Dear Duarte

It as good to meet you on Friday. As mentioned Lancashire County Council passed a new shale gas motion last Thursday. The full motion can be read here:

[http://council.lancashire.gov.uk/documents/s28784/Notices%20of%20Motion%2003.10.13.p
df](http://council.lancashire.gov.uk/documents/s28784/Notices%20of%20Motion%2003.10.13.pdf)

The most common theme was that separate onshore regulation is needed of shale, they clearly don't feel totally comfortable with the current situation/or understand how it will work,. A number of people mentioned your visit tomorrow and are clearly looking forward to getting a view of Government's approach to regulation.

The full debate can be watched here : http://www.lancashire.public-tv/core/portal/webcast_interactive/112864

I hope this helps

Kind regards
