The Government of the United Kingdom of Great Britain and Northern Ireland, the Government of the French Republic and the Government of the Federal Republic of Germany

Considering their forty years of successful cooperation at the Institut Laue-Langevin (ILL), as well as their desire to maintain their mutual commitment to European cooperation in neutron sciences;

Considering their desire to maintain this research reactor's enduring position as world leader in terms of its achievements in neutron sciences for the years to come;

Considering the growing interest of the European neutron community, in the life sciences in particular, to have access to a reactor with currently the highest flux available worldwide, allowing unique experiments;

With a view to the continuation of their cooperation;

Have agreed as follows:

ARTICLE 1

Paragraph 1 of Article 2 of the Convention of 19 January 1967, as amended by Article 1 of the Protocol of 6 July 1971, Article 3 b) of the Agreement of 19 July 1974, paragraph 1 of Article 1 of the Protocol of 27 July 1976 and paragraph 1 of Article 1 of the Second Protocol of 9 December 1981, shall be replaced by the following provision:

1. The Government of the United Kingdom, the Government of the French Republic and the Government of the Federal Republic of Germany shall ensure that annual grants are made available to the British, French and German Associates respectively within the framework of the funds allocated under the relevant heading

in the budgets of the United Kingdom, of the French Republic and of the Federal Republic of Germany. The purpose of these annual grants shall be to cover the costs of the Institute. The costs of the Institute shall be unanimously determined each year by the Steering Committee of the Institute and by the Associates within the framework of a medium-term financial plan.

The costs of the Institute related to decommissioning and radioactive waste management shall be determined and entirely financed by the above-mentioned Governments in proportion to their contributions as defined in paragraph 2 of this Article, and in accordance with French legislation and implementing regulations governing this matter.

In the period until the date on which the withdrawal of one of the Governments takes effect, the three Governments shall establish by mutual agreement the arrangements for the clearance of all financial liabilities related to decommissioning and radioactive waste management operations by the Government that has notified its intention to withdraw from the Convention, in accordance with the provisions of paragraph 1 of the present Article.
