Subject: Re: Follow up from UKOOG meeting: 19 September 2013 (please respond by 12 noon; Thursday 10 October 2013)

I have some comments from members which I will pass on before Thursday

Ken

Dear Ken and REDCATION

Thanks again for the opportunity to share the roadmap with UKOOG members. I understand that the meeting last month was very productive.

The next step would be to collate all the comments and issues raised to ensure that we can amend the road map to make it **useful** and **accurate** for all users.

The feedback I have received so far (partly from the meeting on the 19 Sept) include:

1. Need to make it clear what is **regulation** and what is **best practice** - and separate these out in the roadmap.
2. **Remove reference to community benefits** in the roadmap.
3. Make the roadmap for **Onshore Oil and Gas generally, and not specific to unconventional gas** - only be specific where the regulation for unconventional is different (i.e. not very often).
4. Include **contact details of who industry / members of the public could contact for each stage if there was a problem / to troubleshoot any issues.**
5. Include a best practice step in the roadmap for industry to organise **a meeting at local level between planning officers and the environment agency to talk through the plans at an early stage and encourage a joined-up approach.**

Do you or does any of your members have any further comments/ amendments? If you have already forwarded further comments to RSK (Sue or Dave) I will pick them up as I intend to contact them to ensure we have all relevant comments in one place.

We are planning to commission this work by close this Thursday so it would be helpful to have all the changes by 12 noon that day (although it would be better to have a comprehensive list first so please let me know if your members need more time and if so, how much more).

Many thanks for your kind cooperation.
