REDACTION

Thanks for the mail. Yes we've had quite a summer as well! I've just got back from a holiday thanks – hope you had a break as well.

Look forward to meeting up. Let me know whether you want a one to one meeting or will be bringing in colleagues and what you would like to cover. REDACTION can then set up the meeting and I can bring in colleagues if needed.

Kind regards

Duarte

Duarte Figueira | Head - Office of Unconventional Gas and Oil

Subject: Centrica: Meeting request

Dear Duarte,

Sorry for the delay in getting in touch. We've been busy responding to Govt consultations over the summer! I hope you managed to get a break at some point.

Over the summer, we have held a number of meetings with MPs, had a couple of discussions with Ken Cronin and met with DECC and HMT to take them through our thoughts and modelling on the pad allowance. We are also engaged with a number of academics including Professor Richard Davies at Durham. Our polling shows that academics are the most trusted sources of information to the public so we are looking at ways to work with the academic community to present the scientific facts around shale.

I would be very interested to know your thoughts of what you see the current challenges to be from your own observation and from your conversations with politicians, regulators, academics, and local stakeholders. With this in mind, would you be willing to meet in the next couple of weeks? I can update you on our work and planned activity over the next few months.

I look forward to hearing from you.

Kind regards

REDACTION
