PERCENTAGE OF PUPILS MAKING EXPECTED PROGRESS IN ENGLISH AND MATHEMATICS BETWEEN KEY STAGE 2 AND KEY STAGE 4 IN ENGLAND: 2007/08-2009/10

## Introduction

This Statistical First Release (SFR) provides a short time series of the percentage of pupils making expected progress in English and in mathematics between Key Stage 2 and Key Stage 4.

This SFR provides national and Local Authority data based on a revised methodology and includes progression data for pupils completing Key Stage 4 in 2010. Data previously published for 2008 and 2009 has been updated based on the new methodology and published in this SFR.

The new methodology has been used to produce school, local authority and national figures on the same basis for the first time.

## Key Points

The percentage of pupils in maintained schools making expected progress in English and in mathematics in 2010 is as follows:

- English, 69.3 per cent (70.4 per cent for maintained mainstream schools only)
- Mathematics, 62.0 per cent (62.9 per cent for maintained mainstream schools only)

The percentage making expected progress in English has risen by 4.6 percentage points since 2009. There has been a 4.1 percentage point increase in the percentage making expected progress in mathematics.

A higher percentage of girls make expected progress in both English and in mathematics, although the gap is much smaller in mathematics. The gender gap has widened in mathematics since 2009.

Chart 1: Percentage of pupils in maintained schools making expected progress in English between KS2 and KS4

Chart 2: Percentage of pupils in maintained schools making expected progress in mathematics between KS2 and KS4

## Tables

Table $1 \quad$ National Level: Percentage of pupils making expected progress in English and in mathematics between Key Stage 2 and Key Stage 4 by gender.

Table $2 \quad$ Percentage of pupils in maintained mainstream schools making expected progress in English between Key Stage 2 and Key Stage 4, by Local Authority and Region.

Table 3 Percentage of pupils in maintained mainstream schools making expected progress in mathematics between Key Stage 2 and Key Stage 4, by Local Authority and Region.

Table 4 Percentage of pupils in maintained schools making expected progress in English between Key Stage 2 and Key Stage 4, by Local Authority and Region.

Table 5 Percentage of pupils in maintained schools making expected progress in mathematics between Key Stage 2 and Key Stage 4, by Local Authority and Region.

## NOTES TO EDITORS

## Data source and coverage

The figures in this publication cover the data prepared for the Secondary School Performance Tables (previously the Achievement and Attainment Tables). Attainment data for all pupils at the end of Key Stage 4 is collected from Examination Awarding Organisations and collated into school level data by the DfE's contractor. The unamended data is then passed to schools, together with the underlying pupil data, for checking prior to publication in the 'School and College Performance Tables'. Any amendments as a result of the school checking exercise are validated prior to publication. Any changes notified by schools in the period following publication are validated before the data is finally frozen in the spring. If any of the pupils in the dataset had taken exams in previous years their results are also included in this dataset. Occasionally, a pupil will appear more than once resulting, for example, from dual registration. Rules for deriving the main pupil record have been agreed to eliminate these duplicates. It is also possible when matching to prior attainment data that a pupil appears more than once, for example, having undergone assessments at more than one school, retaking assessments, or where a pupil has been claimed by two schools or LAs. In these cases, 1 record is derived for each pupil, combining elements of different records.

This SFR covers maintained schools in England, including academies, City Technology Colleges (CTCs) and maintained special schools. Independent schools, independent special schools, non-maintained special schools, hospital schools and Pupil Referral Units are excluded.

The national figures in this SFR include all pupils on roll in maintained schools. Pupils who have recently arrived from overseas are not included in the regional, Local Authority and underlying school level data.

The cohort group of pupils each year is any pupil who was deemed to be at the end of Key Stage 4. Any pupil with missing prior attainment is excluded from the calculation unless they achieved a grade $B$ or above at GCSE (in which case they are deemed to have made the expected progress) or they did not achieve a pass grade at GCSE (in which case they are deemed to have not made expected progress). Any pupil with missing GCSE attainment is included in the
calculation as not making the expected progress.
The figures in this SFR measure progress to KS4 in full GCSE examinations (including GCSE double awards in English) and GCE AS levels. No other equivalent qualifications (e.g. short courses) are included.

## Calculations of expected progress in English and mathematics

## Calculating Key Stage 2 attainment

- If pupil has achieved level $3,4,5$ or 6 in the Key Stage 2 National Curriculum Test, then that grade is taken as their Key Stage 2 attainment. This happens in the majority of cases.
- If the pupil was working below the level of the test (B), not awarded a test level ( N ) or achieved level 2 in the Key Stage 2 test, the teacher assessment (providing it is a valid level) is used as a measure of their Key Stage 2 attainment. However that teacher assessment is capped at level 2, this means that a pupil in this situation with a teacher assessment of $3,4,5$ or 6 will be deemed to have attained a level 2. If the teacher assessment is missing or is not valid, the pupil is excluded from the measure if they obtain grades C to G in their GCSE result (see Figure 1 below). This is because if a pupil is deemed to be below the level of the test or awarded a level 2 or N, we cannot determine their actual Key Stage 2 attainment and it would be inaccurate to use level 2 as this is only awarded as a compensatory level for pupils who do not achieve enough marks for level 3.
- If the pupil was absent, unable to access the test, missing their test result, had a lost script or did not have a grade due to malpractice in their Key Stage 2 test (grades A, T, M, X or Q) and has any valid level (W, 1, 2, 3, 4, 5 or 6) for their Key Stage 2 teacher assessment, then we take their teacher assessment level as their attainment. A Key Stage 2 test result of showing the test was taken in the past or in the future ( $\mathrm{P}, \mathrm{F}$ ) is treated as a missing test result.
- If the pupil was absent, unable to access the test, missing their test result, had a lost script or did not have a grade due to malpractice in their Key Stage 2 test (grades A, T, M, X or Q) but does not have a valid level for their teacher assessment, then we treat them as not having a Key Stage 2 test result or teacher assessment, and the pupil is excluded from the measure. A Key Stage 2 test result that suggests the test was taken in the past or the future should not still be within the dataset ( $\mathrm{P}, \mathrm{F}$ ) and is treated as a missing test result.
- If the pupil had left the school $(\mathrm{L})$ or was ineligible $(\mathrm{Y} / \mathrm{Z})$ as their Key Stage 2 test result then we exclude them from the measure if they obtain grades $C$ to $G$ in their GCSE result (see Figure 1 below).

## Measuring progress between Key Stage 2 and Key Stage 4

The table below shows how levels at KS2 are mapped to GCSE grades in English or mathematics to determine whether a pupil can be included in the progress measure and, if included, whether or not they have made expected progress in the subject. The measure of expected progress is built on the principle that pupils achieving a level 4 in English or in mathematics by the end of KS2 should be expected to achieve at least a C grade at GCSE in that subject.

The highest standardised points are used in the calculation of the GCSE English and mathematics level, therefore if a pupil at the end of Key Stage 4 has taken a GCSE in English and gained a grade A, and also taken a GCE AS level in English and gained a grade D, the
standardised points of the GCSE (52) will be used and not the standardised points of the GCE AS level (45).

Where AS levels are counted in place of GCSEs, those pupils with grade D and above are deemed to have made expected progress, whereas those who achieve a grade E are treated as reaching national curriculum level 7 , the equivalent of grade C at GCSE.

Figure 1: Matrix showing how the English and mathematics progression measure is calculated.

|  |  | GCSE Grade |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | No KS4 result | U | G | F | E | D | C | B | A | A* |
|  | Working towards level 1 | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 1 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 2 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 3 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 4 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 5 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made |
|  | Level 6 | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress not made | Expected progress made | Expected progress made | Expected progress made |
|  | Disapplied /Absent (TA) | Expected progress not made | Expected progress not made | Not included | Not included | Not included | Not included | Not included | Expected progress made | Expected progress made | Expected progress made |
|  | Left the school | Expected progress not made | Expected progress not made | Not included | Not included | Not included | Not included | Not included | Expected progress made | Expected progress made | Expected progress made |
|  | No TA or test | Expected progress not made | Expected progress not made | Not included | Not included | Not included | Not included | $\begin{array}{\|l\|} \hline \text { Not } \\ \text { included } \end{array}$ | Expected progress made | Expected progress made | Expected progress made |
|  | Not eligible for tests | Expected progress not made | Expected progress not made | Not included | Not included | Not included | Not included | Not included | Expected progress made | Expected progress made | Expected progress made |

- Pupils who have not been entered for a GCSE in English or mathematics or those who are ungraded are deemed to not have made expected progress.
- Pupils attaining level 5 or level 6 at KS2 are expected to achieve at least a grade $B$ at GCSE, therefore all pupils achieving an $\mathrm{A}^{*}$ - are deemed to have made the expected progress, whether or not their prior attainment is known.

## How the methodology differs from previous years

Different methodology was used in previous years to produce the Local Authority and national figures and the school level figures which are published in the Performance Tables.

Differences from the Statistical First Release 05/2010 published on 11 March 2010 are:

- Some slight revisions have been made to ensure that pupils without Key Stage 2 test levels are treated consistently. Pupils who have a Key Stage 2 test result that suggests the test was taken in the past or the future ( $\mathrm{P}, \mathrm{F}$ ) should not still be within the dataset and therefore their test results are treated as missing results and we take their teacher assessment as their attainment level. Pupils are only excluded from the measure if their teacher assessment is invalid. The change to the treatment of tests showing that it was taken in the past or the future has a negligible impact as there are so few in the data. There are 25 of these in the English data (of which 19 end up being treated differently) and 18 in the mathematics (of which 13 end up being treated differently). Pupils who are absent or who are unable to access the test ( $\mathrm{A}, \mathrm{T}$ ) but do not have a valid level for their teacher assessment, are excluded from the measure. This has resulted in 160 absent or unable to access the test results being treated differently in English and 205 of these test results being treated differently in mathematics in maintained schools.
- The Local Authority and regional figures have been adjusted in this SFR to exclude pupils who have recently arrived from overseas. This is to have methodological consistency with other Key Stage 4 performance measures in the Secondary School Performance Tables and other Key Stage 4 statistical releases at Local Authority and regional level. The impact of these changes nationally can be identified by comparing the national figures in Table 1 with the total figures in Tables 2, 3, 4 and 5.
- Pupils at the end of Key Stage 4 who have taken GCE AS levels in English or mathematics, either where they have not taken a GCSE in these subjects or taken a GCSE but have a better standardised points score, are included. GCE AS levels were not included in the previous SFR methodology which counted GCSEs only. This change to the methodology ensures consistency with other Key Stage 4 performance measures in the Secondary School Performance Tables. This has minimal impact on the figures.
- The previous methodology only included maintained mainstream schools. Maintained special schools have been included in the SFR this year to be consistent with Secondary School Performance Tables and other Key Stage 4 statistical releases. Table 1 has been updated and tables 4 and 5 have been added to show the impact of including maintained special schools in the English and mathematics progression measure.

Overall the methodological changes have minimal impact. If the 2009 methodology is applied to 2010 data the percentage of pupils in maintained mainstream schools making expected progress in English is $70.3 \%$, compared to $70.4 \%$ using the revised methodology, an increase of 4.8 percentage points from 2009. In mathematics the percentage of pupils making expected progress in maintained mainstream schools is $62.9 \%$ when either methodology is applied, an increase of 4.2 percentage points from 2009 based on the previous methodology.

## How the methodology differs from that published in the 2010 Performance Tables

The school level figures published in the 2010 Performance Tables are calculated differently from the figures published in this SFR. The main methodological differences are:

- The figures in the Secondary School Performance Tables use only Key Stage test results whereas those in this SFR use teacher assessments for some pupils (those who achieved a level 2 or a non-numerical level in the test). This means that pupils who had a teacher assessment but did not have a Key Stage 2 test result are included in the measure using the new methodology but would have been excluded from the measures published in the 2010 Secondary School Performance Tables. This means that 11,242 additional pupils have been included in the English measure and 15,736 additional pupils have been included in the mathematics measure.

## Rounding

Any percentages given in this SFR are given to one decimal place. The rounding convention is as follows: any fractions of 0.05 and above will be rounded up, anything less than 0.05 will be rounded down, e.g. 85.686 will be rounded to $85.7 ; 85.623$ will be rounded to 85.6.

## Additional Information

In line with the Government's agenda to make data more accessible, school level underlying data for 2010 will be published at http://www.education.gov.uk/rsgateway/DB/SFR/s001010/index.shtml on 9 June 2011 in the 'Publication's Underlying Data' section.

## A National Statistics publication

National Statistics are produced to high professional standards set out in the UK Statistics Authority Code of Practice for Official Statistics. They undergo regular quality assurance reviews to ensure they meet customer needs. They are produced free from any political interference.

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

## Related publications

The Statistical First Release providing revised Key Stage 2 National Curriculum Assessment results and measures of progress between Key Stage 1 and Key Stage 2 was published on 14 December 2010:

- Ocal Authorit, Region and the Total maintained mainstram tigures do not include pupils recently arived from overseas

4. Pupils included are those at the end of Key stage 4 who have valid matched $\mathrm{KS2}$ ressult or teacher assessment. Pupis with no prior attainment record are excluded from the calculation unless they are ungraded or have achieved grade $B$ or above at $G C S E$.
5. Cheshire West and Chester and CCeshire East replaced Cheshire Local Authority in April 200

Table 3: Percentage of pupils in maintained mainstream schools making expected progress in mathematics between Key Stage 2 and Key Stage 4, by Local Authority and Region²
Year: $2008-2010^{2}$
Coverage: ${ }^{2}$ England ${ }^{3}$,
This table was updated on 20 June 2011 to correct errors that were present in the figures for the London regional sub-totals for columns relating to 2008 . The grand totals across all regions were erroneously duplicated in these cells.

2. Maintained main been used for all years.

KS2 result or teacher assessment. Pupils with no prior atainment record are excluded from the calculation unless they are ungraded or have achieved grade B or above at GCSE:
Cheshire East teplaced Cheshire Local Authority in April 2009

Table 4: Percentage of pupils in maintained schools making expected progress in English between Key Stage 2 and Key Stage 4, by Local Authority and Region
Year: 2008-2010 ${ }^{2}$
This table was updated on 20 June 2011 to correct errors that were present in the figures for the London regional sub-totals for columns relating to 2008. The grand totals across all regions were erroneously duplicated in these cells.

1. Local Authorit, Region and the Total maintained figures do not include pupils recently arived from overseas.
2. Final data has been used tor all years

Table 5: Percentage of pupils in maintained schools making expected progress in mathematics between Key Stage 2 and Key Stage 4 , by Local Authority and Region ${ }^{2}$
Year: 2008-2010 ${ }^{2}$
This table was updated on 20 June 2011 to correct errors that were present in the figures for the London regional sub-totals for columns relating to 2008 . The grand totals across all regions were erroneously duplicated in these cells.
