**Subject:** Follow up to our meeting

Dear both

Thanks for a productive meeting (its like being set homework)

I have had a chat with REDACTIONREDACTION at IGas who is probably the main proponent of BRR

Interestingly they have just completed their own annual community funding initiative with some good case studies – as the largest operator of onshore wells they are a good company to talk to

He would like to discuss both issues – I think you will find he is pragmatic and if you can fit him in before next week that would be good

HE will contact you directly

Regards

Ken
