SCHEDULE FOR THE PUBLICATION OF OFFICIAL STATISTICS APRIL 2012 TO SEPTEMBER 2013 (PROVISIONAL)

INTRODUCTION

This Statistical Release announces the planned schedule for the publication of statistics by the Department for Education (DfE) for the period April 2012 to September 2013. The schedule covers the National Statistics and Official Statistics that DfE expects to publish throughout the next 18 months. National Statistics are the subset of Official Statistics that have been assessed or deemed to be compliant with the Code of Practice for Official Statistics.

The schedule provides a provisional list of the National Statistics publications (Statistical First Releases, Bulletins and Volumes) and official statistics publications due to be released in the next eighteen months. Specific release dates will be announced at least 4 weeks in advance of release on DfE's Research and Statistics Gateway, at:

<http://www.education.gov.uk/rsgateway/whatsnew.shtml>

and on the UK Statistics Authority Publication Hub, at:

<http://www.statistics.gov.uk/hub/release-calendar/index.html>.

For statistical releases with fixed release dates, specific release dates are given here in this schedule.

The DfE's Statement of Compliance with the Pre-release Access to Official Statistics Order 2008 sets out the procedures for pre-release access to statistics within the Department, at:

<http://www.education.gov.uk/rsgateway/nat-stats.shtml>.

Statistical Releases are normally released at 09:30 and are made available to all users at that time.

REVISIONS TO THE SCHEDULE

If the Department publishes or plans to publish any statistics not listed in the schedule then these statistics will be announced on the Research and Statistics Gateway and UK Statistics Authority Publication Hub mentioned above. If it proves necessary to change any pre-announced release date, an explanation will be provided as far in advance as possible of the planned release date. The next schedule is due to be announced in September 2012.

This schedule covers the period from April 2012 to September 2013 and reflects the position as at the point of publication. Additional ongoing work to reduce data burdens or rationalise outputs may impact on the publication programme. Announcements will be made on our Research and Statistics Gateway when definitive information is available. Known changes in scope or discontinuations are listed below.

NEW PUBLICATIONS

Education destinations of Key Stage 4 pupils and 16-18 year olds in 2009/10

This Experimental Statistics release will be published in July 2012. It contains figures showing the proportion of KS4 pupils and 16-18 year olds going onto education destinations a year after completing compulsory schooling or post-16 education. The figures will inform student/parental choice and enable institutions to improve their service provision. Figures on the education and employment destinations of 16-18 year olds in 2010/11 will be published in May-June 2013.

Income and expenditure in local authority maintained schools

This Statistical Release was published in the current format for the first time on 15th December 2011. The Statistical Release presents information on the income and expenditure of local authority (LA) maintained schools in England as provided by schools. The source data for the Statistical Release is taken from the Consistent Financial Reporting (CFR) exercise at school level. Information from CFR is also published around the same time as the Statistical Release within the online LA level Benchmarking exercise, and as part of the Achievement and Attainment Tables where the school level financial information is linked to attainment figures.

National Curriculum Assessments Review Outcomes 2012 (Provisional)

This report provides provisional information on the outcomes of clerical reviews and reviews of marking for the 2012 Key Stage 2 National Curriculum Assessments in English reading and mathematics. In 2012 the report will provide information on review requests and review outcomes for the level 6 tests as well as the level 3 to 5 National Curriculum tests. The report is provisional as the data may not yet take account of the outcomes of any process review applications and/or any review applications following maladministration investigations.

MERGED PUBLICATIONS

Referrals, assessments and children and young people who are the subject of a child protection plan (2011-12 Children in Need census, Provisional)

and

Children In Need in England, including their characteristics and further information on children who were the subject of a child protection plan (2011-12 Children in Need census, Final)

The "Characteristics of Children in Need in England, 2011-12" publication will be published in October 2012 and is a rationalisation of two publications from previous years. In 2011, this publication was released in a provisional and reduced format in September with final and additional tables being published in November. Consultation with users and colleagues has identified that there is no longer a need for early provisional information and users would prefer to see final data being released earlier. The removal of the provisional publication allows for a single publication of final data to be brought forward from November to October in 2012.

Special Educational Needs: statements issued within 26 weeks in 2011-12

We have combined the contents of three of our statistical releases on special educational needs and are planning to publish two main statistical releases. The statistical tables on statements issued with 26 weeks were previously published in a separate statistical release. They will be published as additional tables in October 2012 following the Statistical First Release: Special Educational Needs in England in June 2012. They will be published at the same time as the Statistical Release on Children with Special Educational Needs: An Analysis – 2012.

CHANGES IN SCOPE OF PUBLICATION

Primary School (Key Stage 2) Performance Tables in England

and

Secondary School (Key Stage 4) Performance Tables in England

As of the December 2011 (KS2) and January 2012 (KS4) publications, these releases now incorporate information on schools' spend for the financial year 2010-11, including data grouped into categories of income and spending; and schools' workforce data. The spend tables also show a headline attainment indicator for KS2 and KS4.

Childcare & Early Years Providers Survey 2012

Currently this is an annual publication with a release scheduled for September each year. Discussions are taking place which may see this change, with a release every two years from September 2012. This means that the September 2012 (Childcare & Early Years Providers Survey 2011) and September 2014 (Childcare & Early Years Providers Survey 2013) publications will go ahead but there may not be a publication in September 2013.

DISCONTINUED PUBLICATIONS

Secondary School Pupils Resident in London Boroughs

The 2011 Statistical Bulletin on School Destinations of Secondary School Pupils Resident in London Boroughs was scheduled for publication in September 2011. This was delayed pending consultation with users on the requirements for publication including the possible discontinuation. Evaluation of the consultation concluded that the publication was of interest to a niche audience and that meeting this requirement may not be the most effective use of resources. In addition an assessment of the impact of dropping the publication on a permanent basis concluded that the impact would be minimal. The National Statistician raised no objections to the recommendation to no longer produce these official statistics.

A full summary of the evidence can be found in the [User Consultation section](#): School Destinations of Secondary School Pupils Resident in London Boroughs 2010 Bulletin - [User Consultation feedback - February 2012](#).

DELAYED PUBLICATIONS

Childcare and Early Years Survey of Parents 2010

Owing to necessary data verification work, the publication of this survey was rescheduled for April - May 2012. The actual month of publication will be June 2012 because the validation work took longer than planned. The 'Children and Early Years Survey of Parents 2011' will be published in November-December 2012.

RELEASE OF FURTHER DATA ALONGSIDE THE MAIN STATISTICAL RELEASES

Additional tables

In addition to the main releases listed, further information can be released in the form of additional tables. Typically, these may be Local Authority level tables relating to the national tables in the main release, or updated tables using revised or final data. These additional tables will be either identified within the releases themselves or separately announced on our website. They are not listed separately in this schedule.

Underlying data

As part of a Government drive for improved data transparency, we will simultaneously release the underlying data alongside the main publication, or make it available as soon as possible after the release of the main publication. Where data protection and resources permit, this supporting data will include a combination of files in an open standardised format and data at finer levels of detail. In some instances underlying data will not be released at the same time as the main publication. Publications where this is the case include:

School Workforce in England, November 2011

This release will be published in April 2012. The underlying data is likely to be published in May 2012.

Children Looked After by Local Authorities in England – Year Ending 31 March 2012

This release will be published in September 2012, with the underlying data likely to be published in November 2012.

Outcomes for Children looked after by local authorities in England, 2012

This release will be published in December 2012, with the underlying data likely to be published in March 2013.

USER ENGAGEMENT

DfE statisticians engage with those users interested in specific subject areas on the timing, frequency or content of publications - for more information see <http://www.education.gov.uk/rsgateway/usercons.shtml>. Wider comments on the overall breadth and depth of information produced and the way in which it can be accessed should be sent to users.statistics@education.gsi.gov.uk.
