MANAGEMENT COMMENTARY

Nature, objectives and strategies of the Northern Ireland Audit Office

The Comptroller and Auditor General for Northern Ireland is an Officer of Parliament/Northern Ireland Assembly appointed to carry out the external audit of central government departments, executive agencies and many other public bodies. The audit service is based on recognised professional standards and matches best practice in the UK. The Office of Comptroller and Auditor General is wholly independent of Government.

Since 1987, the Comptroller and Auditor General for Northern Ireland has been supported by the Northern Ireland Audit Office, the successor body to the Exchequer and Audit Department. The Audit and Accountability Order 2003 provided for the amalgamation of Local Government and Health audit functions with the central government audit function in Northern Ireland.

The Office is comprised of four Divisions: three operational divisions (Central Government Financial Audit, Central Government Value for Money Audit and Local Government Audit) and one central support services division. The three operational divisions are headed by an Assistant Auditor General and the central support division is headed by the Deputy Comptroller and Auditor General, they, in turn, report to the Comptroller and Auditor General for Northern Ireland.

The Northern Ireland Audit Office's strategic objectives are:

- to provide effective support to Parliament/Northern Ireland Assembly in its task of holding Northern Ireland Departments, executive agencies and other public bodies to account for their use of public money;
- to provide support to Northern Ireland public sector bodies in their pursuit of improved financial reporting and value for money, including support for efforts to combat public sector fraud;
- to meet the requirements placed on the Office by legislation (principally, the Audit (Northern Ireland) Order 1987; the Northern Ireland Act 1998; the Government Resources and Accounts Act (Northern Ireland) 2001; and the Audit and Accountability (Northern Ireland) Order 2003). This includes fulfilment of the Office's obligations under Section 75 of the Northern Ireland Act 1998 in relation to promotion of equality of opportunity and good relations in all its policies and procedures;
- to provide effective local government audit to the Department of the Environment; and
- to value staff and develop their full potential.

The principal activities of the Comptroller and Auditor General for Northern Ireland and the Northern Ireland Audit Office are:

- authorising the issue of public funds from the Consolidated Fund for Northern Ireland;
- auditing and reporting on the annual accounts of public bodies;
- examining and reporting to Parliament/Northern Ireland Assembly about whether public bodies spend taxpayers' money economically, efficiently and effectively; and
- examining risks to regularity, propriety and financial control and reporting results to individual public bodies and Parliament/Northern Ireland Assembly.

A review of Performance in 2005-06

Chapter 1 of NIAO's Corporate Plan 2007-08 to 2009-10 provides further detail on the performance of NIAO over the 2005-06 year, in summary it notes:

- NIAO audited 235 accounts, including 19 resource accounts (2004-05 238 accounts). Appendix 2 provides a trend in the number of accounts audited by NIAO;
- During 2005-06 audited bodies implemented 397 significant changes as a result of recommendations made by us (2004-05 310). Some of these recommendations led to savings and cost reductions which we have estimated to be £42M for the 2005-06 year (2004-05 £41M). The methodology applied is one devised by the National Audit Office (NAO) and the 2005-06 figures have been subject to audit.
- NIAO published 11 value for money reports (2004-05 11). Appendix 1 provides a list of the reports published in the 2005-06 year;
- NIAO produced an annual report on the results of financial audit work, drawing Parliament's attention to significant accountability issues arising from the audits;
- NIAO responded to all enquiries from elected representatives and members of the public;
- NIAO assisted Northern Ireland Departments with the further development of resource accounting and preparations for Whole of Government Accounts;
- The Office increased its support for departments' action against public sector fraud and continued to encourage departments' participation in the National Fraud Initiative;

- The action taken to support the strengthening of Governance in the public sector. During 2005-06 NIAO appointed a new Director to its Senior Management Group with specific responsibility for this area of work;
- That NIAO continued to help departments deliver the Government's commitment to faster closing of accounts; and
- The improved audit scrutiny of health sector bodies.

In achieving this performance, the Office used £9.26 million resources. After taking account of £1.87 million income, the Office's net resource requirement in 2005-06 was £7.39 million, £0.65 million less than the sum approved by Parliament in the Office's Supply Estimate.

The Office generated income of £1.97 million, £0.1 million more than the sum authorised to be used by Parliament as Accruing Resources.

Capital investment was £0.18 million compared with a budget of £0.265 million.

The resource account shows a variance of £0.84million between the estimated Net Cash Requirement and the outturn. This variance arose because:

- NIAO's staff complement is 146 whole time equivalent. As Note 9 to the resource account shows the actual whole time equivalent for the year was only 140.
- There was less than anticipated capital spend. The Estimate for the year was £265K however the outturn was only £178K. The difference between the Estimate and Outturn was funding due to be spent on replacing and developing the IT infrastructure. Following a review of NIAO's accommodation it was decided that a smaller part of this work than originally intended would be undertaken in 2005-06 and the rest would be taken forward in 2006-07 as part of the larger accommodation project.
- Invoices in respect of legal fees had not been received by the year end.
- NIAO also increased its provisions figure in respect of early retirements and a personnel issue, this will result in cash payments being made in 2006-07 and 2007-08.

Going forward, Appendix 3 to the 2007-08 to 2009-10 Corporate Plan provides details of the estimated expenditure and accruing resources for 2006-07 and the planned expenditure and accruing resources for 2007-08 to 2009-10.

Future Development

The Corporate Plan which covers the period 2007-08 to 2009-10 provides detail on NIAO's strategic issues. These are listed in the Introduction to the plan and include areas such as:

- Supporting the strengthening of Governance in the public sector;
- Meeting the need for intensive audit scrutiny of the changing face of public sector administration;

- Addressing the changes in auditing and accounting standards and public sector developments;
- Addressing the impact of new legislation affecting local government accounting and auditing;
- Expanding work on performance measurement and validation;
- Helping to deliver the Government's commitment to faster closing of accounts and supporting the move to Whole of Government Accounts;
- Meeting the need for increased audit coverage of IT systems;
- Supporting the continuing expansion of PFI/PPP work in Northern Ireland;
- Closer monitoring of departments' anti-fraud action; and
- Supporting the development of the Accounting Services Programme across Northern Ireland.

NIAO will also face two major challenges in the planning period;

- The future of the Northern Ireland Assembly
- The review of public administration

Chapters 2 to 4 of the Corporate Plan provide further detail on how these strategic issues and challenges will be met.

Resources

Staff Resources

During the 2005-06 year NIAO had a total of 140 whole time equivalents. Of these staff 54 per cent or 76 whole time equivalents were qualified accountants.

NIAO is actively engaged in the recruitment of graduate trainee accountants and currently has 13 trainees with another six due to start before the end of September 2006.

NIAO considers its staff to be its most valuable asset and recognises it is important that staff are appropriately trained and experienced. Accordingly in 2005-06 staff undertook a total of 1426 staff days of training at 94 separate training events. The full cost of this to NIAO was £594,351. This does not include the cost of professional studies undertaken by the graduate trainee accountants.

Consistent with his responsibilities as Accounting Officer, the Comptroller and Auditor General for Northern Ireland has issued to all Northern Ireland Audit Office employees:

- a Vision, Mission and Values Statement the purpose of the Statement is to ensure that each employee undertakes the work of the Office by reference to a clear set of core values which include integrity and professional excellence; and
- a Code of Conduct the purpose of the Code is to provide all staff with clear guidance on the standards of corporate and personal conduct expected of them. The code includes statements on the conduct of Northern Ireland Audit Office work, confidentiality, conflicts of interests and personal conduct.

Financial Resources

Most of the activities undertaken by NIAO flow from the statutory functions and obligations of the Comptroller and Auditor General for Northern Ireland and are funded by parliamentary grant.

In certain circumstances the Comptroller and Auditor General for Northern Ireland may charge a fee for audits. The Northern Ireland Audit Office has an established policy on the circumstances in which fees are charged.

The Northern Ireland Audit Office's fixed asset base comprises its headquarters building, with associated fixtures and fittings and information and communications technology equipment. The Office continues to expand its asset base to support the increasing use of information technology in its work, and to refresh its information technology hardware and software.

Principal Risks and Uncertainties

The Northern Ireland Audit Office identifies its risks in accordance with the guidance issued by Treasury in its publication ` The Orange Book – Management of Risk Principles and Concepts'.

Each of the four divisions within NIAO has its own risk register and from these an overall corporate risk register is produced. The corporate register is prepared on the basis of an assessment of the risks impacting on the achievement of NIAO's objectives for 2005-06 as laid out in its Corporate Plan. These documents are considered to be working documents subject to regular review and update. Each risk register includes details of how the risk is managed or what needs to be done to ensure it becomes managed, together with target dates and the names of individuals responsible for ensuring that the risk is managed.

The corporate risk register contains six high level risks many of which, if they were not dealt with, would result in damage to the reputation to C&AG. These are outlined below:

1. NIAO's resource accounts qualified or reported on.

In order to avoid this happening NIAO has put in place procedures to ensure that;

 Accruals based management information is provided on a monthly basis to budget holders and senior management for their scrutiny

and the subsequent amendment of the accounting system. This information covers both outturn to date and projected budget;

- Quarterly resource accounts are produced;
- Budget holders are fully aware of their responsibilities and with the concepts of regularity and propriety; and
- Appropriate training courses are attended by staff involved in the process.
- 2. Failure to produce a Corporate Plan and subsequent Estimate that secures adequate resources for NIAO.

In order to avoid this happening NIAO work to a timetable with clear target dates for the production of the Corporate Plan and the Estimate. This timetable is communicated to heads of divisions together with details of the input required from each. The day to day monitoring of the process is the responsibility of an audit manager with regular meetings with C&AG and Assistant Auditor Generals before and during the process.

3. Amounts issued from Consolidated Fund not in accordance with Parliament's authorisation.

In order to ensure that this does not occur NIAO has properly documented procedures in place which are regularly reviewed and updated as necessary. All staff involved in the approval process are provided with these procedures.

All requests for supply issues are subject to two levels of review before final approval is given.

4. Inappropriate audit opinions placed on financial statements.

NIAO has put in place a wide range of controls to ensure that the correct opinion is placed on all accounts, some of which are;

- Common audit methodology applied to all audits with staff appropriately trained in the methodology;
- Two stage review applied to all audits;
- Independant review of high risk audits;
- Regular training updates for staff covering audit and accounting standards;
- Hot review of high risk accounts;
- Training in regularity and propriety; and
- Close liaison with private sector auditors contracted by us to carry out audits including an appropriate level of review of their work.

5. Failure to provide constructive advice to audited bodies.

In order to avoid this risk materialising;

- Senior management/statutory auditors attend audit committees and ensure regular contact with auditees; and
- Senior management/statutory auditors will sign off on all auditee communication.
- 6. Failure to deliver the right number of good quality VFM reports

Procedures to deal with this risk include:

- The identification of VFM future programme of work through the strategic and corporate planning process, leading to a programme of survey, monitoring and risk assessment;
- Supporting staff when necessary with specialist consultants, reference partners and temporary appointments;
- Internal liaison with financial auditors;
- Appropriate staff training ; and
- Internal and external quality review.

Relationships

In 2005-06 NIAO had important relationships with a number of bodies, namely:

- The Public Accounts Commission for the approval of its Corporate Plan and Estimate advised by the Public Accounts Committee and the Department of Finance and Personnel.
- The Public Accounts Committee which sets the number of VFM reports it expects NIAO to produce, suggests topics that NIAO should look at and holds evidence sessions twice a year on some of these reports.
- Other audit institutions, mainly NAO, Wales Audit Office and Audit Scotland. NIAO liaises closely with these bodies in terms of identification of best practice. NIAO carries out audits on behalf of NAO of GB bodies based in Northern Ireland such as Court Service, the Northern Ireland Office and Police Service of Northern Ireland.
- Private sector audit firms which we contract to carry out some of our audits.

8th June 2006

Directors' Report

Review of 2005-06

The 2005-06 year continued to be a period of consolidation for the Northern Ireland Audit Office following the extension of its audit remit to cover Local Government and Health Service as well as Central Government bodies, arising as a result of the Audit and Accountability Order 2003. There continued to be movement of staff between the various audit sectors which allowed NIAO to reap the benefit of economies of scale and the opportunity to further standardise audit processes and training.

The remaining key element of integration, i.e. the physical integration of the three audit functions, will be taken forward and completed in the 2006-07 financial year.

As the devolved administration in Northern Ireland remained suspended in 2005-06, NIAO reported the results of its work to Parliament. During that year NIAO contributed to Parliamentary Scrutiny in a number of ways and these are outlined in the Management Commentary report.

Further detail on the work of the Northern Ireland Audit Office, its future challenges, performance in the 2005-06 year and the impact of its work can be found in its Corporate Plan. The Corporate Plan is a three year rolling document which is produced and presented to the Public Accounts Commission (TPAC) in July each year. When devolution is not suspended the Corporate Plan is presented to the Audit Committee of the Northern Ireland Assembly. The plan covering the period 2007-08 to 2009-10 will be presented to TPAC along with the 2005-06 Annual Report and Accounts. The 2007-08 to 2009-10 Corporate Plan will then be available on the Northern Ireland Audit Office website www.niauditoffice.gov.uk

The information in the Corporate Plan underpins the Resource Budget and Estimates. Estimates are prepared annually by the Northern Ireland Audit Office and are presented to TPAC for approval in February each year. During the suspension of devolution in Northern Ireland, responsibility for the oversight of the Northern Ireland Audit Office's Estimates reverted to the Public Accounts Commission at Westminster.

Membership of Senior Management

Comptroller and Auditor General

Under the provisions of the Northern Ireland Act 1998 the office of the Comptroller and Auditor General for Northern Ireland is a Crown appointment made on the nomination of Parliament/Northern Ireland Assembly. The Comptroller and Auditor General for Northern Ireland retains office unless removed by a resolution of Parliament/Northern Ireland Assembly and supported by at least two thirds of its members. Under the provision of the Audit (Northern Ireland) Order 1987 the Comptroller and Auditor General is a Corporation Sole. The current Comptroller and Auditor General for Northern Ireland ICB.

Senior Management Group

Senior Executives of the Northern Ireland Audit Office are members of the Senior Management Group by virtue of their executive positions and remain in the Group during their term of appointment in the Office. The Group is chaired by the Comptroller and Auditor General for Northern Ireland and is comprised of one Deputy Comptroller and Auditor General, three Assistant Auditor Generals and eight Directors. The role of the Group is to advise the Comptroller and Auditor General for Northern Ireland. The Deputy Comptroller and Auditor General has been appointed by the Comptroller and Auditor General for Northern Ireland on the discharge of his statutory duties. The Deputy Comptroller and Auditor General has been appointed by the Comptroller and Auditor General for Northern Ireland as the Principal Finance Officer whose responsibilities are the same as those set out in "Government Accounting Northern Ireland" for the Principal Finance Officers of government departments.

Senior Management Group Members

The members as at 31 March 2006 were:

Comptroller and Auditor General	J M Dowdall CB
Deputy Comptroller and Auditor General	C J Moore (from 1.5.05)
Assistant Auditor Generals	J Buchanan (Chief Local Government Auditor)
	K J Donnelly
	B J Edgar (from 1.4.05)
Directors	R L Hutcheson
	M A L Mason (Mrs)
	J M Sides (Mrs)
	T G Woodhouse
	D Lynn
	S J A McCormick
	E Bradley (from 1.5.05)
	C Kane (Mrs) (from 1.1.06)
Non- Executive Directors	G Smyth (Office of the Comptroller and Auditor General, Dublin from 25.11.05)
	G Martin (University of Ulster from 28.4.06)

Committees

In addition to the Senior Management Group, the Comptroller and Auditor General for Northern Ireland is supported by three standing advisory committees:

The Audit Committee – comprising three Assistant Auditor Generals and chaired by a non-executive member (G Smyth). The Committee meets several times a year and addresses issues raised by the Northern Ireland Audit Office's internal and external auditors.

The Information Technology Strategy Committee – comprising two Assistant Auditor Generals, two Directors and the Network Manager, meets to monitor approved strategies and to inform the development process.

The Information Technology Security Committee – comprising one Director, one Audit Manager (Personnel) and the Network Manager.

Auditors of the Northern Ireland Audit Office

Following the suspension of devolution, the Department of Finance and Personnel, acting on the advice of the Westminster Public Accounts Commission, appointed Baker Tilly Mooney Moore (Chartered Certified Accountants and Registered Auditors) as the auditors of the Northern Ireland Audit Office. The cost of the 2005-06 audit is \pounds 6,000. Baker Tilly Mooney Moore also undertook two other pieces of work. Reviewing the impact figures disclosed in NIAO's Corporate Plan, this work cost \pounds 4,994, and updating the accounting system at a cost of \pounds 705.

Information required by the Auditor

There is no relevant audit information of which NIAO's auditors are unaware.

I have taken all steps to make myself aware of any relevant audit information and to establish that the entity's auditors are aware of that information.

Payment of Suppliers

The Northern Ireland Audit Office is committed to the prompt payment of bills for goods and services received in accordance with the Better Payment Practice Code. Unless otherwise stated in the contract, payment is due within 30 days after delivery of the invoice or of the goods and services, whichever is later.

During 2005-06 the Northern Ireland Audit Office paid approximately 99.9 per cent of bills within this standard (2004-05 98.2 per cent).

Staff Issues

The Northern Ireland Audit Office has a policy of close co-operation and consultation with the Northern Ireland Audit Office branch of the Northern Ireland Public Service Alliance and Association of First Division Officers over matters affecting staff. To ensure effective operation of this policy, a Joint Negotiating and Consultative Committee has been established. Staff involvement is also actively encouraged as part of the day-to-day process of line management and information on financial results and current and prospective developments is widely disseminated.

Equal Opportunities

The Northern Ireland Audit Office is committed to the principle of equality of opportunity in employment and has established procedures to ensure that all staff and job applicants are entitled to fair and equal treatment free from unfair and unlawful discrimination.

Disabled Persons

The Northern Ireland Audit Office is fully committed to providing equal opportunity for all staff, and disability itself is not a bar to recruitment, training or to advancement of staff within the Northern Ireland Audit Office.

Health, Safety and Welfare

It is the policy of NIAO to comply fully with the requirements of the Health and Safety at Work (Northern Ireland) Order 1978. This entails ensuring, so far as it is reasonably practicable, the health, safety and welfare of its employees at work and for others who may be affected by its operations. In addition, there is a duty to ensure that the discharge of these responsibilities shall be an integral part of the duties and objectives of NIAO. Accordingly NIAO has established procedures to ensure that this is the case. This includes having a designated Health and Safety Officer responsible for considering and advising on whether the NIAO policy statement on Health and Safety and the organisation and arrangements for carrying out that policy fulfil the requirements of the relevant legislation and regulations in force at any time. A Health and Safety Committee has also been established under the Chairmanship of the Deputy Comptroller and Auditor General and is comprised of the Health and Safety Officer and Health and Safety representatives nominated by the Trade Unions. Staff are encouraged to bring health and safety matters to the attention of these individuals.

In terms of staff welfare NIAO has access to the Department of Finance and Personnel's Staff Welfare Scheme, which exists to enable all staff to be effective at work through the provision of a professional and confidential advice and information service. NIAO has also recently signed up to the Northern Ireland Civil Service contract with Staffcare, another independent and confidential counselling, support and advice service. This service is totally external to the Northern Ireland Civil Service and NIAO.

J M Dowdall Comptroller and Auditor General for Northern Ireland 8th June 2006

Directors' Remuneration Report

Remuneration Policy

Comptroller and Auditor General

The Audit (Northern Ireland) Order 1987 provides for the remuneration of the Comptroller and Auditor General for Northern Ireland and for it to be met from the Consolidated Fund for Northern Ireland.

Senior Management Group Members

Under the provisions of the Audit (Northern Ireland) Order 1987, the Comptroller and Auditor General for Northern Ireland determines the level of remuneration for all employees within the Northern Ireland Audit Office, including senior executives on the Senior Management Group. In determining the remuneration and other terms and conditions the Comptroller and Auditor General for Northern Ireland is required to have regard to the terms and conditions applying to persons employed in the National Audit Office established under Section 3 of the National Audit Act 1983 and in the Civil Service of Northern Ireland. Each year's settlement is reviewed in the context of the NAO and Northern Ireland Civil Service settlements and the recruitment and wastage circumstances in NIAO.

Contracts of Employment

Comptroller and Auditor General

Under the provisions of the Northern Ireland Act 1998 the office of the Comptroller and Auditor General for Northern Ireland is a Crown appointment made on the nomination of Parliament/Northern Ireland Assembly. The Comptroller and Auditor General for Northern Ireland retains office unless removed by a resolution of Parliament/Northern Ireland Assembly and supported by at least two thirds of its members. Under the provision of the Audit (Northern Ireland) Order 1987 the Comptroller and Auditor General is a Corporation Sole. The current Comptroller and Auditor General for Northern Ireland ICB.

Senior Management Group

Appointments to senior management are made by C&AG on the basis of fair and open competition. Unless otherwise stated the officials covered by this report hold appointments which are open-ended until they reach the normal retiring age of 60. When holding competitions and making appointments C&AG will take into account the Northern Ireland Civil Service Commissioners' Recruitment Code.

The Deputy Comptroller and Auditor General (Ciaran Moore) although having reached the age of 60 in September 2005 continues to work for the Northern Ireland Audit Office.

Salary and Pension Entitlements

The following sections provide details of the remuneration and pension interests of the C&AG and senior officials of the Office.

Remuneration of the Comptroller and Auditor General for Northern Ireland

By statute the remuneration of the Comptroller and Auditor General for Northern Ireland and associated employer's national insurance contributions are met directly from the Consolidated Fund, rather than from Supply. For the year ended 31 March 2006 the amount paid in respect of the Comptroller and Auditor General's remuneration was £170,283 (2004-05 £158,594). This was composed of the following;

Salary - £126,108 (2004-05 £122,435); Social Security Costs -£14,540 (2004-05 £14,121); and Other Pension Costs - £29,635 (2004-05 £22,038).

Pensions

Comptroller and Auditor General

The Audit (Northern Ireland) Order 1987 provides for pensionable service by the Comptroller and Auditor General for Northern Ireland to be covered by the Northern Ireland Principal Civil Service Pension Scheme (PCSPS (NI)) which is non-contributory and unfunded. The Order also provides for defined pension benefits to be met from the Consolidated Fund for Northern Ireland and no liability rests with the Northern Ireland Audit Office.

Salary and pension entitlements of the most senior officials of the Northern Ireland Audit Office were as follows:

(2004-05 figures ar							
Name and Title	Salary (as defined below)	Real increase in annual pension at age 60	Real increase in lump sum at age 60	Total accrued pension at age 60 at 31 March 2006	Total accrued lump sum at age 60 at 31 March 2006	CETV at 31/3/06	Real increase in CETV
	£000	£000	£000	£000	£000	£000	£000

(2004-05 figures are in brackets)

Salary

'Salary' included gross salary, performance pay or bonuses, any allowances to the extent that they are subject to UK taxation.

Benefits in Kind

None of the above received benefits in kind during 2005-06.

During 2005-06 NIAO had one non-executive director, Mr. Gerry Smyth from the Office of the Irish Comptroller and Auditor General. Mr. Smyth attends Senior Management Group meetings and chairs the Audit Committee. No payment was made to Mr. Smyth for attendance at these meetings.

Pensions

Pension benefits are provided through the Northern Ireland Civil Service pension arrangements. From 1 October 2002, civil servants may be in one of three statutory based `final salary' defined benefit schemes (classic, premium and classic plus). The schemes are unfunded with the cost of benefits met by monies voted by Parliament each year. Pensions payable under classic, premium and classic plus are increased annually in line with changes in the Retail Prices Index. New entrants after 1 October 2002 may choose between membership of premium or joining a good quality `money purchase' stakeholder arrangement with a significant employer contribution (partnership pension account).

Employee contributions are set at a rate of 1.5% of pensionable earnings for classic and 3.5% for premium and classic plus. Benefits in classic accrue at the rate of 1/80th of pensionable salary for each year of service. In addition, a lump sum equivalent to three years' pension is payable on retirement. For premium, benefits accrue at the rate of 1/60th of final pensionable earnings for each year of service. Unlike classic, there is no automatic lump sum (but members may give up (commute) some of their pension to provide a lump sum). Classic plus is essentially a variation of premium, but with benefits in respect of service before 1 October 2002 calculated broadly in the same way as in classic.

The partnership pension account is a stakeholder pension arrangement. The employer makes a basic contribution of between 3% and 12.5% (depending on the age of the member) into a stakeholder pension product chosen by the employee from a selection of approved products. The employee does not have to contribute but where they do make contributions, the employer will match these up to a limit of 3% of pensionable salary (in addition to the employer's basic contribution). Employers also contribute a further 0.8% of pensionable salary to cover the cost of centrally-provided risk benefit cover (death in service and ill health retirement).

Further details about the Civil Service pension arrangements can be found at the website <u>www.civilservicepensions-ni.gov.uk</u>.

Cash Equivalent Transfer Values (CETVs)

A Cash Equivalent Transfer Value (CETV) is the actuarially assessed capitalised value of the pension scheme benefits accrued by a member at a particular point in time. The benefits valued are the member's accrued benefits and any contingent spouse's pension payable from the scheme. A CETV is a payment made by a pension scheme or arrangement to secure pension benefits in another pension scheme or arrangement when the member leaves a scheme and chooses to transfer the benefits accrued in their former scheme. The pension figures shown relate to the benefits that the individual has accrued as a consequence of their total membership of the pension scheme, not just their service in a senior capacity to which disclosure applies. The CETV figures, and other pension details, include the value of any pension benefit in another scheme or arrangement which the individual has transferred to the Civil Service Pension arrangements and for which DFP Superannuation and Other Allowances Vote has received a transfer payment commensurate to the additional pension liabilities being assumed. They also include any additional pension benefit accrued to the member as a result of their purchasing additional years of pension service in the scheme at their own cost. CETVs are calculated within the guidelines and framework prescribed by the Institute and Faculty of Actuaries.

Real increase in CETV

This reflects the increase in CETV effectively funded by the employer. It takes account of the increase in accrued pension due to inflation, contributions paid by the employee (including the value of any benefits transferred from another pension scheme or arrangement) and uses common market valuation factors for the start and end of the period.

J M Dowdall Comptroller and Auditor General for Northern Ireland 8th June 2006

Statement of Accounting Officer's Responsibilities

Under Article 6(3) of the Audit (Northern Ireland) Order 1987 the Northern Ireland Audit Office is required to prepare resource accounts for each financial year of the kind mentioned in Section 9 of the Government Resources and Accounts Act (Northern Ireland) 2001, detailing the resources acquired, held or disposed of during the year and the use of resources by the Northern Ireland Audit Office during the year.

The resource accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of the Northern Ireland Audit Office, the net resource outturn, resources applied to objectives, recognised gains and losses and cash flows for the financial year.

Under the Audit (Northern Ireland) Order 1987 the Department of Finance and Personnel has appointed the Comptroller and Auditor General for Northern Ireland to be responsible as Accounting Officer for the Northern Ireland Audit Office with responsibility for preparing the Northern Ireland Audit Office's accounts and for transmitting them to the auditor.

In preparing these accounts, the Comptroller and Auditor General for Northern Ireland takes account of the requirements of the Government Financial Reporting Manual prepared by the Department of Finance and Personnel, and in particular to:

- observe the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis;
- make judgments and estimates on a reasonable basis;
- state whether applicable accounting standards, as set out in the Northern Ireland Resource Accounting Manual, have been followed, and disclose and explain any material departures in the accounts; and
- prepare the accounts on a going concern basis.

The Comptroller and Auditor General for Northern Ireland's relevant responsibilities as Accounting Officer, including responsibility for the propriety and regularity of the Northern Ireland Audit Office's finances for which he is answerable, for keeping of proper records and for safeguarding the Northern Ireland Audit Office's assets, are set out in the Accounting Officer's Memorandum issued by the Department of Finance and Personnel and published in Government Accounting Northern Ireland.

Statement on Internal Control

1. Scope of Responsibility

As Accounting Officer, I have responsibility for maintaining a sound system of internal control that supports the achievement of the Northern Ireland Audit Office policies, aims and objectives, whilst safeguarding the public funds and the Office's assets for which I am personally responsible, in accordance with the responsibilities assigned to me in Government Accounting Northern Ireland.

The Audit Committee of the Northern Ireland Assembly considers the Office's Corporate Plan and Estimate and lays the annual Estimate before the Northern Ireland Assembly. During the suspension of devolution in Northern Ireland, responsibility for the endorsement of the Office's Corporate Plan and for oversight of the Estimate reverted to the Public Accounts Commission at Westminster.

The Office's Senior Management Group directs the work of the Office. The Comptroller and Auditor General for Northern Ireland chairs the group.

There is a comprehensive reporting and accountability system provided through the Senior Management Group's meetings with me as Accounting Officer. Checks and balances are provided by Internal and External Audit and by the Office's Audit Committee.

2. The Purpose of the System of Internal Control

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of Office policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place in the Northern Ireland Audit Office for the year ended 31 March 2006 and up to the date of approval of the annual report and accounts and accords with DFP guidance.

3. Capacity to Handle Risk

The Northern Ireland Audit Office has well-established corporate planning and management arrangements which address business risks. The key elements are;

- a business strategy review;
- a three year corporate plan approved by the Northern Ireland Assembly's Audit Committee (this function is exercised by the Public Accounts Commission at Westminster during suspension of devolution);

- preparation of operational plans by each Division for the year ahead;
- agreed programmes and allocation of resources to Divisions; and
- regular monitoring of outputs and inputs by the Senior Management Group.

The Office also has well-established approaches to managing the quality of its outputs through internal and external quality assurance, the results of which are reported to the Senior Management Group.

The risk management strategy is communicated to all staff. This includes the Office's approach to risk management, the priorities, lead responsibilities and the role of individual members of staff, and monitoring and reporting arrangements.

4. The Risk and Control Framework

The four strategic areas which the Office needs to manage actively have been set out in a risk register and each Assistant Auditor General has taken responsibility for one of the areas. The areas are:

- Central Services
- Financial Audit
- Local Government Audit
- Value for Money Audit

Each of the four areas has been analysed to identify individual sub-risks which, if not managed may lead to the crystallisation of the strategic risk. For each sub-risk, controls have been identified which help to manage the risks and the action required to ensure the controls are operating.

5. Review of Effectiveness

As Accounting Officer, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the effectiveness of the system of internal control is informed by the work of the internal auditor and the executive managers within the Northern Ireland Audit Office who have responsibility for the development and maintenance of the internal control framework, and comments made by the external auditors in their management letter and other reports. I have been advised on the implications of the result of my review of the effectiveness of the system of internal control by the senior management of the Office and the Audit Committee and a plan to address weaknesses and ensure continuous improvement of the system is in place.

Twice a year the Assistant Auditor Generals report the status of each risk to the Senior Management Group, indicating the extent to which assurance can be given that the risk is being managed effectively. As necessary, Assistant Auditor Generals seek formal assurances from Directors and Audit Managers that controls have operated effectively

over the period. If necessary the report will set out remedial action being taken where a risk has crystallised.

At divisional level, the Directorate and Managers will normally review risks on a monthly basis at Divisional meetings.

An important element of the Office's approach to risk management is the early identification of new types of risk in response to business developments and changes in the environment in which the Northern Ireland Audit Office works. New sub-risks will be added to the risk register over the course of the year. Equally, some risks which become less important will be reviewed and, where appropriate, removed from the risk register.

J M Dowdall Comptroller and Auditor General for Northern Ireland 8th June 2006

Northern Ireland Audit Office

THE CERTIFICATE AND REPORT OF THE AUDITOR TO THE HOUSE OF COMMONS AND THE NORTHERN IRELAND ASSEMBLY

We certify that we have audited the financial statements of the Northern Ireland Audit Office for the year ended 31 March 2006 under the Government Resources and Accounts Act (Northern Ireland) 2001. These comprise the Statement of Parliamentary Supply, the Operating Cost Statement and Statement of Recognised Gains and Losses, the Balance Sheet, the Cashflow Statement and the Statement of Operating Costs by Departmental Aim and Objectives and the related notes. These financial statements have been prepared under the accounting policies set out within them.

Respective responsibilities of the Accounting Officer and auditor

The Accounting Officer is responsible for preparing the Annual Report and the financial statements in accordance with the Government Resources and Accounts Act (Northern Ireland) 2001 and Department of Finance and Personnel directions made thereunder and for ensuring the regularity of financial transactions. These responsibilities are set out in the Statement of Accounting Officer's Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements, and with International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and whether the Financial Statements and the part of the Remuneration Report to be audited have been properly prepared in accordance with Department of Finance and Personnel directions issued under the Government Resources and Accounts Act (Northern Ireland) 2001. We also report whether in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them. We also report to you if, in our opinion, the Annual Report is not consistent with the financial statements, if the Northern Ireland Audit Office has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by the Department of Finance and Personnel regarding remuneration and other transactions is not disclosed.

We review whether the statement on pages 22 to 24 reflects the Northern Ireland Audit Office's compliance with the Department of Finance and Personnel's guidance on the Statement on Internal Control, and we report if it does not. We are not required to consider whether the Accounting Officer's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of the Northern Ireland Audit Office's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. This other information comprises only the Management Commentary, the Directors' Report and the Remuneration Report, except the salaries and pensions disclosures which are subject to audit. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. Our audit includes examination, on a test basis, of evidence relevant to the amounts, disclosures and regularity of financial transactions included in the financial statements and the part of the Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgments made by the Accounting Officer in the preparation of the financial statements, and of whether the accounting policies are most appropriate to the Northern Ireland Audit Office's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements and the part of the Remuneration Report to be audited are free from material misstatement, whether caused by fraud or error and that in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements and the part of the Remuneration Report to be audited.

Opinion

In our opinion:

- the financial statements give a true and fair view, in accordance with the Government Resources and Accounts Act (Northern Ireland) 2001 and directions made thereunder by the Department of Finance and Personnel, of the state of the Northern Ireland Audit Office's affairs as at 31 March 2006 and the net cash requirement, net resource outturn, resources applied to objectives, recognised gains and losses and cashflows for the year then ended;
- the financial statements and the part of the Remuneration Report to be audited have been properly prepared in accordance with Department of Finance and Personnel directions issued under the Government Resources and Accounts Act (Northern Ireland) 2001; and
- in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

We have no observations to make on these financial statements.

Notes to the Resource Accounts

1. Statement of Accounting Policies

The financial statements have been prepared in accordance with the 2005-06 *Government Financial Reporting Manual (FReM)* issued by the Department of Finance and Personnel. The accounting policies contained in *FReM* follow UK Generally Accepted Accounting Practice for companies (UK GAAP) to the extent that it is meaningful and appropriate to the public sector.

In addition to the primary statements prepared under UK GAAP, *FReM* also requires the Office to prepare two additional primary statements. The *Statement of Parliamentary Supply* and supporting notes showing outturn against the Estimate in terms of the net resource requirement and the net cash requirement. The consolidated *Statement of Operating Cost by Departmental Aim and Objectives* and supporting notes analyse the Northern Ireland Audit Office's income and expenditure by objective.

Where FReM permits a choice of accounting policy, the accounting policy which has been judged to be the most appropriate to the particular circumstances of the Northern Ireland Audit Office for the purpose of giving a true and fair view has been selected. The Northern Ireland Audit Office's accounting policies have been applied consistently in dealing with items considered material in relation to the accounts.

Accounting Convention

1.1 These accounts have been prepared under the historical cost convention modified to account for the revaluation of fixed assets, where material, at their value to the business by reference to their current cost.

Intangible Fixed Assets

1.2 Intangible fixed assets comprise capitalised operational software licenses and the costs involved in implementing the software. The cost of licences and implementation costs are amortised over their expected useful lives of three years. The minimum level for capitalisation of an intangible fixed asset is £500.

Tangible Fixed Assets

1.3 Long leasehold land and buildings have been included on the basis of professional valuations performed by the Valuations and Lands Agency. Office and computer equipment, fixtures and fittings, have been restated using valuation techniques produced by the Office for National Statistics. The minimum level for capitalisation of a tangible fixed asset is £500.

Depreciation

1.4 Depreciation is provided at rates calculated to write-off the valuation of all tangible fixed assets by equal instalments over their estimated useful lives. Assets lives are normally in the following ranges:

Computers	3 years	
Other Equipment	5 years	
Furniture, fixtures and fittings	10-20 years	

The term of the lease for long leasehold land and buildings is 50 years. A revaluation was undertaken at 31 March 2006, at which time the Valuation and Lands Agency reassessed the lease as having 45 years remaining. Depreciation is charged on the re-valued amount over the remaining term of the lease.

Work in Progress

1.5 Work in progress is valued at the lower of cost, including appropriate overheads, and net realisable value.

Operating Income

1.6 Operating income is income which relates directly to the operating activities of the NIAO. It principally comprises fees and charges for services provided by statute or by agreement with the National Audit Office (NAO) and client organisations. Income represents the amounts derived from the provision of completed work for clients during the year and includes an appropriate allowance for work in progress on assignments which will be completed in the following year, including six North/South Implementation Bodies. Additionally, income is received from the Department of the Environment in respect of the cost of providing staff for the audit of District Councils. It includes not only income appropriated in aid of the Estimate but also income to the Consolidated Fund, which in accordance with FReM is treated as operating income. Operating income is stated net of VAT.

Capital charge

1.7 A non-cash capital charge, reflecting the cost of capital utilised by NIAO, is included in operating costs. The charge is calculated at the real rate set by HM Treasury (currently 3.5 per cent) on the average carrying amount of all assets less liabilities, except for balances held in bank accounts within the Northern Ireland Civil Service pool and amounts to be surrendered to the Consolidated Fund.

Operating Leases

1.8 The total cost of operating leases is expensed in equal instalments over the life of the lease.

Pensions

1.9 Present and past employees of the Northern Ireland Audit Office are covered by the provisions of the Principal Civil Service Pension Scheme (Northern Ireland) ((PCSPS) (NI)). The defined benefit scheme is unfunded and is non-contributory except in respect of dependent's benefits. The NIAO recognises the expected cost of these elements on a systematic and rational basis over the period during which it benefits from the employees' services by a payment to the PCSPS (NI) of amounts calculated on an accruing basis. Liability for payment of future benefits is a charge on PCSPS (NI).

Provisions

1.10 Early Departure Costs

The Northern Ireland Audit Office is required to meet the cost of paying the pensions of employees who retire early, from the date of retirement until they reach normal pensionable age. The Northern Ireland Audit Office provides in full for the cost of meeting pensions up to normal retirement age in respect of early retirement programmes operating in the current or previous periods.

1.11 Legal Costs

The Northern Ireland Audit Office provides for the best estimate of the cost of legal advice which it obtains as part of its audit of Local Government accounts.

Value Added Tax

1.12 All income and expenditure in the account is stated exclusive of value added tax. The Office can recover value added tax at a partial exemption rate. For 2005-06 this was a rate of 8 per cent (8 per cent in 2004-05) based on the percentage of business income over total income.

Contingent Liabilities

1.13 NIAO has contingent liabilities in respect of legal costs for which it was not possible to obtain a reliable estimate. These legal fees relate to advice received by the Local Government Audit section and by the Office's Personnel Section.

2. Explanation for Variance in Net Cash Requirement

The resource account shows a variance of £0.84m between the estimated Net Cash Requirement and the outturn. This variance arose because;

- NIAO's staff complement is 146 whole time equivalents. As Note 9 to the resource account shows the actual whole time equivalent for the year was only 140.
- There was less than anticipated capital spend. The Estimate for the year was £265K however the outturn was only £179K. The difference between the Estimate and Outturn was funding due to be spent on replacing and developing the IT infrastructure. Following a review of NIAO's accommodation it was decided that a smaller part of this work than

originally intended would be undertaken in 2005-06 and the rest would be taken forward in 2006-07 as part of the larger accommodation project.

- Invoices in respect of legal fees had not been received by the year end.
- NIAO also increased its provisions figure in respect of early retirements and a personnel issue which will not result in cash payments until 2006-07 and 2007-08.

3. Remuneration of the Comptroller and Auditor General for Northern Ireland

By statute the remuneration of the Comptroller and Auditor General for Northern Ireland and associated employer's national insurance contributions are met directly from the Consolidated Fund, rather than from Supply. For the year ended 31 March 2006 the amount paid in respect of the Comptroller and Auditor General's remuneration was £170,283 (2004-05 £158,594). This was composed of the following;

Salary - \pounds 126,108 (2004-05 \pounds 122,435); Social Security Costs - \pounds 14,540 (2004-05 \pounds 14,121); and Other Pension Costs - \pounds 29,635 (2004-05 \pounds 22,038).

These costs are included under Other Administration costs and are referred to as Consolidated Fund Standing Services (see note 10).

4. Reconciliation Outturn to Net Operating cost

8. Analysis of Income from services provided to clients

The Northern Ireland Audit Office has a target of recovering the full cost of undertaking fee paying work. The information here is provided solely to meet the requirements of the Department of Finance and Personnel's "Fees and Charges" guide and is not disclosed for the purpose of SSAP 25.

9. Staff numbers and related costs

Staff costs consist of:

		2005-06		2004-05
	£000	£000	£000	£000
	Total	Permanently employed staff	Others	Total
Wages and Salaries	5,212	4,982	230	5,169
Social Security Costs	454	447	7	433
Other Pension Costs (including ERC)	1,022	1,005	17	694
Subtotal	6,688	6,434	254	6296
Less recoveries In respect of outward secondments	-	-	-	-
Total net costs*	6,688	6,434	254	6296

*Of the total, £nil has been charged to capital

The PCSPS (NI) is an unfunded benefit scheme which produces its own resource accounts, but the Northern Ireland Audit Office is unable to identify its share of the underlying assets and liabilities. The most up to date actuarial valuation was carried out as at 31 March 2003 and details of this valuation are available in the PCSPS (NI) resource accounts.

For 2005-06, employers' contributions of £1,021,568.10 were payable to the PCSPS (NI) (2004-05 £694,489.75) at one of four rates in the range 16.5 to 23.5 percent of pensionable pay, based on salary bands (the rates in 2004-05 were between 12 and 18 per cent). These rates have increased from 1 April 2005 as a result of the most up to date actuarial valuation. The contribution rates reflect benefits as they are accrued, not when the costs are actually incurred, and reflect past experience of the scheme.

Employees can opt to open a partnership pension account, which is a stakeholder pension with an employer contribution. Employers' contributions of £nil (2004-05 £nil) were paid to a panel of four appointed stakeholder pension providers. Employer contributions are age-related and range from 3 to 12.5 per cent (2004-05 3 to 12.5 per cent) of pensionable pay. Employers also match employee contributions up to 3 per cent of pensionable pay. No contributions were payable to PSCPS (NI) to cover the cost of future provision of lump sum benefits on death in service and ill health retirement of these employees.

Average number of persons employed

Reclassification of assets

A review of the contents in each of the asset categories was carried out during the 2005-06 year to ensure that all assets had been appropriately categorised and it was decided that some of the assets included in the `computer and other equipment' category should really have been `furniture and fittings' and so were reallocated.

Assets in the course of construction

In 2006-07 NIAO is to carry out work to its current headquarters. Part of that work will be the replacement of the IT infrastructure and the amounts included in this category represent the initial element of this expenditure.

13. Intangible Fixed Assets

	Software licences and implementation costs £000

year	(11)	(14)	-	(25)
Balance at 31 March 2006	84	0	63	147

		2004-05		
	Early departure costs £000	Legal costs £000	Total £000	
Balance at 1 April 2004 Provided in the year Provisions utilised in the year	12 38 (39)	- 15 -	12 53 (39)	
Balance at 31 March 2005	11	15	26	

Early departure costs

The Northern Ireland Audit Office meets the additional pension costs of any employees who retire before they reach normal pensionable age. The total pension liability up to the normal retiring age in respect of such employees is charged to the account in the year in which the early retirement decision is made to establish a provision for the estimated payments discounted by the Treasury discount rate.

Legal costs

The provision relates to legal costs incurred by the Local Government Audit Division of the Northern Ireland Audit Office.

Other

This relates to a personnel issue where full provision has been made but the matter has not yet been completely resolved.

19. General Fund

The General Fund represents the total assets less liabilities of NIAO, to the extent that the total is not represented by other reserves and financing items.

	Note	2005-06 £000	2004-05 £000
Balance at 1 April		1,743	1,930
Net Parliamentary Funding Drawdown Deemed Supply	21 (c)	7,151	6,385 49
Consolidated Fund Standing Services	10	170	159

Amounts due to the Consolidated Fund and not paid over	17	1	2
Increase/(decrease) in cash		446	(369)

22. Note to Statement of Operating Costs by Departmental Aim and Objectives

Staff and other direct job costs are allocated to objectives on the basis of costs recorded in the Northern Ireland Audit Office's time recording system. Non-direct job costs are allocated to objectives by apportioning them on a pro-rata basis to direct job costs.

The Northern Ireland Audit Office's capital is employed exclusively for administration purposes. Its distribution between objectives is therefore not markedly different from the distribution of the related gross administration cost.

23. Capital Commitments

At the balance sheet date NIAO had approved a budget of £750K in respect of adjustments to its current accommodation. It has not yet entered into any contracts for this expenditure.

24. Commitments under leases

Commitments under operating leases to pay rentals during the year following the year of these accounts are given in the table below, analysed according to the period in which the lease expires.

	2005-06 £000	2004-05 £000
Obligations under operating leases comprise: Land and buildings: Expiry within 1 year Expiry within 2 to 5 years Expiry thereafter	37 30	- - 62
Photocopiers Expiry within 1 year Expiry within 2 to 5 years Expiry thereafter	- 6 -	- 5 -

25. Other Financial Commitments

The Northern Ireland Audit Office had no other financial commitments as at 31 March 2006.

26. Financial Instruments

FRS 13, Derivatives and Other Financial Instruments, requires disclosure of the role which financial instruments have had during the period in creating or changing the risks an entity faces in undertaking its activities. Because of the largely non-trading nature of its activities and the way in which it is financed, the Northern Ireland Audit Office is not exposed to the degree of financial risk faced by business entities. Moreover, financial instruments play a much more limited role in creating or changing risk than would be typical of the listed companies to which FRS 13 mainly applies. The Northern Ireland Audit Office has no powers to borrow or invest surplus funds. Financial assets and liabilities are generated by day-to-day operational activities and are not held to change the risks facing the Office in undertaking its activities.

As permitted by FRS 13, debtors and creditors which mature or become payable within 12 months from the balance sheet date have been omitted from the currency profile.

Liquidity Risk

The Northern Ireland Audit Office's net revenue resource requirements are financed by resources voted annually by Parliament, as is its capital expenditure. The Northern Ireland Audit Office is not therefore exposed to significant liquidity risks.

Interest Rate Risk

The Northern Ireland Audit Office is not exposed to any interest rate risk.

Foreign Currency Risk

The Northern Ireland Audit Office is not exposed to any foreign currency risk.

27. Contingent Liabilities disclosed under FRS 12

At the balance sheet date NIAO had received legal advice in respect of work carried out by both the Local Government Audit section of NIAO and by its Personnel function. NIAO was unable to get any estimate of the cost of the work carried out to 31 March 2006 and cannot therefore include any provision for the work in the account.

28. Losses and Special Payments

No exceptional kinds of expenditure such as losses and special payments that require separate disclosure because of their nature or amount were incurred.

29. Related Party Transactions

The Northern Ireland Audit Office is headed by the Comptroller and Auditor General for Northern Ireland and was established by the Audit (Northern Ireland) Order 1987.

None of the Senior Management Group, key managerial staff or other related parties has undertaken any material transactions with the Northern Ireland Audit Office during the year.

The Northern Ireland Audit Office has had a small number of transactions with other government departments and other central government bodies. Most of these transactions have been with the Department of Finance and Personnel.
