

Audience Groups 1-8 (Working Together 2010)

Methods Group discussion

Preparation

No additional preparation.

Links to Common Core

Common Core 6 Information sharing (skill: information handling).
Be able to use clear language to communicate information unambiguously to others including children, young people, their families and carers.

Childhood Neglect: Improving Outcomes for Children

Learning Outcomes

To understand barriers to recognition and response

Process

Consider the questions as a group and discuss.

Little preparation is needed, but it might be helpful to write the replies on flipchart paper. This might be a useful exercise to begin the training. If training is planned for one day or more, you may want to re-visit this exercise at the end of the training session.

You may also wish to source newspaper headings of public concern about abuse and the media response to high profile cases to aid the discussion.

Time

Total : 30 minutes
