

Exercise

In pairs discuss the following:

Have you ever been worried about a child in your personal or professional communities that was not already known to agencies?

- Can you describe why you were worried?
- Did you do anything about it?
- If not, why do you think that was?
- Were you worried about what might happen to the child?
- If you did do something, what did you do and why?
- Would you do anything different in the future?

Would it be helpful to have support which:

- helps you to consider what you need to know about a child or young person who may be experiencing neglect
- helps you think through how you need to be
- helps you consider what you need to do with children and young people who may be experiencing neglect?

Return to the large group for a wider discussion about the issues.
