

By virtue of regulation 4 the prices of some presentations of relevant medicines are not to be reduced. This exemption arises either because the price of the presentation or NHS expenditure on that presentation falls below a specified sum. This is a list of presentations of NHS medicines which meet neither condition. All other things being equal, prescription-only medicines on this list which were on sale for health service purposes in England on 1st December 2008 would have a reduced price under these regulations. This list will be reviewed periodically to take account of changes in reimbursement costs.

January 2013
