

Hi, I thought I'd take the time to add a comment re Cumbria Waste Consultation (for a friend who sent to me some details and issue at stake -asking for support). It does seem to make sense that the other two council areas (Copeland and Allerdale) could be more suitable instead - from the short message she'd sent - so here's another 'voice' just mentioning that perhaps it could be best thing to consider the other two councils who have offered their areas for such storage if they're more suitable. Thanks.

Kind regards
B Joyce
