¹The figures provided were collected from the probation trusts via the now decommissioned HR Data Warehouse, which was subject to the expected level of inaccuracy inherent in any large-scale administrative system. The probation trusts have the ability to resubmit historical data which may result in occasional variations in subsequent reports. Please note the following issues relating to the data provided:

- 1) Derbyshire were unable to submit data to the HR Data Warehouse for April through to November 2011 due to local technical issues.
- 2) Due to the nature of some accident/incidents in FY 2011/12, some trusts were unable to assign appropriate severity levels to one or more of their accidents/incidents and therefore these have been classed as 'not recorded' in the report. This is applicable to the following trusts: Avon & Somerset, Devon & Cornwall, Warwickshire and West Mercia.
- 3) Information on accidents/incidents at severity levels 5 and 6 in York & North Yorkshire is not provided in the report as they only provide information on severity levels 1 - 4 accidents/incidents.
- 4) This report was first published in November 2012 but the numbers of accidents/incidents reported for Q1 for London were subsequently found to be understated due to a local coding error. The report was updated to incorporate the corrected Q1 figures for London and re-published in July 2013.
