mainly due to increase in property disposals.
- The final outturn figure for capital expenditure in 2012-13 is the lowest since 2006-07 when it was £16.3 billion. There is some evidence from authorities that 2012-13 capital expenditure is lower than originally forecast due to slippage on various schemes and development projects which are now expected to be delivered in 2013-14.

**Chart A: Capital expenditure and receipts: England: 2008-09 to 2012-13**

**Table 1: Local authority capital expenditure and receipts: England: 2008-09 to 2012-13**

	2008-09	2009-10	2010-11	2011-12	£ million 2012-13
<b>Expenditure:</b>					
Acquisition of land and existing buildings and works	1,511	1,301	1,043	721	823
New construction and conversion	13,390	14,551	14,777	13,300	11,494

Grants, loans and other financial assistance	3,172	3,574	5,148	4,166 <sup>(b)</sup>	4,002 <sup>(e)</sup>
Acquisition of share and loan capital	36	143	454	198	1,225 <sup>(f)</sup>
<b>Total capital expenditure</b>	<b>19,801</b>	<b>21,362</b>	<b>23,146</b>	<b>20,032</b>	<b>18,931</b>
<i>of which GLA:</i>	2,299	3,156	4,969 <sup>(c)</sup>	3,431	4,120
Expenditure by virtue of a section 16(2)(b) direction <sup>(a)</sup>	432	464	239	263	111
Notional capital receipts set aside and Large Scale Voluntary Transfer levy	0	0	0	16	0
One-off HRA self-financing determination payment:				13,295 <sup>(d)</sup>	
<b>Total expenditure and other transactions</b>	<b>20,233</b>	<b>21,826</b>	<b>23,385</b>	<b>33,606</b>	<b>19,042</b>
<b>Total expenditure excl HRA self-financing determination payment</b>				<b>20,311</b>	
<b>Receipts</b>	<b>1,353</b>	<b>1,427</b>	<b>1,498</b>	<b>8,724</b>	<b>2,125</b>
<b>Receipts excl HRA self-financing determination &amp; premium</b>				<b>2,014</b>	
One-off HRA self-financing determination & premium:				6,711 <sup>(d)</sup>	

(a) Expenditure which does not fall within the definition of expenditure for capital purposes, but is treated as capital expenditure by a direction under section 16(2)(b) of the Local Government Act 2003.

(b) Greater London Authority's (GLA's) grants and loans total £2.9 billion, including GLA's £1 billion contribution to Crossrail.

(c) Reflects a one-off loan within the Transport for London Group of £1.6bn to London Underground financed by an equivalent loan from Tube lines.

(d) Local authorities subject to the transactions associated with the HRA Self-financing Determinations are required to include the determination in relation to expenditure or receipts and also the financing if applicable. This is a one-off exercise for 2011-12 and figures are provided both inclusive and exclusive of this transaction.

(e) This reflects reallocation of expenditure by TfL as part of year end process of reconciling funding to its subsidiaries.

(f) The reason for a significant increase in acquisition of share or loan capital is the higher levels of spend now being witnessed on the Crossrail project, as construction is fully underway

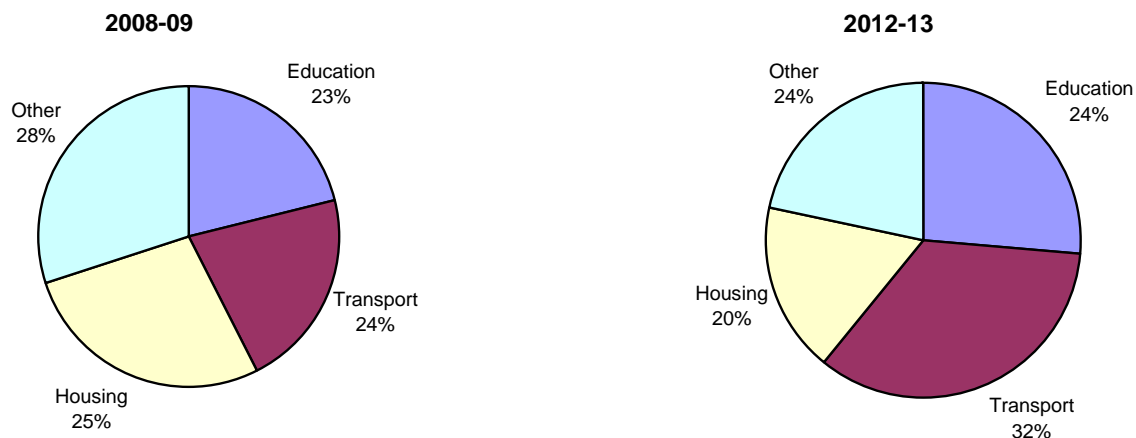

## 2. Capital Expenditure by Service

**Chart B** and **Table 2** below illustrate the change in the pattern of expenditure for the major services between 2008-09 and 2012-13.

### Pattern of Expenditure

- In 2012-13 capital expenditure on planning and development services, and fire and rescue increased by 35% and 26% respectively, whilst housing increased by 14%.
- However, there has been a decrease in capital expenditure in the same year of about 18% each in education (which excludes expenditure related to academies) and social services, and of around 8% in highways and transport, and of 7% in police.
- Expenditure on central services increased from £1.2 billion in 2011-12 to £1.3 billion in 2012-13, a rise of 9%, whilst environmental services increased by 8% in the same period.
- Culture and related services fell by 20%, whilst trading services fell by 44%.

**Chart B: Capital expenditure in 2008-09 and 2012-13 by service**

Other includes social services, culture & related services, environmental services, planning & development, police, fire & rescue, central services and trading services

**Table 2: Local authority capital expenditure by service: England: 2008-09 to 2012-13**

	2008-09		2009-10	2010-11	2011-12	£ million 2012-13
Education	4,542		5,392	6,107	5,495	4,528
Highways & transport	4,735		5,851	7,943	6,574	6,046
<i>of which GLA</i>	1,564		2,699	4,520	3,137	3,016
Social services	300		288	312	253	207

Trading services	28	122	24	3	177
<b>TOTAL</b>	<b>823</b>	<b>11,494</b>	<b>1,210</b>	<b>178</b>	<b>13,705</b>

**Table 3b : Local authority capital expenditure by economic category and service: England 2012-13: Final outturn**

	£ million				
	Total expenditure on fixed & intangible assets	Grants	Loans & other financial assistance	Acquisition of share & loan capital	Total capital expenditure
Education	4,072	424	25	8	4,528
Highways & transport	2,844	1,329	662	1,211 <sup>(a)</sup>	6,046
Social services	177	29	0	0	207
Housing	2,649	1,036	46	0	3,731
Culture & related services	829	45	2	0	877
Environmental services	479	19	28	0	526
Planning & development services	646	212	17	4	879
Police	500	0	0	0	500
Fire & rescue	171	1	0	0	172
Central services	1,160	32	71	1	1,264
Trading services	177	5	18	1	201
<b>TOTAL</b>	<b>13,705</b>	<b>3,133</b>	<b>869</b>	<b>1,225</b>	<b>18,931</b>

(a) Significant increase in acquisition of share and loan capital is due to the higher levels of spend now being witnessed on the Crossrail project, as construction is fully underway

Table 4 gives a summary of capital receipts by economic category and service.

**Table 4: Local authority capital receipts by economic category: England 2012-13: Final outturn**

	£ million				
	Sales of fixed assets	Sales of intangible assets	Repayments of grants, loans & financial assistance	Disposals of investments inc. share & loan capital	Total capital receipts
Education	265	0	9	0	274 <sup>(a)</sup>
Highways & transport	34	2	2	1	39
Social services	76	0	1	0	78
Housing	730	4	27	0	761
Culture & related services	60	0	2	0	62
Environmental services	51	0	2	2	56
Planning & development services	123	0	12	0	135
Police	116	0	1	0	117
Fire & rescue	10	0	0	0	10
Central services	378	2	8	3	391
Trading services	189	0	12	0	201
<b>TOTAL</b>	<b>2,033</b>	<b>9</b>	<b>76</b>	<b>7</b>	<b>2,125</b>

(a) A significant increase in 2012-13 from 2011-12 is mainly due to a one off receipt for £120M for an old education site - North Westminster College

### 3. Financing of Capital Expenditure in 2012-13

**Table 5** provides a breakdown of the financing of expenditure from 2008-09 to 2012-13.

- The financing of capital expenditure through central government grants increased from £7.2 billion in 2011-12 to £8.5 billion in 2012-13, a year-on-year increase of 18%. This is mainly due to a change in the treatment of expenditure by GLA for 2011-12 only. Without this change in the treatment of expenditure the financing through central government grants remains virtually flat.
- Between 2008-09 and 2012-13 the financing of capital expenditure through central government grants increased by 48%, 35% in real terms.
- The ten local authorities that have reported the highest amounts of financing by borrowing in 2012-13 together account for 51% of the England total. Local authority borrowing in 2012-13 has reduced by almost 8% from around £5.1 billion in 2011-12 (exclusive of financing of the HRA self-financing determination payment) to £4.7 billion in 2012-13.
- The revenue financing of capital expenditure has fallen from some £4.5 billion in 2011-12 to £3.2 billion in 2012-13, a year-on-year decrease of 30%, although this figure is reduced once the change in treatment of expenditure by GLA in the earlier year is excluded.
- The use of capital receipts to finance local authority capital expenditure has reduced by 21% between 2011-12 and 2012-13. This was partly due to some authorities transferring their housing stock in 2011-12 and funding their associated levies from capital receipts.

**Table 5: Financing of local authority capital expenditure: England: 2008-09 to 2012-13**

						£ million
	2008-09	2009-10	2010-11	2011-12		2012-13
Central government grants	5,733	7,494	8,063	7,170	(f)	8,481
EU structural funds grants	156	43	38	77		55
Grants and contributions from private developers and from leaseholders etc	1,176	(a) 502	634	747		693
Grants and contributions from NDPBs (b)	540	602	753	522		442
National lottery grants	106	119	104	121		67
Use of capital receipts	2,040	1,603	1,409	1,647		1,294
Revenue financing of capital expenditure	3,241	3,532	3,984	4,504	(f)	3,167
<i>of which:</i>						
<i>Housing Revenue Account (CERA)</i>	228	247	235	324		466
<i>Major Repairs Reserve</i>	1,224	1,377	1,069	1,160		1,259
<i>General Fund (CERA)</i>	1,789	1,908	2,680	3,020		1,442
Capital expenditure financed by borrowing/credit	7,241	7,931	8,399	18,819		4,842
<i>of which:</i>						
SCE(R) Single Capital Pot(c)	2,257	2,181	1,581	338		88
SCE(R) Separate Programme Element(c)	760	748	484	74		30
Other borrowing & credit arrangements not supported by central government (d)	4,224	5,002	6,335	18,406	(e)	4,724
<b>Total</b>	<b>20,233</b>	<b>21,826</b>	<b>23,385</b>	<b>33,606</b>	(e)	<b>19,042</b>

(a) Includes RSL financing of £483 million for the transfer of Salford's housing stock.

(b) Non-Departmental Public Bodies, organisations that are not government departments but which have a role in the processes of national government, such as Sport England, English Heritage and the Natural England.

(c) Supported capital expenditure (SCE) financed by borrowing that is attracting central government support has been discontinued as of March 31 2011. This may have a bearing on the financing of capital expenditure. A residue of schemes in 2011-12 and 2012-13 will continue to be financed in reliance of supported borrowing from earlier years.

(d) The Prudential System, which came into effect on 1 April 2004, allows local authorities to raise finance for capital expenditure - without Government consent - where they can afford to service the debt without extra Government support.

(e) It is estimated that approximately £13 billion is associated with the financing of the HRA self-financing determination payment.

(f) There is a discontinuity from 2010-11 owing to a change in the treatment of expenditure by GLA. Previously this was recorded as 'Central government grant' but for 2011-12 it has been recorded as CERA to align with figures received on the Revenue Outturn

## 4. Information on Prudential System: 2012-13

**Table 6** shows final outturn information about the prudential system in 2012-13.

The Prudential Code for Capital Finance in Local Authorities was developed by the Chartered Institute of Public Finance and Accountancy (CIPFA) as a professional code of practice to support local authorities in taking their decisions. Its key objectives are to ensure that the capital investment plans of local authorities are affordable, prudent and sustainable. As part of this framework the Prudential Code sets out the indicators that must be used.

These indicators include forecasts of, and actual figures for:

- capital expenditure
- capital financing requirement – a measure that reflects an authority's underlying need to borrow
- external debt – gross borrowing and other long-term liabilities
- operational boundary for external debt – the maximum level of external debt projected based on the authority's most likely, i.e. prudent, but not worst case scenario
- authorised limit for external debt – the intended absolute limit that has to be set by the full Council

- At the end of 2008-09, the fifth year of the Prudential System, local authority external debt stood at £55.1 billion. At the end of 2012-13, local authority external debt stood at £83.3 billion, an increase of 51%.
- At the end of 2008-09, the England total for operational boundaries was £66.5 billion, and that for authorised limits was £75.3 billion. At the end of 2012-13, the England totals for operational boundaries and authorised limits stood at nearly £100.4 billion and £112.5 billion respectively, increases of 51% and 49% respectively.
- At the end of 2008-09, local authority external debt was below the operational boundaries and authorised limits by margins of £11.3 billion and £20.1 billion respectively. At the end of 2012-13, local authority external debt was below the operational boundaries and authorised limits by margins of £17.1 billion and £29.2 billion respectively, amounting to the margins widening by 52% and nearly 45% respectively.

**Table 6 - Local authority capital expenditure : prudential information : England 2012-13 : final outturn**

	£ million		
	as at 1 April 2012	in 2012-13	as at 31 March 2013
<b>Capital Financing Requirement as at 1 April 2012</b>	<b>91,344</b>		
Capital expenditure to be resourced by means of credit (+)		6,146	
Minimum Revenue Provision (-)		2,345	
Additional contribution from revenue (-)		292	
Contribution from Major Repairs Reserve (-)		37	
Use of receipts (-) <sup>(a)</sup>		224	
<b>Change in Capital Financing Requirement</b>		<b>3,248</b>	
<b>Capital Financing Requirement as at 31 March 2013</b>			<b>94,592</b>
Gross borrowing	70,871		72,269
Other long-term liabilities	10,285		10,995
<b>Total external debt</b>	<b>81,156</b>		<b>83,264</b>
Operational boundary for external debt	99,980		100,412
Authorised limit for external debt	112,124		112,497
Investments	25,300		28,941

(a) Any capital receipts used to repay principal of any amount borrowed or to meet any liability in respect of credit arrangements, as authorised in Regulation 23(b) and 23(d). Unlike the corresponding line in Annex D, excludes receipts used under Regulation 23(c) to repay premiums charged in relation to amounts borrowed.

**Table 7** shows local authority net debt at the close of each financial year from 2008-09 to 2012-13. The net debt figures are derived from the sum of local authority gross borrowing and other long-term liabilities less the value of local authority investments at the end of the financial year.

**Table 7: Local authority net debt as at 31 March: England: 2008-09 to 2012-13**

	2008-09	2009-10	2010-11	2011-12 <sup>(c)</sup>	£ million 2012-13
<b>Net debt: all authorities</b>	<b>29,926</b>	<b>38,501</b>	<b>45,021</b>	<b>53,719</b>	<b>54,323</b>
<b>Net debt: GLA and single-purpose authorities <sup>(b)</sup></b>	<b>2,365</b>	<b>5,318</b>	<b>7,815</b>	<b>7,349</b>	<b>8,000</b>
<i>of which:</i>					
GLA	1,477	4,004	6,204	5,443	6,177
Fire and rescue	320	392	387	309	965
Police	-361	-179	67	80	803
<b>Net debt: unitaries, upper tier, lower tier authorities</b>	<b>27,561</b>	<b>33,183</b>	<b>37,205</b>	<b>46,370</b>	<b>46,323</b>
<i>of which:</i>					
London Boroughs	4,624	5,932	6,806	5,750	3,982
Metropolitan Districts	13,245	14,869	16,088	16,413	16,682
Shire Counties	7,643	7,664 <sup>(a)</sup>	8,251	8,151	8,891
Shire Districts	-2,277	-1,347 <sup>(a)</sup>	-1,312	5,672	6,203
Unitaries	4,326	6,064 <sup>(a)</sup>	7,372	10,384	10,565

(a) Figures are not comparable between 2008-09 and 2009-10 owing to local authority reorganisation on 1 April 2009.

(b) Single purpose authorities include fire and rescue, national park, police, transport and waste authorities. This also includes Greater Manchester Combined Authority, which took over Greater Manchester Integrated Transport as of 1 April 2011.

(c) The HRA self-financing determination payments have had a particular impact on shire districts and this partly explains the large increase in net debt for this category of authorities in 2011-12

## 5. Self-financed borrowing: 2008-09 to 2012-13

**Table 8** shows a time series of local authority self-financed borrowing from 2008-09 to 2012-13 by England totals and local authority class totals. The percentage of shire districts using self-financed borrowing has decreased from 60 per cent in 2011-12 to 49 per cent in 2012-13. Accordingly, the amount of expenditure financed in shire districts has decreased from £7,728 million to £233 million between 2011-12 and 2012-13.

<b>Table 8: Prudential system: self-financed borrowing by class of authority: 2008-09 to 2012-13</b>																			
	Percentage of authorities using self-financed borrowing					Amount of expenditure financed						Average amount per authority using self-financed borrowing							
	%					£ million						£ million

(a) Other includes police, fire, parks and waste authorities.																			
(b) In 2009-10 Unitary authorities have increased from 47 to 55 while Shire counties and Shire districts have decreased from 34 and 238 to 27 and 201 respectively due to local authority reorganisation.																			
(c) It is estimated that approximately £13 billion is associated with the financing of the HRA self-financing determination payment.																			

## 6. Detailed Capital Expenditure and Receipts

Annex A (1) (2) and (3) provide full details on capital expenditure and receipts as collected on the Capital Outturn forms. These tables do not include acquisitions and disposals of share and loan capital, since these are not collected at this level of detail.

## Annex A (1): Capital expenditure on fixed assets: all services: England 2012-13: Final outturn

						£ thousand
	Acquisition of land & existing buildings (1)	New construction conversion & renovation (2)	Vehicles (3)	Plant machinery & equipment (4)	Intangible assets (5)	Total expenditure on fixed & intangible assets (6) (1+2+3+4+5)

(b) Total spend on social services can be calculated by adding columns 1 and 3

**Annex D** gives a breakdown of the total opening and closing stock of capital receipts held by local authorities in England and in-year changes in 2012-13.

- The stock of capital receipts held by local authorities at 31 March 2013 was £0.4m higher (about 19%) than the stock figure at the beginning of the financial year on 1 April 2012.

<b>Annex D: Capital receipts in 2012-13</b>	
	<b>£ million</b>
Accumulated capital receipts as at 1 April 2012	2,247
In-year capital receipts 2012-13	2,124
Receipts used to meet expenditure for capital purposes	1,294
Receipts used as provision to repay debt or meet liabilities <sup>(a)</sup>	283
Pooling of housing capital receipts	112
Interest on late pooling payments	0
Accumulated capital receipts as at 31 March 2013	2,678

(a) Any capital receipts used to repay principal of any amount borrowed or to meet any liability in respect of credit arrangements, as authorised in Regulation 23(b) and 23(d). Unlike the corresponding line in Table 6, includes receipts used under Regulation 23(c) to repay premiums charged in relation to amounts borrowed.

**Annex E (1)** gives a breakdown of the total stock of fixed assets held by local authorities in England at 31 March 2013 and **Annex E (2)** gives a time series and selected class breakdown of the total stock of fixed assets between 2008-09 and 2012-13.

<b>Annex E(1): Value of fixed assets<sup>(a)</sup>: 31 March 2013</b>	
	<b>£ million</b>
<b>Operational assets:</b>	
(i) Council Dwellings	62,427
(ii) Other Land and Buildings - Education	47,873
(iii) Other Land and Buildings - Other	47,650
(iv) Vehicles, Plant and Equipment	5,242
(v) Infrastructure Assets	32,557
(vi) Community Assets	1,666
(vii) Surplus Assets	2,510
(viii) Assets under construction	5,725
<b>Total operational assets</b>	<b>205,650</b>
<b>Non operational:</b>	
Investment Properties	9,725
<b>Total value of tangible assets</b>	<b>215,375</b>
Intangible assets	539
Assets for sale	781
Heritage assets	3,482
<b>Total value of fixed assets</b>	<b>220,177</b>

(a) Infrastructure assets and community assets are included in the balance sheet at historical cost, net of depreciation. Other assets are included in the balance sheet at the lower of the net current replacement cost or net realisable value.

**Annex E (2): Local authority assets as at 31 March: England: 2008-09 to 2012-13**

<b>Total assets: unitaries, upper tier, lower authorities</b>	<b>232,436</b>	<b>238,501</b>	<b>219,509</b>	<b>220,967</b>	<b>207,397</b>
<i>of which:</i>					
London Boroughs	52,867	56,055	48,903	47,118	48,140
Metropolitan Districts	50,831	51,843	47,520	53,935	42,718
Shire Counties	48,578	42,758 <sup>(a)</sup>	43,730	41,915	39,540
Shire Districts	41,450	37,196 <sup>(a)</sup>	32,499	31,471	32,010
Unitaries	38,709	50,649 <sup>(a)</sup>	46,857	46,529	44,989

(a) Figures are not comparable between 2008-09 and 2009-10 owing to local authority reorganisation on 1 April 2009.

(b) Single purpose authorities include fire and rescue, national park, police, transport and waste authorities. This also includes Greater Manchester Combined Authority, which took over Greater Manchester Integrated Transport as of 1 April 2011.

**Annex F** gives a breakdown by type, of current expenditure that local authorities were allowed to finance from capital resources – capitalise – under section 16(2)(b) of the Local Government Act 2003.

- Capitalised expenditure saw a significant increase from £239 million in 2010-11 to nearly £263 million in 2011-12 due to the demand for capitalisation in respect of equal pay directions in 2011-12. In 2012-13, however, only two local authorities claimed equal pay directions. Similarly Redundancy and Pensions scheme contributions have not been claimed in 2012-13 due to there being no identified funding for these schemes and therefore no process for capitalisation for these non-equal pay categories..

**Annex F: Capitalised current expenditure by type: England: 2008-09 to 2012-13**

	2008-09	2009-10	2010-11	2011-12	£ thousand 2012-13
Redundancy Costs	19,041	25,396	73,815	87,605	0
Pension Scheme Contributions	21,941	19,746	41,139	6794	0
Equal Pay Directions	375,160	337,215	107,273	141,683	111,087
Other <sup>(a)</sup>	15,699	82,110	16,557	26,454	4
<b>Total</b>	<b>431,841</b>	<b>464,467</b>	<b>238,784</b>	<b>262,536</b>	<b>111,091</b>

(a) Amounts covered by directions classed as "exceptional", contaminated land and commutation, which are not recorded separately

## 7. Terminology used in the release

A list of terms relating to local government finance is given in the glossary at Annex G of *Local Government Finance Statistics England* No. 23 2013. This is accessible at.

<https://www.gov.uk/government/publications/local-government-financial-statistics-england-2013> The most relevant terms for this release are explained below.

**Capital expenditure** – expenditure on the acquisition of fixed assets or expenditure, which adds to and does not merely maintain the value of existing fixed assets.

**Capital receipts** – income from the sale of capital assets. Such income may only be used to repay loan debt or to finance new capital expenditure.

**Capitalised current expenditure** – expenditure which would normally score as current expenditure but which a local authority has been allowed to capitalise, with the permission of the Secretary of State (e.g. redundancy payments).

**Capital expenditure charged to revenue account (CERA)** – a method of financing capital expenditure where the expenditure is financed direct from revenue account in the year it is incurred

**Credit arrangements** – forms of credit that do not involve the borrowing of money by a local authority. For example leases of land (including buildings) or other property and contracts which provide for external credit (in the sense that there is more than a full financial year gap between the giving of value to the authority and the payment for that value).

**Greater London Authority (GLA)** – this includes GLA and its constituent bodies, the Mayor's Office for Policing, London Fire and Emergency Planning Authority, Transport for London (TfL) and London Legacy Development Corporation (LLDC). Capital expenditure and receipts are reported by the GLA and the four functional bodies as a group and individually.

**Minimum Revenue Provision** – the minimum amount which must be charged to a revenue account each year and set aside as provision for repaying external loans and meeting other credit liabilities

**Prudential capital finance system** – this is the informal name for the system introduced on 1 April 2004 by Part 1 of the Local Government Act 2003. It allows local authorities to borrow without Government consent, provided that they can afford to service the debt from their own resources.

**The Prudential Code** – a professional code of practice prepared by the CIPFA, for the prudential system introduced on 1 April 2004. Local authorities are required by legislation to have regard to the code.

**Supported Capital Expenditure** – the term for most forms of central government support for local authority capital expenditure from 1 April 2004. Supported Capital Expenditure (Revenue) – SCE(R) – is the amount of expenditure towards which revenue support grant will be paid to a local authority on the cost of its borrowing. The revenue grant support is provided to help authorities with the costs of financing loans. This form of financial support will be discontinued from 2011-12 so only expenditure financed from borrowing undertaken in previous years will be recorded after 2011-12.

# 8. Technical Notes

## Data quality

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

meet identified user needs;

are well explained and readily accessible;

are produced according to sound methods, and

are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

The information for 2012-13 in this release is derived from Capital Outturn Returns (COR) submitted to the Department for Communities and Local Government by all 444 local authorities in England that complete the return. Further validation may lead to revision when final outturn figures are published later in the year.

Adjustments have been made to avoid double counting the GLA grants to other London authorities

Only data for authorities that have completed a valid form is used in the computation of national figures for the statistical release. If we do not hold a complete set of capital data for authorities in England, we use the grossing methodology to compute the national figures. This method does not calculate figures for missing or invalid authorities; it only derives an England national figure based on the following properties;

- i. data currently held from validated authorities
- ii. number of missing or invalid authorities and what type of classification group they fit in (e.g. Single Purpose Authorities, Shire Districts, Shire Counties, Unitary Authorities, Metropolitan Districts, London Boroughs etc.)

As we usually receive valid data from all authorities in England there has not been a need to use this grossing methodology.

Figures are subjected to rigorous pre-defined validation tests both within the forms themselves, while the forms are being completed by the authority and also in Communities and Local

Government itself as the data are received and stored. These include:

- 1) **In form validation:** This refers to warnings that are built into the excel forms that are sent to authorities. Forms have been pre-programmed with sense checks to highlight figures outside a set range,. If an authority inputs figures that are likely to be incorrect, the form flags up to the officer inputting the data that this value could be incorrect. In some fields the figure can still be accepted if a reason is given whereas some cells will definitely be rejected as it is deemed impossible. In the majority of cases this means that the forms are returned completed and without any validation queries.
- 2) **CLASS (Computerised Local Authority Statistics System) validation:** Once the figures have been received by DCLG, they get inputted onto the CLASS database, which has built in checks that return errors and warnings for unexpected figures. CLASS can then be asked to output a list of warnings and errors which a team member can look through and contact an authority about if necessary.
- 3) **Manual (or analytical) validation:** These are extra checks done manually by the teams to double check the figures they receive. During this process the teams also liaise with relevant policy sections and the Group Accountant to clarify and rectify any anomalies. Furthermore the data received from LAs are compared with other data sources (both internal and external).
- 4) **Post validation:** Figures get checked and double-checked on the statistical releases. Particular attention is paid to making sure the values have been entered correctly and the figures on the graphs and tables correlate with each other.

Service Reporting Code of Practice (SeRCOP) is a set of general guidance notes which are provided to local authorities, providing them with instructions on how to account on various elements of public service expenditure. The services are primarily broken down into a few main groups (e.g. Children and Family Services, Housing Services, Central services). Within each group, detailed guidance is provided on all possible elements of spending, which a Local Authority (LA) could have responsibility over. The SeRCOP is used by all LAs as a foundation for constructing their accounts in the financial year. Therefore the categorisation defined by SeRCOP is used as a basis for our form design and guidance, enabling LA to report their financial data under the correct headings – improving quality of the outputs. In-depth discussions take place with several authorities, prior to them being put forward to Central and Local Government Information Partnership/Finance (CLIP/F) for agreement, as part of our ongoing review of enhanced data collection. CLIP/F is also kept informed of the full planned developments to meet the HM Treasury and ONS requirements

For a summary of SERCOP please see the following web link including information on legislative requirements:

<http://www.cipfastats.net/sercop/>

Finally, the release document, once prepared, is also subject to intensive peer review before being cleared as fit for the purposes of publication.

## Uses made of the data

The data in this Statistical Release are important for a number of different purposes. They are used to provide ministers in CLG, HM Treasury and the Office for National Statistics (ONS) with the most up to date information available on local authority capital spending and how they are financed. The ONS use the information for National Accounts and public sector finances for which the service breakdown is used. In particular, the data are often provided to HM Treasury to inform the Chancellor's Pre-Budget Report or for government spending reviews.

The data are also important sources for various evidence based policy and financial decisions and answering numerous parliamentary questions. In addition it is used by local authorities and their associations, regional bodies, other government departments, members of the business community and the general public.

Audit Commission uses the data in their report on "Protecting the Public Purse". Information from this release such as capital receipts and self-financed borrowing are used by policy colleagues.

Comments and feedback from end users for further improvement or about your experiences with this product will be welcomed. Please send all views to: [capital.receipts@communities.gsi.gov.uk](mailto:capital.receipts@communities.gsi.gov.uk)

## Symbols and conventions

...	= not available
0	= zero or negligible
-	= not relevant
	= discontinuity
2P	= 2nd Provisional

### Rounding

Where figures have been rounded, there may be a slight discrepancy between the total and the sum of constituent parts.

## Revisions policy

This policy has been developed in accordance with the UK Statistics Authority Code of Practice for Official statistics and the Department for Communities and Local Government Revisions Policy (found at <https://www.gov.uk/government/publications/statistical-notice-dclg-revisions-policy>). There are two types of revisions that the policy covers:

### Non-Scheduled Revisions

Where a substantial error has occurred as a result of the compilation, imputation or dissemination process, the statistical release, live tables and other accompanying releases will be updated with a correction notice as soon as is practical.

### Scheduled Revisions

At time of publication there are no scheduled revisions for this series.

## Background notes

This Statistical Release can be found at the following web address:

<https://www.gov.uk/government/organisations/department-for-communities-and-local-government/about/statistics#statistical-series>

The Live Table can be found at the following web address:

<https://www.gov.uk/government/statistical-data-sets/live-tables-on-local-government-finance>

Timings of future releases are regularly placed on the Department's website,

<https://www.gov.uk/government/organisations/department-for-communities-and-local-government/about/statistics#forthcoming-publications> and on the National Statistics website, <http://www.statistics.gov.uk/releasecalendar/currentreleases.asp>

For a fuller picture of recent trends in local government finance, readers are directed to *Local Government Finance Statistics England* No. 23 2013, which is available in hard copy from Communities and Local Government Publications, Cambertown House at [product@communities.gsi.gov.uk](mailto:product@communities.gsi.gov.uk) (Tel. 0300 123 1124) and electronically from the Communities and Local Government website:

<https://www.gov.uk/government/publications/local-government-financial-statistics-england-2013>

The CIPFA *Finance and General Statistics* publication also contains detailed information on local government finance.

Please see the web link below for access to the papers tabled to the 'Central and Local Information Partnership – Finance' (CLIP-F) group,

<http://www.clip.local.gov.uk/lgv/core/page.do?pageId=31626>

CLIP Finance (CLIP F) is a consultative group which considers the collection, presentation and analysis of data on local government finance. It has been in existence since 2006, prior to this the group was known as Working Group on Local Government Financial Statistics (WGLGFS). The membership consists of representatives from central government departments, local government, CIPFA and the Audit Commission, and generally meets three times a year. To ensure users are made aware of significant changes and adjustments to Local Government Finance forms papers are tabled, discussed and published. Please visit the website for details of likely changes for future Revenue/Capital statistical releases.

## User engagement

Users are encouraged to provide feedback on how these statistics are used and how well they meet user needs. Comments on any issues relating to this statistical release are welcomed and encouraged. Responses should be addressed to the "Public enquiries" contact given in the "Enquiries" section below.

The Department's engagement strategy to meet the needs of statistics users is published here:

<https://www.gov.uk/government/publications/engagement-strategy-to-meet-the-needs-of-statistics-users>

## Devolved administration statistics

The statistics in this Release are for England only. Statistics for Wales and Scotland can be found at [wales.gov.uk/topics/statistics/theme/loc-gov/?lang=en](http://wales.gov.uk/topics/statistics/theme/loc-gov/?lang=en) and [www.scotland.gov.uk/topics/statistics/browse/local-government-finance](http://www.scotland.gov.uk/topics/statistics/browse/local-government-finance) respectively.

## 9. Enquiries

### Media enquiries:
