

Exercise

1. Discuss in your groups and answer the following:
 - i. Where should a child be in terms of their physical development:
 - by the age of 1?
 - by the age of 3?
 - ii. Where should the child be in terms of their cognitive development:
 - by the age of 1?
 - by the age of 3?
 - iii. Where should the child be in terms of their emotional development:
 - by the age of 1?
 - by the age of 3?
2. How do parents need to improve skills in order to support the child's development?

Take time to read the Handout Child Development Chart and then discuss your findings in the large group.
