OF THE OTHER PART¹**

THE KINGDOM OF BELGIUM,
THE KINGDOM OF DENMARK,
THE FEDERAL REPUBLIC OF GERMANY,
THE HELLENIC REPUBLIC,
THE KINGDOM OF SPAIN,

THE KINGDOM OF SWEDEN,
THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND,

Contracting Parties to the Treaty establishing the European Community², hereinafter referred to as the "Member States", and

THE EUROPEAN COMMUNITY, hereinafter referred to as "the Community",
of the one part, and

THE PEOPLE'S DEMOCRATIC REPUBLIC OF ALGERIA hereinafter referred to as
"Algeria",
of the other part,

CONSIDERING the proximity and interdependence which historic links and common values have established between the Community, its Member States and Algeria;

CONSIDERING that the Community, its Member States and Algeria wish to strengthen those links and to establish lasting relations, based on reciprocity, solidarity, partnership and co-development;

CONSIDERING the importance which the Parties attach to the principles of the United Nations Charter, particularly the observance of human rights and political and economic freedom, which form the very basis of the Association;

CONSCIOUS, on the one hand, of the importance of relations in an overall Euro-Mediterranean context and, on the other, of the objective of integration between the countries of the Maghreb;

¹European Communities No. 3 (2003) Cm 5804.

²Treaty Series No. 47 (1988) Cm 0455.

DESIROUS of fully achieving the objectives of the association between them by implementing the relevant provisions of this Agreement to bring the levels of economic and social development of the Community and Algeria closer to each other;

CONSCIOUS of the importance of this Agreement, which is based on reciprocity of interests, mutual concessions, cooperation and dialogue;

DESIROUS of establishing and developing political consultation on bilateral and international issues of mutual interest;

CONSCIOUS that terrorism and international organised crime represent a threat to the fulfilment of the objectives of the partnership and to stability in the region;

TAKING ACCOUNT of the Community's willingness to provide Algeria with decisive support in its endeavours to bring about economic reform and adjustment and social development;

CONSIDERING the commitment of both the Community and Algeria to free trade, in compliance with the rights and obligations arising out of the General Agreement on Tariffs and Trade (GATT) in its post-Uruguay Round form;

DESIROUS of establishing cooperation sustained by regular dialogue on economic, scientific, technological, social, cultural, audio-visual and environmental issues in order to achieve better mutual understanding;

CONFIRMING that the provisions of this Agreement that fall within the scope of Part III, Title IV of the Treaty establishing the European Community bind the United Kingdom and Ireland as separate Contracting Parties, and not as Member States of the Community, until the United Kingdom or Ireland (as the case may be) notifies Algeria that it has become bound as part of the Community in accordance with the Protocol on the position of the United Kingdom and Ireland annexed to the Treaty on European Union and the Treaty establishing the European Community. The same applies to Denmark, in accordance with the Protocol on the position of Denmark;

CONVINCED that this Agreement provides a suitable framework for the development of a partnership based on private initiative, and that it will create a climate conducive to economic, trade and investment relations between the Parties, a consideration which offers vital backing for economic restructuring and technological modernisation,

HAVE AGREED AS FOLLOWS:

ARTICLE 1

1. An Association is hereby established between the Community and its Member States of the one part and Algeria of the other part.
2. The aims of this Agreement are to:
 - provide an appropriate framework for political dialogue between the Parties, allowing the development of close relations and cooperation in all areas they consider relevant to such dialogue;
 - promote trade and the expansion of harmonious economic and social relations between the Parties and establish the conditions for the gradual liberalisation of trade in goods, services and capital;

1. A regular political and security dialogue shall be established between the Parties. It shall help build lasting links of solidarity between the partners which will contribute to the prosperity, stability and security of the Mediterranean region and bring about a climate of understanding and tolerance between cultures.
2. Political dialogue and cooperation are intended in particular to:
 - (a) facilitate rapprochement between the Parties through the development of better mutual understanding and regular coordination on international issues of common interest;

 - (d) help develop joint initiatives.

ARTICLE 4

Political dialogue shall cover all issues of common interest to the Parties, in particular the conditions required to ensure peace, security and regional development through support for cooperation.

ARTICLE 5

- (a) at ministerial level, mainly in the framework of the Association Council;
- (b) at the level of senior officials representing Algeria, on the one hand, and the Council Presidency and the Commission on the other;
- (c) taking full advantage of all diplomatic channels including regular briefings, consultations on the occasion of international meetings and contacts between diplomatic representatives in third countries;

TITLE II

FREE MOVEMENT OF GOODS

ARTICLE 6

The Community and Algeria shall gradually establish a free-trade area over a transitional period lasting a maximum of twelve years starting from the date of the entry into force of this Agreement in accordance with the following provisions and in conformity with those

of the 1994 General Agreement on Tariffs and Trade and the other multilateral agreements on trade in goods annexed to the Agreement establishing the World Trade Organisation (WTO), hereinafter referred to as "GATT"¹.

CHAPTER I

ARTICLE 7

The provisions of this Chapter shall apply to products originating in the Community and Algeria falling within Chapters 25 to 97 of the Combined Nomenclature and of the Algerian Customs tariff with the exception of the products listed in Annex 1.

ARTICLE 8

Products originating in Algeria shall be imported into the Community free of customs duties and charges having equivalent effect.

ARTICLE 9

1. Customs duties and charges having equivalent effect applicable on import into Algeria of products originating in the Community listed in Annex 2 shall be abolished upon the entry into force of this Agreement.

2. Customs duties and charges having equivalent effect applicable on import into Algeria of the products originating in the Community listed in Annex 3 shall be progressively abolished in accordance with the following timetable:

- two years after the date of entry into force of this Agreement each duty and charge shall be reduced to 80% of the basic duty;
- three years after the date of entry into force of this Agreement each duty and charge shall be reduced to 70% of the basic duty;
- four years after the date of entry into force of this Agreement each duty and charge shall be reduced to 60% of the basic duty;
- five years after the date of entry into force of this Agreement each duty and charge shall be reduced to 40% of the basic duty;
- six years after the date of entry into force of this Agreement each duty and charge shall be reduced to 20% of the basic duty;
- seven years after the date of entry into force of this Agreement the remaining duties shall be abolished.

3. Customs duties and charges having equivalent effect applicable on import into Algeria of the products originating in the Community other than those listed in Annexes 2 and 3 shall be progressively abolished in accordance with the following timetable:

- two years after the date of entry into force of this Agreement each duty and charge shall be reduced to 90% of the basic duty;
- three years after the date of entry into force of this Agreement each duty and charge shall be reduced to 80% of the basic duty;

¹Treaty Series No. 57 (1996) Cm 3277.

- six years after the date of entry into force of this Agreement each duty and charge shall be reduced to 50% of the basic duty;
- seven years after the date of entry into force of this Agreement each duty and charge shall be reduced to 40% of the basic duty;
- eight years after the date of entry into force of this Agreement each duty and charge shall be reduced to 30% of the basic duty;

- eleven years after the date of entry into force of this Agreement each duty and charge shall be reduced to 5% of the basic duty;
- twelve years after the date of entry into force of this Agreement the remaining duties shall be abolished.

4. In the event of serious difficulties for a given product, the timetables established in accordance with paragraphs 2 and 3 may be reviewed by the Association Committee by common accord on the understanding that the schedule for which the review has been requested may not be extended in respect of the product concerned beyond the maximum transitional period referred to in Article 6. If the Association Committee has not taken a decision within 30 days of its application to review the timetable, Algeria may suspend the timetable provisionally for a period which may not exceed one year.

5. For each product concerned, the basic duty to be gradually reduced as provided in paragraphs 2 and 3 shall be the rates referred to in Article 18.

ARTICLE 10

The provisions concerning the abolition of customs duties on imports shall also apply to customs duties of a fiscal nature.

ARTICLE 11

1. Exceptional measures of limited duration which derogate from the provisions of Article 9 may be taken by Algeria in the form of an increase or reintroduction of customs duties.

These measures may concern only infant industries, or certain sectors undergoing restructuring or facing serious difficulties, particularly where these difficulties produce major social problems.

Customs duties on imports applicable in Algeria to products originating in the Community introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the Community. The total value of imports of the products subjected to such measures may not exceed 15% of total imports of industrial products from the Community during the last year for which statistics are available.

These measures shall be applied for a period not exceeding five years unless a longer duration is authorised by the Association Committee. They shall cease to apply at the latest on expiry of the maximum transitional period referred to in Article 6.

No such measures may be introduced in respect of a product if more than three years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having equivalent effect concerning that product.

Algeria shall inform the Association Committee of any exceptional measures it intends to take and, at the request of the Community, consultations shall be held on such measures and the sectors to which they apply before they are implemented. When adopting such

measures, Algeria shall provide the Association Committee with a schedule for the abolition of the customs duties introduced pursuant to this Article. Such schedule shall provide for the phasing-out of the duties concerned by equal annual instalments, starting no later than the end of the second year following their introduction. The Association Committee may decide on a different schedule.

2. By way of derogation from the fourth subparagraph of paragraph 1, the Association Committee may exceptionally, in order to take account of the difficulties involved in setting up a new industry, authorise Algeria to maintain the measures already taken pursuant to paragraph 1 for a maximum period of three years beyond the transitional period referred to in Article 6.

CHAPTER II

AGRICULTURAL, FISHERY AND PROCESSED AGRICULTURAL PRODUCTS

ARTICLE 12

The provisions of this Chapter shall apply to products originating in the Community and Algeria falling within Chapters 1 to 24 of the Combined Nomenclature and of the Algerian Customs tariff and to the products listed in Annex 1.

ARTICLE 13

The Community and Algeria shall progressively establish a greater liberalisation of their reciprocal trade in agricultural, fisheries and processed agricultural products of interest to both Parties.

ARTICLE 14

1. Agricultural products originating in Algeria listed in Protocol No 1 on importation into the Community shall be subject to the arrangements set out in that Protocol.
2. Agricultural products originating in the Community listed in Protocol No 2 on importation into Algeria shall be subject to the arrangements set out in that Protocol.
3. Fishery products originating in Algeria listed in Protocol No 3 on importation into the Community shall be subject to the arrangements set out in that Protocol.
4. Fishery products originating in the Community listed in Protocol No 4 on importation into Algeria shall be subject to the arrangements set out in that Protocol.
5. Trade in processed agricultural products falling under this Chapter shall be subject to the arrangements set out in Protocol No 5.

ARTICLE 15

1. Five years after the entry into force of this Agreement, the Community and Algeria shall assess the situation in order to determine the liberalisation measures to be applied by the Community and Algeria six years after the entry into force of the Agreement, in accordance with the objective set out in Article 13.
2. Without prejudice to the provisions of paragraph 1 and taking account of the patterns of trade in agricultural products, fishery products and processed agricultural products between the Parties and the particular sensitivity of such products, the Community and Algeria shall examine in the Association Council, product by product and on a reciprocal basis, the possibilities of granting each other further concessions.

ARTICLE 16

1. Should specific rules be introduced as a result of implementation of their agricultural policies or modification of their existing rules, or should the provisions on the implementation of their agricultural policies be modified or developed, the Community and Algeria may modify the arrangements laid down in this Agreement in respect of the products concerned.
2. The Party carrying out such modification shall inform the Association Committee thereof. At the request of the other Party, the Association Committee shall meet to take due account of the interests of the other Party.
3. If the Community or Algeria, in applying paragraph 1, modifies the arrangements made by this Agreement for agricultural products, they shall accord imports originating in the other Party an advantage comparable to that provided for in this Agreement.
4. Any modification of the arrangements made by this Agreement shall be the subject, at the request of the other Contracting Party, of consultations within the Association Council.

CHAPTER III

COMMON PROVISIONS

ARTICLE 17

1. No new customs duties on imports or exports or charges having equivalent effect shall be introduced in trade between the Community and Algeria, nor shall those already applied upon entry into force of this Agreement be increased.
2. No new quantitative restriction on imports or exports or measure having equivalent effect shall be introduced in trade between the Community and Algeria.
3. Quantitative restrictions on imports or exports and measures having equivalent effect in trade between Algeria and the Community shall be abolished upon the entry into force of this Agreement.
4. Algeria shall abolish by 1 January 2006 at the latest the provisional additional duty applied to the products listed in Annex 4. That duty shall be reduced on a linear basis by 12 points per year starting on 1 January 2002.

If Algeria's commitments in respect of its accession to the WTO provide for a shorter period for the abolition of the provisional additional duty, that shorter period shall be applicable.

ARTICLE 18

1. For each product concerned, the basic duty to be reduced as provided in Article 9(2) and (3) and in Article 14 shall be the rate actually applied vis-à-vis the Community on 1 January 2002.
2. In the event of Algerian accession to the WTO, the applicable rates for imports between the Parties shall be the WTO bound rate or lower applied rate enforced as of accession. If, after accession to the WTO, a tariff reduction is applied on an erga omnes basis, the reduced rate shall apply.
3. The provisions of paragraph 2 shall apply to any tariff reduction applied erga omnes introduced after the date on which the negotiations are concluded.

4. The Parties shall communicate to each other their respective basic rates applied on 1 January 2002.

ARTICLE 19

Products originating in Algeria shall not enjoy more favourable treatment when imported into the Community than that applied by Member States among themselves.

The provisions of this Agreement shall apply without prejudice to the provisions of Council Regulation (EEC) No 1911/91 of 26 June 1991 on the application of the provisions of Community law to the Canary Islands (OJ L 171, 29.6.1991, p. 1), as last amended by Regulation (EC) No 1105/2001 (OJ L 151, 7.6.2001, p. 1).

ARTICLE 20

1. Both Parties shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.

2. Products exported to the territory of one of the Parties may not benefit from repayment of indirect internal taxation in excess of the amount of indirect taxation imposed on them directly or indirectly.

ARTICLE 21

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade insofar as they do not have the effect of altering the trade arrangements provided for in this Agreement.

2. Consultation between the Parties shall take place within the Association Committee concerning agreements establishing customs unions or free trade areas and, where requested, on other major issues related to their respective trade policies with third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account is taken of the mutual interests of the Community and Algeria stated in this Agreement.

ARTICLE 22

If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI GATT 1994, it may take appropriate measures against this practice in accordance with the WTO Agreement on the Implementation of Article VI of GATT 1994¹, related internal legislation and the procedures laid down in Article 26.

ARTICLE 23

The WTO Agreement on Subsidies and Countervailing Measures shall be applicable between the Parties.

If one of the Parties finds that subsidies are being used in trade with the other Party within the meaning of Articles VI and XVI GATT 1994², it may take appropriate measures against this practice in accordance with the WTO Agreement on Subsidies and Countervailing Measures and its own legislation on the matter.

¹Treaty Series No. 51 (1996) Cm 3271.

²Treaty Series No. 19 (1996) Cm 3077.

ARTICLE 24

1. Except where otherwise stated in this Article, the provisions of Article XIX GATT 1994 and of the WTO Agreement on Safeguards¹ are applicable between the Parties.

2. Each Party shall inform the Association Committee forthwith of any step that it takes or intends to take with regard to the application of safeguard measures. Each Party shall send the Association Committee, immediately or at least one week in advance, a communication in writing containing all information pertinent to:

- the opening of a safeguard investigation;
- the outcome of the investigation.

The information provided shall include an explanation of the procedure on which the investigation is based and details of the schedule of hearings and other suitable occasions for the parties concerned to submit their opinions.

Each Party shall also give the Association Committee an advance written notification containing all relevant information about the decision to apply provisional safeguard measures; this notification must be received at least one week before the measures are applied.

3. On being notified of the final results of the investigation and before applying safeguard measures in accordance with Article XIX of GATT 1994 and the WTO Agreement on Safeguards, the Party intending to apply such measures shall refer the matter to the Association Committee for a thorough examination of the situation with a view to finding a mutually acceptable solution.

4. In order to find such a solution, the Parties shall immediately hold consultations within the Association Committee. If the Parties fail to reach an agreement within 30 days of the initiation of such consultations on a solution to avoid the application of the safeguard measures, the Party intending to apply safeguard measures may apply the provisions of Article XIX of GATT 1994 and of the WTO Agreement on Safeguards.

5. In the selection of safeguard measures pursuant to this Article, the Parties shall give priority to those which cause least disturbance to the achievement of the objectives of this Agreement. Such measures shall not go beyond what is necessary to remedy the difficulties arising and shall maintain the level or margin of preference granted pursuant to this Agreement.

6. The Party intending to apply safeguard measures pursuant to this Article shall offer the other Party compensation in the form of liberalisation of trade vis-à-vis imports from the latter; that compensation will be essentially equivalent to the adverse trade effects of the measures on the other Party with effect from the date of their implementation. The offer shall be made before the safeguard measure is adopted and concurrently with the notification of and referral to the Association Committee, in accordance with paragraph 3. If the Party whose product is the intended subject of the safeguard measure considers the offer of compensation unsatisfactory, the two Parties may agree to other forms of trade compensation in the framework of the consultations referred to in paragraph 3.

7. If the Parties fail to agree on the matter of compensation within 30 days of the initiation of the above consultations, the Party whose product is the subject of safeguard measures may adopt compensatory tariff measures having trade effects essentially equivalent to the safeguard measure adopted pursuant to this Article.

ARTICLE 25

Where compliance with the provisions of Article 17(3) leads to:

- (i) re-export towards a third country against which the exporting party maintains, for the product concerned, quantitative export restrictions, export duties, or measures having equivalent effect, or

¹Treaty Series No. 20 (1996) Cm 3078.

(ii) a serious shortage, or threat thereof, of a product essential to the exporting party;

and where the situations referred to above give rise, or are likely to give rise, to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 26. The measures shall be non-discriminatory and shall be abolished when conditions no longer justify their maintenance.

ARTICLE 26

1. In the event of the Community or Algeria subjecting imports of products liable to give rise to the difficulties referred to in Article 24 to an administrative procedure having as its purpose the rapid supply of information on trade flow trends, it shall inform the other Party.

In the cases specified in Articles 22 and 25, before taking the measures provided for therein or, in cases to which paragraph 2(c) of this Article applies, as soon as possible, the Community or Algeria, as the case may be, shall supply the Association Committee with all relevant information with a view to seeking a solution acceptable to the two Parties.

In the selection of measures, priority shall be given to those which least disturb the functioning of this Agreement.

2. For the implementation of the second subparagraph of paragraph 1, the following provisions shall apply:

- (a) as regards Article 22, the exporting Party shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. When no end has been put to the dumping within the meaning of Article VI of GATT 1994 or no other satisfactory solution has been reached within 30 days of the matter being referred, the importing Party may adopt the appropriate measures;
- (b) as regards Article 25, the difficulties arising from the situations referred to in that Article shall be referred for examination to the Association Committee.

The Association Committee may take any decision needed to put an end to the difficulties. If it has not taken such a decision within 30 days of the matter being referred to it, the exporting party may apply appropriate measures on the exportation of the product concerned;

- (c) where exceptional circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Algeria, whichever is concerned, may, in the situations specified in Articles 22 and 25, apply forthwith the precautionary measures strictly necessary to deal with the situation and shall inform the other Party immediately thereof.

ARTICLE 27

Nothing in this Agreement shall preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security, of the protection of health and life of humans, animals or plants, of the protection of national treasures possessing artistic, historic or archaeological value, of the protection of intellectual, industrial and commercial property or of regulations concerning gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

ARTICLE 28

The concept of “originating products” for the application of the provisions of the present Title and the methods of administrative cooperation relating to them are set out in Protocol No 6.

ARTICLE 29

The Combined Nomenclature of goods shall be applied to the classification of goods for imports into the Community. The Algerian customs tariff shall be applied to the classification of goods for imports into Algeria.

TITLE III

TRADE IN SERVICES

ARTICLE 30

Reciprocal commitments

1. The European Community and its Member States shall extend to Algeria the treatment which they are obliged to grant under Article II.I of the General Agreement on Trade in Services¹, hereinafter referred to as GATS.
2. The European Community and its Member States shall grant to Algerian service suppliers no less favourable treatment than that accorded to like service suppliers as specified in the schedule of specific commitments taken by the European Community and its Member States under the GATS to which it is annexed.
3. This treatment shall not apply to advantages accorded by either Party under the terms of an agreement of the type defined in Article V of the GATS or to measures taken on the basis of such an agreement and to other advantages granted in accordance with the list of most-favoured-nation exemptions annexed by the European Community and its Member States to the GATS.
4. Algeria shall grant no less favourable treatment to service suppliers of the European Community and its Member States than that specified in Articles 31 to 33.

ARTICLE 31

Cross-border supply of services

With regard to the supply of services by Community service suppliers into the territory of Algeria, other than through a commercial presence or the presence of natural persons, as referred to in Articles 32 and 33, Algeria shall grant treatment to Community service suppliers no less favourable than that accorded to companies of any third country.

ARTICLE 32

Commercial presence

1. (a) Algeria shall grant for the establishment of Community companies in its territory treatment no less favourable than that accorded to companies of any third country;
 - (b) Algeria shall grant to subsidiaries and branches of Community companies, established in its territory in accordance with its legislation, in respect of their operations, treatment no less favourable than that accorded to its own companies or branches, or to Algerian subsidiaries or branches of companies of any third country, whichever is the better.
2. The treatment referred to in paragraph 1(a) and (b) shall be granted to companies, subsidiaries and branches established in Algeria on the date of entry into force of this Agreement and to companies, subsidiaries and branches established there after that date.

¹Treaty Series No. 58 (1996) Cm 3276.

ARTICLE 33

Temporary presence of natural persons

1. A Community company or Algerian company established in the territory of Algeria or the Community respectively shall be entitled to temporarily employ, or have temporarily employed by one of its subsidiaries or branches, in accordance with the legislation in force in the host country of establishment, employees who are nationals of Community Member States and Algeria respectively, provided that such employees are key personnel as defined in paragraph 2, and that they are employed exclusively by such companies, subsidiaries or branches. The residence and work permits of such employees shall only cover the period of such employment.

2. Key personnel of the abovementioned companies herein referred to as “organisations” are “intra-corporate transferees” as defined in (c) in the following categories, provided that the organisation is a legal person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least the twelve months immediately preceding such movement:

(a) persons working in a senior position with an organisation, who primarily direct the management of the establishment, receiving general supervision or direction principally from the board of directors or stockholders of the business or their equivalent, including:

- directing the establishment or a department or sub-division of the establishment;
- supervising and controlling the work of other supervisory, professional or managerial employees;
- having the authority personally to recruit and dismiss or recommend recruiting, dismissing or other personnel actions;

(b) persons working within an organisation who possess uncommon knowledge essential to the establishment’s service, research equipment, techniques or management. The assessment of such knowledge may reflect, apart from knowledge specific to the establishment, a high level of qualification referring to a type of work or trade requiring specific technical knowledge, including membership of an accredited profession;

(c) an “intra-corporate transferee” is defined as a natural person working within an organisation in the territory of a Party, and being temporarily transferred in the context of pursuit of economic activities in the territory of the other Party; the organisation concerned must have its principal place of business in the territory of a Party and the transfer be to an establishment (branch, subsidiary) of that organisation, effectively pursuing like economic activities in the territory of the other Party.

3. The entry into and the temporary presence within the respective territories of Algeria and the Community of nationals of the Member States or of Algeria respectively, shall be permitted, when these representatives of companies are persons working in a senior position, as defined in paragraph 2(a), within a company, and are responsible for the establishment of an Algerian or a Community company, in the Community or Algeria respectively, when:

- those representatives are not engaged in making direct sales or supplying services, and
- the company has no other representative, office, branch or subsidiary in a Community Member State or Algeria respectively.

ARTICLE 34

Transport

1. Articles 30 to 33 shall not apply to air, inland waterway or land transport or to national shipping (cabotage), subject to the provisions of paragraphs 2 to 6 of this Article.

2. In respect of activities undertaken by shipping agencies for the provision of international maritime transport services, including inter-modal activities involving a sea leg, each Party shall permit to the companies of the other Party their commercial presence in its territory in the form of subsidiaries or branches, under conditions of establishment and operation no less favourable than those accorded to its own companies or to subsidiaries or branches of companies of any third country whichever are the better. Such activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, whether these services are operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) purchase and use, on their own account or on behalf of their customer (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of an integrated service;
- (c) preparation of transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) provision of business information of any means, including computerised information systems and electronic data interchange (subject to any non-discriminatory restrictions concerning telecommunications);
- (e) setting up of any business arrangement, including participation in the company's stock and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the relevant provisions of this Agreement), with any locally established shipping agency;
- (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.

3. With respect to maritime transport, the Parties undertake to apply effectively the principle of unrestricted access to the international market and traffic on a commercial basis. However, the legislation of each Party shall apply to the preferential right of the national flag for national cabotage and for salvage, towage and pilotage.

These provisions do not prejudice the rights and obligations arising under the United Nations Convention on a Code of Conduct for Liner Conferences, as applicable for either Party to this Agreement. Non-conference lines shall be free to operate in competition with a conference line as long as they adhere to the principle of fair competition on a commercial basis.

The Parties affirm their commitment to a freely competitive environment as being an essential feature of the dry and liquid bulk trade.

4. In applying the principles of paragraph 3 above, the Parties shall:

IMPLEMENTING RULES FOR ARTICLE 41

CHAPTER I

General provisions

1. Objectives

Cases relating to practices contrary to Article 41(1)(a) or (b) of this Agreement shall be dealt with by applying the appropriate legislation, in order to avoid adverse effects on trade and economic development and the possible negative impact that such practices may have on the other Party's important interests.

The competence of the Parties' competition authorities to deal with these cases shall flow from the existing rules of their respective competition laws, including where these rules are applied to undertakings located outside their territory, but whose activities affect that territory.

The purpose of these rules is to promote cooperation and coordination between the Parties in the application of their competition laws in order to ensure that restrictions on competition do not block or cancel out the benefits which should be ensured following the progressive liberalisation of trade between the European Community and Algeria.

2. Definitions

For the purposes of these rules:

- (a) "competition law" shall mean:
- (i) for the European Community ("the Community"), Articles 81 and 82 of the EC Treaty, Council Regulation (EEC) No 4064/89 and related secondary legislation adopted by the Community;
 - (ii) For Algeria, Competition Decree No 95-06 of 23 Sha'ban 1415 corresponding to 25 January 1995, and its implementing provisions;
 - (iii) and any amendments to or repeal of those laws.
- (b) "competition authority" shall mean:
- (i) for the Community: the Commission of the European Community as to its responsibilities pursuant to the competition law of the Community;
 - (ii) for Algeria: the *Conseil de la Concurrence* (Competition Board).
- (c) "enforcement activity" shall mean any application of competition law by way of investigation or proceeding conducted by the competition authority of a Party, which may result in penalties or remedies;
- (d) "anti-competitive activity" and "conduct and practices which restrict competition" shall mean any conduct or transaction that is impermissible under the competition laws of a Party and may be subject to penalties or remedies.

CHAPTER II

Cooperation and coordination

3. Notification

3.1. Each Party's competition authority shall notify the other of its enforcement activities where:

- (a) the notifying Party considers them relevant to enforcement activities of the other Party;

- (b) they may significantly affect important interests of the other Party;
- (c) they relate to restrictions on competition which may directly and substantially affect the territory of the other Party;
- (d) they involve anti-competitive activities carried out mainly in the territory of the other Party; and
- (e) they condition or prohibit action in the territory of the other Party.

3.2. To the extent possible, and provided that this is not contrary to the Parties' competition laws and does not adversely affect any investigation being carried out, notification shall take place during the initial phase of the procedure, to enable the notified competition authority to express its opinion. The notified authority shall give due consideration to the opinions received when taking decisions.

3.3. The notifications provided for in Article 3.1 of this Chapter shall be detailed enough to permit an evaluation in the light of the interests of the other Party.

3.4. The Parties undertake to give the above notification wherever possible, depending on available administrative resources.

4. Exchange of information and confidentiality

4.1. The Parties shall exchange information which will facilitate the effective application of their respective competition laws and promote a better understanding of their respective legal frameworks.

4.2. The exchange of information shall be subject to the standards of confidentiality applicable under the law of each Party. Confidential information whose dissemination is expressly prohibited or which, if disseminated, could adversely affect the Parties, shall not be provided without the express consent of the source of the information. Each competition authority shall maintain, to the fullest extent possible, the confidentiality of any information provided to it in confidence by the other competition authority under the rules and shall oppose, to the fullest extent possible, any application for disclosure of such information by a third party that is not authorised by the competition authority that supplied the information.

5. Coordination of enforcement activities

5.1. Each competition authority may notify the other of its willingness to coordinate enforcement activities with respect to a specific case. This coordination shall not prevent the competition authorities from taking autonomous decisions.

5.2. In determining the extent of coordination, the competition authorities shall consider:

- (a) the results which coordination could produce;
- (b) the additional information to be obtained;
- (c) the reduction in costs for the competition authorities and the economic agents involved, and
- (d) the applicable deadlines under their respective legislations.

6. Consultation when important interests of one Party are adversely affected in the territory of the other Party

6.1. A competition authority which considers that one or more undertakings situated in one Party's territory are or have been engaged in anti-competitive activities of whatever origin that are substantially and adversely affecting the interests of the Party it represents may request consultations with the other competition authority, recognising that entering into such consultations is without prejudice to any action under its competition laws and to the full freedom of ultimate decision of the competition authority concerned. The requested competition authority may take the appropriate remedial action, in the light of the legislation in force.

6.2. Each Party shall, wherever possible and in accordance with its own legislation, take into consideration the important interests of the other Party in the course of its enforcement activities. A competition authority which considers that an enforcement activity being conducted by the competition authority of the other Party under its competition law may affect the important interests of the Party it represents should transmit its views on the matter to or request consultations with the other competition authority. Without prejudice to the continuation of its action under its competition laws or to its full freedom of ultimate decision, the competition authority so addressed should give full and sympathetic consideration to the views expressed by the requesting competition authority, and in particular to any suggestions as to alternative means of fulfilling the needs and objectives of the enforcement activity.

7. Technical cooperation

7.1. The Parties shall be open to technical cooperation in order to enable them to take advantage of their respective experience and to strengthen the implementation of their competition law and policies.

7.2. Cooperation shall include the following activities:

- (a) training for officials, to enable them to gain practical experience;
- (b) seminars, in particular for civil servants; and
- (c) studies of competition law and policies, with a view to supporting their development.

8. Modification and update of the rules

The Association Committee may amend these rules.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the Community or in Algeria to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 22(3).
3. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 18(2).
4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

ARTICLE 31

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

ARTICLE 32

Amounts expressed in euros

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euros, amounts in the national currencies of the Member States of the Community, of Algeria and of the other countries referred to in Articles 4 and 5 equivalent to the amounts expressed in euros shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euros as at the first working day of October. The amounts shall be communicated to the Commission of the European Communities by 15 October and shall apply from 1 January the following year. The Commission of the European Communities shall notify all countries concerned of the relevant amounts.
4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euros. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euros if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euros shall be reviewed by the Association Committee at the request of the Community or of Algeria. When carrying out this review, the Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euros.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

ARTICLE 33

Mutual assistance

1. The customs authorities of the Member States of the Community and of Algeria shall provide each other, through the Commission of the European Communities, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Protocol, the Community and Algeria shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

ARTICLE 34

Verification of proof of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community, in Algeria or in one of the other countries referred to in Article 4 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. The subsequent verification of information certificates provided for by Article 28 shall be carried out in the cases mentioned in paragraph 1 and in accordance with the procedures laid down in paragraphs 2 to 6.

ARTICLE 35

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 34 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Customs Cooperation Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

ARTICLE 36

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

ARTICLE 37

Free zones

1. The Community and Algeria shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or in Algeria are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII

CEUTA AND MELILLA

ARTICLE 38

Application of the Protocol

1. The term “Community” used in Article 2 does not cover Ceuta and Melilla.
2. Products originating in Algeria, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the Community under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities. Algeria shall grant to imports of products covered by the Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.
3. For the purpose of the application of paragraph 2 concerning products originating in Ceuta and Melilla, this Protocol shall apply *mutatis mutandis* subject to the special conditions set out in Article 39.

ARTICLE 39

Special conditions

1. Providing they have been transported directly in accordance with the provisions of Article 14, the following shall be considered as:
 - 1) products originating in Ceuta and Melilla:
 - (a) products wholly obtained in Ceuta and Melilla;
 - (b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 7; or that
 - (ii) those products are originating in Algeria or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 8.
 - 2) products originating in Algeria:
 - (a) products wholly obtained in Algeria;
 - (b) products obtained in Algeria in the manufacture of which products other than those referred to in (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 7; or that
 - (ii) those products are originating, within the meaning of this Protocol, in Ceuta and Melilla or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 8(1).
2. Ceuta and Melilla shall be considered as a single territory.
3. The exporter or his authorised representative shall enter “Algeria” and “Ceuta and Melilla” in Box 2 of movement certificates EUR.1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.

4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

TITLE VIII

FINAL PROVISIONS

ARTICLE 40

Amendments to the Protocol

The Association Council may decide to amend the provisions of this protocol at the request of one of the contracting parties or of the Customs Cooperation Committee.

ARTICLE 41

Customs Cooperation Committee

1. A Customs Cooperation Committee shall be set up, charged with carrying out administrative cooperation with a view to the correct and uniform application of this Protocol and with carrying out any other tasks in the customs field which may be entrusted to it.

2. The Committee shall be composed, on the one hand, of experts of the Member States and of officials of the Commission of the European Communities who are responsible for customs questions and, on the other hand, of experts nominated by Algeria.

ARTICLE 42

Implementation of the Protocol

The Community and Algeria shall each take the steps necessary to implement this Protocol.

ARTICLE 43

Arrangements with Morocco and Tunisia

The Contracting Parties shall take any measures necessary for the conclusion of arrangements with Morocco and Tunisia enabling this Protocol to be applied. The Contracting Parties shall notify each other of measures taken to this affect.

ARTICLE 44

Goods in transit or storage

The provisions of the Agreement may be applied to goods which comply with the provisions of this Protocol and which on the date of entry into force of the Agreement are either in transit or are in the Community or in Algeria in temporary storage, in bonded warehouses or in free zones, subject to the submission to the customs authorities of the importing State, within four months of that date, of a certificate EUR.1 endorsed retrospectively by the competent authorities of the exporting State together with the documents showing that the goods have been transported directly.

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of the Protocol.

Note 2:

2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an “ex”, this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.

2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.

2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

3.1. The provisions of Article 7 of the Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the Community or in Algeria.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from “other alloy steel roughly shaped by forging” of heading ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

3.3. Without prejudice to Note 3.2 where a rule states that “materials of any heading” may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression “manufacture from materials of any heading, including other materials of heading No ...” means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of HS headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth—even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn—that is, the fibre stage.

3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

4.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.

4.2. The term “natural fibres” includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.

4.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)

5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,

- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 per cent of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

Example:

A carpet with tufts made from both artificial yarns and cotton yarns and with a jute backing is a mixed product because three basic textile materials are used. Thus, any non-originating materials that are at a later stage of manufacture than the rule allows may be used, provided their total weight does not exceed 10 per cent of the weight of the textile materials of the carpet. Thus, both the jute backing and/or the artificial yarns could be imported at that stage of manufacture, provided the weight conditions are met.

5.3. In the case of products incorporating “yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped”, this tolerance is 20 per cent in respect of this yarn.

5.4. In the case of products incorporating “strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film”, this tolerance is 30 per cent in respect of this strip.

Note 6:

6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex-works price of the product.

6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the “specific processes” are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

7.2. For the purposes of headings 2710, 2711 and 2712, the “specific processes” are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;

- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;
- (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 per cent of the sulphur-content of the products processed (ASTM D 1266-59 T method);
- (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250°C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (eg hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C, by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 per cent of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

PROTOCOL No 7

ON MUTUAL ADMINISTRATIVE ASSISTANCE IN THE FIELD OF CUSTOMS

ARTICLE 1

Definitions

For the purposes of this Protocol:

- (a) "customs legislation" shall mean any legal or regulatory provisions applicable in the territories of the Contracting Parties governing the import, export and transit of goods and their placing under any other customs regime or procedure, including measures of prohibition, restriction and control;
- (b) "applicant authority" shall mean a competent administrative authority which has been designated by one of the Contracting Parties for this purpose and which makes a request for assistance on the basis of this Protocol;
- (c) "requested authority" shall mean a competent administrative authority which has been designated by one of the Contracting Parties for this purpose and which receives a request for assistance on the basis of this Protocol;
- (d) "personal data" shall mean all information relating to an identified or identifiable individual.
- (e) "operation in breach of customs legislation" shall mean any violation or attempted violation of customs legislation.

ARTICLE 2

Scope

1. The Contracting Parties shall assist each other, in the areas within their competence, in the manner and under the conditions laid down in this Protocol, to ensure the correct application of the customs legislation, in particular in order to prevent, investigate and combat operations in breach of that legislation.
2. Assistance in customs matters, as provided for in this Protocol, shall apply to any administrative authority of the Contracting Parties which is competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters. Nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.
3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

ARTICLE 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.
2. At the request of the applicant authority, the requested authority shall inform it:
 - (a) whether goods exported from the territory of one of the Parties have been properly imported into the territory of the other Contracting Party, specifying, where appropriate, the customs procedure applied to the goods;
 - (b) whether goods imported into the territory of one of the Contracting Parties have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.
3. At the request of the applicant authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure surveillance of:
 - (a) natural or legal persons in respect of whom there are reasonable grounds for believing that they are engaging in or have engaged in operations which contravene customs legislation;
 - (b) places where stocks of goods have been or may be assembled in such a way that there are reasonable grounds for believing that these goods are intended to be used in operations in breach of customs legislation;
 - (c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation;
 - (d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation.

ARTICLE 4

Spontaneous assistance

The Contracting Parties shall assist each other, at their own initiative and in accordance with their legal or regulatory provisions, if they consider that to be necessary for the correct application of customs legislation, particularly by providing information obtained pertaining to:

- activities which are or appear to be operations in breach of customs legislation and which may be of interest to another Contracting Party;
- new means or methods employed in carrying out operations in breach of customs legislation;
- goods known to be subject to operations in breach of customs legislation;
- natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;
- means of transport for which there are reasonable grounds for believing that they have been, are or might be used in operations in breach of customs legislation.

ARTICLE 5

Delivery/notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures to:

- deliver any documents or
- notify any decisions

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents and notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

ARTICLE 6

Form and substance of requests for assistance

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

- (a) the applicant authority;
- (b) the measure requested;
- (c) the object of and the reason for the request;
- (d) the legal or regulatory provisions and other legal elements involved;
- (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations;
- (f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

ARTICLE 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Contracting Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority in application of this Protocol when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Contracting Party.

3. Duly authorised officials of one of the Contracting Parties may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other authority concerned in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

4. Duly authorised officials of a Contracting Party may, with the agreement of the other Contracting Party involved and within the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

ARTICLE 8

Form in which information is to be communicated

1. The requested authority shall communicate the results of enquiries to the applicant authority in writing together with all relevant documents, certified copies and other items.

2. This information may be supplied in computerised form.

3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

ARTICLE 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:

(a) be likely to prejudice Algeria's sovereignty or that of a Member State of the Community whose assistance has been requested pursuant to this Protocol; or

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or

(c) be likely to violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons for it must be communicated to the applicant authority without delay.

ARTICLE 10

Exchange of information and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Contracting Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Contracting Party that received it and the corresponding provisions applying to the Community authorities.
2. Personal data may be exchanged only where the Contracting Party which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Contracting Party that may supply them. To that end, the Contracting Parties shall inform each other of their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.
3. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Contracting Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.
4. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Contracting Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

ARTICLE 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such items, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority such an official will have to appear, on what matters and by virtue of what title or qualification he will be questioned.

ARTICLE 12

Assistance expenses

The Contracting Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol except, as appropriate, for expenses relating to experts and witnesses and to interpreters and translators who are not public service employees.

ARTICLE 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of Algeria and on the other hand to the competent services of the Commission of the European Communities and, where appropriate, the customs authorities of the Member States. They shall decide on all practical measures and arrangements necessary

for its application, taking into consideration rules in the field of data protection in particular. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.

2. The Contracting Parties shall consult each other and keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

ARTICLE 14

Other agreements

1. Taking into account the respective competencies of the European Community and the Member States, the provisions of this Protocol shall:

- not affect the obligations of the Contracting Parties under any other international agreement or convention;
- be deemed complementary with agreements on mutual assistance which have been or may be concluded between individual Member States and Algeria;
- not affect the Community provisions governing the communication between the competent services of the Commission of the European Communities and the customs authorities of the Member States of any information obtained in the domains covered by this Protocol which could be of interest to the Community.

2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral agreement on mutual assistance which has been or may be concluded between individual Member States and Algeria insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the application of this Protocol, the Contracting Parties shall consult each other to resolve the matter in the framework of the Cooperation Committee set up under Article 41 of Protocol 6 to the Association Agreement.

The Parties declare that the term “nationals of other countries arriving in their territory direct from the territory of the other” will be defined in the context of the agreements referred to in Article 84(2).

Joint Declaration relating to Article 104 of the Agreement

1. The Parties agree, for the purpose of the correct interpretation and practical application of this Agreement, that the term “cases of special urgency” in Article 104 means a case of the material breach of the Agreement by one of the Parties. A material breach of the Agreement consists in:

- repudiation of the Agreement not sanctioned by the general rules of international law,

2. The Parties agree that the “appropriate measures” referred to in Article 104 of the Agreement are measures taken in accordance with international law. Joint Declaration relating to Article 110 of the Agreement

The advantages which Algeria derives from the arrangements granted to it by France under the Protocol on goods originating in and coming from certain countries and enjoying special treatment when imported into a Member State, annexed to the Treaty establishing the European Community, have been taken into account in this Agreement. As a result, these special arrangements must be considered repealed from the date on which the Agreement enters into force.

DECLARATIONS BY THE EUROPEAN COMMUNITY

Declaration by the European Community on Turkey

The Community recalls that in accordance with the Customs Union in force between the Community and Turkey, the latter has the obligation, in relation to countries which are not members of the Community, to align itself on the Common Customs Tariff and, progressively, on the preferential customs regime of the Community, taking the necessary measures and negotiating agreements on mutually advantageous basis with the countries concerned. Consequently, the Community invites Algeria to enter into negotiations with Turkey as soon as possible.

The European Community and its Member States state their support for Algeria’s rapid accession to the WTO and agree to provide any assistance necessary to this end.

Declaration by the European Community relating to Article 41 of the Agreement

DECLARATIONS BY ALGERIA

Declaration by Algeria relating to Article 9 of the Agreement

Algeria considers one of the essential objectives of the Association Agreement to be an increase in the flow of European direct investment in Algeria. The Association Council will examine the question if the need arises.

**Declaration by Algeria

Algeria takes note of the Declaration by the European Community on Turkey. While observing that this declaration arises from the existence of customs union between those parties, Algeria will consider this matter when the time comes.

In applying its law on competition, Algeria will bear in mind the competition policy guidelines developed within the European Union.
