## PE and Sport Survey 2009/10: Children and young people's participation in sporting opportunities

### INTRODUCTION

This publication reports the percentage of pupils participating in at least 120 minutes of curriculum PE, as measured by the annual PE and Sport Survey (undertaken by TNS-BMRB on behalf of the Department for Education). Data is given for the academic year 2009/10 for all Local Authorities in England.

The figures relate to the previous Government's target on PE and Sport (National Indicator 57). They are published for the first time this year as official statistics as they form part of a regular time series.

### KEY POINTS

#### Curriculum time spent on PE

- Across Years 1-11, 86% of pupils participated in at least 120 minutes of curriculum PE each week, compared with 81% in 2008/09.
- Across Years 1-13, 82% of pupils participated in at least 120 minutes of curriculum PE each week, compared with 77% in 2008/09.
- Data was collected by gender for the first time in 2009/10, which showed that 81% of girls and 84% of boys in Years 1-13 participated in at least 120 minutes of curriculum PE each week.
- Figures show that across the primary years, i.e. Years 1-6, the majority of children are participating in at least 120 minutes of curriculum PE (93% of Years 1-2 and 95% of Years 3-6); however, on entry to secondary school, a difference begins to emerge, with a decrease in the numbers participating becoming clearly evident (87% of pupils in Years 7-9; 64% in Years 10-11, dropping to 23% in Years 12-13). When compared to 2008/09, figures for Years 1-9 are similar: 90% of Years 1-2, 93% of Years 3-6, and 85% of Years 7-9 participated in 120 minutes of curriculum PE in 2008/09. For Years 10-13, improvements can be seen: in 2008/09, 45% of pupils in Years 10-11 and 8% of pupils in Years 12-13 were participating in 120 minutes of curriculum PE.

#### Calculation for participation in PE and sport during curriculum time

Percentage of children and young people participating in PE and sport during curriculum time is calculated as follows:

$(m/n) * 100$ , where:

m = the number of pupils the PE and Sport Survey reports are participating in at least 2 hours of curriculum PE per week in a particular local authority; and

n = the total number of pupils for that local authority in the PE and Sport Survey

A worked example is included below:

If there are a total of 500,000 young people aged 5-16 years, and of these, 200,000 participate in 2 hrs or more PE a week, then as a proportion:

$$(200,000 / 500,000) * 100 = 40\%$$

The target was to increase the percentage of 5-16 year olds participating in at least two hours a week of high quality physical education (PE) and sport at school during curriculum time. Good performance is measured as one that is above the national average.

## TABLES

**Table 1** Percentage of pupils participating in at least 120 minutes of curriculum PE by Local Authority.

**Table 2** Breakdown of percentage of pupils participating in at least 120 minutes of curriculum PE by Local Authority.

## TECHNICAL NOTES

This publication provides data on the percentage of pupils participating in at least 120 minutes of curriculum PE. This data is collected through the PE and Sport Survey, which is a census of all schools in England, achieving a response rate of 99.8% (21,436 schools).

The full research report titled the "PE and Sport Survey 2009/10", reference DFE RR032, can be found on the DfE website.

## ENQUIRIES

1. Enquiries about the figures in this statistical release should be addressed to:

Nicola Mackenzie  
Schools Analysis and Research Division  
Department for Education  
Sanctuary Buildings  
Great Smith Street  
London SW1P 3BT  
Telephone number: 020 7783 8622  
E-mail: Nicola.MACKENZIE@education.gsi.gov.uk

2. Press enquires should be made to the Department's Press Office at:

Press Office  
Department for Education  
Sanctuary Buildings
