

## ESF Programme Summary – 14 - 19 NEET

### Overview

These contracts will support young people who are aged between 14 and 19, and either not in education, employment or training (NEET) or at risk of becoming NEET. These young people will likely be those who face multiple barriers to their participation and need a different type of offer of 14 -19 provision to engage them in learning and keep them engaged. Successful organisations will engage with young people and meet their needs by providing individually tailored solutions locally, leading to the onward progression of the individual into education or employment with training. This will lead to an increase in participation in education and training and reduction in the number of young people who are at risk of being NEET or are already NEET.

### Current Contractors:
