Source: Initial NOTICAS

Source: UK and Coalition Medical Facilities

Source: AECC

1. Data starts 7 October 2001.

2. The last three months of data are provisional and subject to change.

3. The VSI and SI data includes personnel with an initial NOTICAS listing of VSI or SI who were alive at the time of discharge from their first hospital episode in the UK.

4. The VSI and SI injury data includes records classified as 'Other Causes'. This classification is used when there is insufficient information to attribute a casualty to injury or natural cause.

5. Civilians are not included in the figures previous to 1 January 2006

6. The personnel listed as VSI or SI may also appear in the UK field hospital admissions and aeromed evacuations data.

7. The admissions data contain UK personnel admitted to any field hospital, whether operated by UK or Coalition Medical Facilities.

8. The disease or non battle injury figures are non battle injuries only until 27 October 2006, disease is included from 28 October to be consistent with Op TELIC reporting.

9. Field Hospital Admissions data starts 1 March 2006.

p. These numbers are provisional due to not receiving field hospital data for 25th to 31st August 2013. Defence Statistics have used alternative sources for this weeks data (JTTR, NOTICAS and Defence Patient Tracking System). These numbers are subject to change in next months release once the field hospital data has been received.

1. Data starts 7 October 2001.

2. The last three months of data are provisional and subject to change.

3. Some deaths may not have clearly defined cause information and could be subject to change depending on the outcome of Boards of Inquiry and/or Coroners Inquest.

4. These data include all deaths occurring as a result of accidental or violent causes while deployed and deaths due to disease related causes during the deployment.
