OIOO Assessment	GREEN	
Overall comments on the robustness of the OIOO assessment		
<p>The IA says that the proposal is a regulatory measure that will be net beneficial for business (a zero IN). This appears to be a reasonable assessment of the policy and consistent with OIOO methodology.</p>		
Overall quality of the analysis and evidence presented in the IA		
<p>The issues raised in our previous Opinion (26/10/2012) have now been addressed. In particular, the Department has sought to provide evidence where possible, such as reference to two independent research reviews and stakeholders responses, to support the assessment of the impact on business.</p>
