OITO Assessment	GREEN	
<p>Overall comments on the robustness of the OITO assessment.</p> <p>The IA says that the proposal is a regulatory measure (an IN) with an estimated EANCB of £0.02m, which appears to be a reasonable assessment of the policy and consistent with OITO methodology.</p>		
<p>Overall quality of the analysis and evidence presented in the IA</p> <p>The IA explains clearly the proposed costs to business of consolidating and clarifying the consumer law on unfair contract terms; specifically, the costs from familiarisation of changes to the law, revision of terms and conditions, and legal advice. The IA should provide a detailed explanation of how this measure relates to other proposals being implemented under the Consumer Rights Directive.</p>
