Dear [REDACTED]

## **REQUEST FOR INFORMATION: NUMBER OF CULLED BADGERS**

Thank you for your request for information about culled badger numbers which we received on 17 December. We have handled your request under the Environmental Information Regulations 2004 (EIRs).

The EIRs apply to requests for environmental information, which is a broad category of information defined in regulation 2 of the EIRs. Public authorities are required to handle requests for environmental information under the EIRs. They give similar access rights to the Freedom of Information Act 2000 (FOIA).

You wanted information on the number of Badgers that have been killed in the Badger cull trials up until the end of December 2013.

Defra has already released the numbers of badgers killed in the pilot culls. In Somerset the number of badgers killed was 850 and there were 708 badgers culled in Gloucestershire.

On 11 October, Natural England confirmed an extension of 3 weeks to culling operations in West Somerset which has now closed. An additional 90 badgers were culled during this period bringing the total to 940. The extension to the cull in Gloucestershire halted on 29 November. An additional 216 badgers were culled during this period.

In keeping with the spirit and effect of the EIRs, and in keeping with the government's Transparency Agenda, all information is assumed to be releasable to the public unless exempt. Therefore, the information released to you will now be published on [www.gov.uk](http://www.gov.uk) together with any related information that will provide a key to its wider context. Please note that this will not include your personal data.

I also attach an annex giving contact details should you be unhappy with the service you have received.

If you have any queries about this letter, please contact me.

Yours sincerely,

**Defra TB Programme**
